

Sustainable Building and Planning Advisory Committee

July 15, 2009 – Meeting Summary

The following items were discussed at the meeting:

1. Old Business

- a) Updated committee on the Council presentation

2. New Business

- a) Shared matrix with the group and requested feedback.
 - Committee discussed matrix and other tools for helping to organize thought and develop recommendations.
 - Some members wanted to review established programs again to help develop recommendations.
 - Discussed pros and cons of starting with the smaller components and working larger into an established program vs. starting with an established program and working smaller based on priorities and desired program components.
 - Discussed the need to determine why a specific program component is not desirable before dismissing it.

The following items were assigned at the meeting:

Mariel, Troy and Jolyon: Create process for developing recommendations.
