

**AGENDA OF THE
HAILEY CITY COUNCIL MEETING
Monday August 17, 2015 Hailey City Hall Meeting Room**

***Amended Agenda Item**

5:30 p.m. CALL TO ORDER - Open Session for Public Concerns

CONSENT AGENDA:

CA 312	Motion to approve Contractor Northwest Inc.'s pay request #2 for work done on the Biosolids Project during the month of July in the amount of \$23,271.09	1
CA 313	Motion to approve Resolution 2015-67, ratifying the Council President's signature and authorizing an Agreement with Asphalt Systems Inc. for the purchase of fog seal material for Woodside Blvd. in the amount of \$18,040.00.....	8
CA 314	Motion to approve Resolution 2015-68, ratifying the Mayor's signature and authorizing an Agreement with Idaho Asphalt Supply, Inc. to supply oil for the Woodside Blvd. chip seal project in the amount of \$30,360.00	12
CA 315	Motion to approve Resolution 2015-69, ratifying the Mayor's signature and authorizing an Agreement with Pavement Markings Northwest, Inc. for roadway markings and striping throughout the City of Hailey, including Woodside Blvd. in the amount of \$24,260.58	16
CA 316	Motion to approve alcohol license renewals for Hailey businesses	20
CA 317	Motion to approve Letter of Engagement from Dennis R. Brown, CPA, for FY15 audit and allow Mayor to sign....	31
CA 318	Motion to approve selection of Health Insurance Agent of Record for City of Hailey.....	39
CA 319	Motion to approve minutes of August 3, 2015 and to suspend reading of them	66
CA 320	Motion to approve claims for expenses incurred during the month of July 2015, and claims for expenses due by contract in August, 2015	72
CA 321	Motion to approve Treasurer's reports for July 2015	97

MAYOR'S REMARKS:

MR 000

PROCLAMATIONS & PRESENTATIONS:

PP 322	Senior Project overview by Wood River High School student Austin Shelter.....	108
------------------------	---	-----

PUBLIC HEARING:

PH 323	Water System Master Plan overview and presentation by SPF Engineering and approval of Resolution 2015-70, to formally adopt the plan	110
PH 324	Presentation by TischlerBise of Development Impact Fees Study and recommendations.....	121
PH 325	Public Hearing on FY 2016 Budget	167
	1. Public Hearing and City Council Discussion	
	2. Public Hearing on Water and Wastewater fees for FY 2016	
	3. Consideration of Annual Appropriation Ordinance No. 1184	
	4. Authorization to approve and sign L-2 Form, certifying property tax levy to Blaine County Board of County Commissioners	172
PH 326	Consideration of proposed Ordinance _____, Zoning Code amendments to Ordinance 532, Chapter 17.05 (soon to be Title 17) to allow urban agriculture to an Accessory Use to Schools	206
PH 327	Consideration of proposed Ordinance _____, Zoning Code amendments to Ordinance 532, Chapter 17.06 (soon to be Title 17) to clarify when Design Review is required	211
PH 328	Consideration of city initiated amendments to water and wastewater Standard Drawings in Title 18, Mobility Design.....	218
PH 329	Resolution 2015-71, to create Private Water and Wastewater System Permit Fees.....	228

NEW BUSINESS:

[NB 330](#) Consideration of text amendments to Title 13 to address wastewater service connections to the City’s mainline and various changes to the water section of Title 13..... 232

OLD BUSINESS:

[OB 331](#) 3rd Reading Ordinance 1181 amending Mayor and Council Salaries..... 234

STAFF REPORTS: Staff Reports Council Reports Mayor’s Reports

[SR 332](#) Draft Agendas for Special August 31, 2015 council meeting, and Regular September 21, 2015 council meeting..... 238

[*SR 334](#) *Nuclear Waste correspondence including an email from Robert Leyse office of Attorney General*..... 242

EXECUTIVE SESSION: Pending & Imminently Likely Litigation (IC 67-2345(1)(f))

Matters & Motions from Executive Session

Next Ordinance Number - 1185 Next Resolution Number- 2015-72

NEW BUSINESS continued:

[NB 333](#) Motion to approve Resolution 2015-____, allowing Givens Pursley to engage Brockway Engineering for professional services in the water delivery calls and authorizing the Mayor to sign 249

AGENDA ITEM SUMMARY

DATE: 08/17/15

DEPARTMENT: PW

DEPT. HEAD SIGNATURE: MP

SUBJECT: Motion to approve Woodside WWTP Biosolids Project Contractor's Pay Request No: 2 in the amount of \$23,271.09, for work completed during the month of July, 2015.

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

Retainage of 5% is withheld from the total costs incurred by the contractor. The amount in the motion is the net pay amount.

July and August update: Little work was done in July. The contractor finalized excavation, started some concrete and rebar work, and relocated some existing underground pipes. CNI was short staffed and hopes to mobilize more people to the site and make up any time lost in July. Work in August has increased and the contractor is hopeful that they can get back on track with their construction schedule.

It is anticipated that two change orders will be processed later this month or early next. Details on these change orders will be provided to the Council at that time.

FISCAL IMPACT / PROJECT FINANCIAL ANALYSIS:

Project is still under-budget at this point in time. No Change Orders have occurred yet.

ACKNOWLEDGEMENT BY OTHER AFFECTED CITY DEPARTMENTS: (IF APPLICABLE)

AGENDA ITEM SUMMARY

DATE: 08/17/15 DEPARTMENT: PW DEPT. HEAD SIGNATURE: MP

SUBJECT: Resolution 2015-67 ratifying the Council President's signature and authorizing the Sealing Agreement with Asphalt Systems, Inc. to fog seal Woodside Blvd. in the amount of \$18,040.00.

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IFAPPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

Fog seal extends the life of the street and helps reduce the frequency of chip seal work. We plan to fog seal Woodside Blvd., following chip seal, on August 24th.

See attached agreement.

AGENDA ITEM SUMMARY

DATE: 08/17/15 DEPARTMENT: PW DEPT. HEAD SIGNATURE: MP

SUBJECT: Resolution 2015-68 ratifying the Mayor's signature and authorizing the Idaho Asphalt Supply, Inc. to supply oil for the Woodside Blvd. Chip seal project in the amount of \$30,360.00.

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

Per the Settlement Agreement with Knife River, the city is responsible for the materials for the chip seal project planned for Aug. 13-14th. The cost of oil for the chip seal project is \$460.00 a ton with an estimated 66 tons needed to complete the project. This equals an amount of \$30,360.00, plus \$460.00 for every additional ton of oil needed.

The agreement does not include application costs since Knife River will be applying the chips and oil with their equipment and labor.

See attached agreement.

PRODUCT	QUANTITY (Tons)	UNIT PRICE Excluding Sales Tax	Effective Thru	FREIGHT	F.O.B.
CRS-2P	66.00	\$460.00	10/31/2015	\$24.50	Job Site
DISTRIBUTOR SERVICE \$1,000.00 Minimum Charge		\$20.00/TON or \$175.00/HR (Whichever is Greater)			

Special Contract Provisions:

Pricing "piggybacks" awarded CRS-2R price offering to Fremont Co. Commissioners March 23, 2015 and will remain firm for the 2015 season. Payment terms are NET 15th; payment is due the fifteenth of the month following delivery.

- 1> All products will conform to the Idaho Transportation Department specifications.
- 2> Idaho Asphalt Supply, Inc. / Peak Asphalt, LLC reserves the right to ship from any supply facility on a freight equalized basis.
- 3> This price acknowledgement is made expressly subject to the terms and conditions of the Idaho Asphalt Supply, Inc. / Peak Asphalt, LLC standard purchase agreement.
- 4> Freight will be invoiced separately by a common carrier.
- 5> Freight is subject to a fuel surcharge at time of delivery.
- 6> The above prices on the above quantities are valid for 5 (five) days from the date of this acknowledgement and if they are accepted within the stated period will remain effective thru the 2015 season.

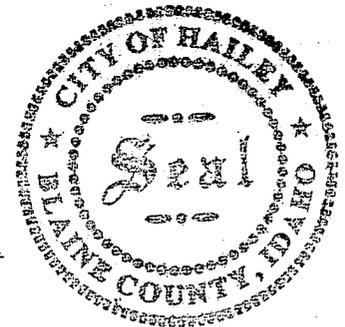

Miscellaneous incidental charges are as follows:

All prices based on a 30 ton minimum. Full freight to destination and 1/2 freight charges will be assessed on returned product. No credit will be given for anti-strip or diluted materials. Unloading time: 3.00 hours, free then 80.00 per hour thereafter. Overnight holdover: 350.00 per night. Restocking fee for returned product: 250.00. Equipment charge for job-site pump-off; flat fee per occurrence (no polymer modified asphalts): 80.00.

Thank you for giving us the opportunity to prepare this bid.

June 29, 2015

City of Hailey, Idaho
115 Main Street South, Ste H
Hailey, Idaho 83333

I am pleased to confirm my understanding of the services I am to provide the City of Hailey, Idaho (City) for the year ended September 30, 2015. I will audit the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information, including the related notes to the financial statements, which collectively comprise the basic financial statements of the City of Hailey, Idaho as of and for the year ended September 30, 2015. Accounting standards generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the City's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of my engagement, I will apply certain limited procedures to the City's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I will not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance. The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

- 1) Management's Discussion and Analysis.
- 2) Budgetary Information.

I have also been engaged to report on supplementary information other than RSI that accompanies the City's financial statements. I will subject the following supplementary information to the auditing procedures applied in my audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and I will provide an opinion on it in relation to the financial statements as a whole, in a separate written report accompanying my auditor's report on the financial statements.

Audit Objectives

The objective of my audit is the expression of opinions as to whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. My audit will be conducted in accordance with auditing standards generally accepted in the United States of America and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and will include tests of the accounting records of the City and other procedures I consider necessary to enable me to express such opinions. I will issue a written report upon completion of my audit of the City's financial statements. My report will be addressed to the City Council of the City of Hailey, Idaho. I cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for me to modify my opinions or add emphasis-of-matter or other-matter paragraphs. If my opinions on the financial statements are other than unmodified, I will discuss the reasons with you in advance. If, for any reason, I am unable to complete the audit or am unable to form or have not formed opinions, I may decline to express opinions or issue reports, or may withdraw from this engagement.

I will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements as required by *Government Auditing Standards*. The report on internal control and on compliance and other matters will include a paragraph that states (1) that the purpose of the report is solely to describe the scope of testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control on compliance, and (2) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. The paragraph will also state that the report is not suitable for any other purpose. If during my audit I become aware that the City is subject to an audit requirement that is not encompassed in the terms of this engagement, I will communicate to management and those charged with governance that an audit in accordance with U.S. generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards* may not satisfy the relevant legal, regulatory, or contractual requirements.

Audit Procedures—General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, my audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. I will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government. Because the determination of abuse is subjective, *Government Auditing Standards* do not expect auditors to provide reasonable assurance of detecting abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because I will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by me, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, I will inform the appropriate level of management of any material errors, any fraudulent financial reporting, or misappropriation of assets that come to my attention. I will also inform the appropriate level of management of any violations of laws or governmental regulations that come to my attention, unless clearly inconsequential, and of any material abuse that comes to my attention. My responsibility as auditor is limited to the period covered by my audit and does not extend to later periods for which I am not engaged as auditor.

My procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. I will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of my audit, I will require certain written representations from you about your responsibilities for the financial statements; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by generally accepted auditing standards.

Audit Procedures—Internal Control

My audit will include obtaining an understanding of the government and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Tests of controls may be performed to test the effectiveness of certain controls that I consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. My tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in my report on internal control issued pursuant to *Government Auditing Standards*.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. However, during the audit, I will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards and *Government Auditing Standards*.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, I will perform tests of the City's compliance with the provisions of applicable laws, regulations, contracts, agreements, and grants. However, the objective of my audit will not be to provide an opinion on overall compliance and I will not express such an opinion in my report on compliance issued pursuant to *Government Auditing Standards*.

Other Services

I will also assist in preparing the financial statements and related notes of the City in conformity with U.S. generally accepted accounting principles based on information provided by you. These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*.

Management Responsibilities

Management is responsible for establishing and maintaining effective internal controls, including evaluating and monitoring ongoing activities, to help ensure that appropriate goals and objectives are met; following laws and regulations; and ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles, for the preparation and fair presentation of the financial statements and all accompanying information in conformity with U.S. generally accepted accounting principles, and for compliance with applicable laws and regulations and the provisions of contracts and grant agreements.

Management is also responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, (2) additional information that we may request for the purpose of the audit, and (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence.

Your responsibilities include adjusting the financial statements to correct material misstatements and for confirming to me in the written representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing me of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws, regulations, contracts, agreements, and grants and for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, contracts or grant agreements, or abuse that I report.

You are responsible for the preparation of the supplementary information, which I have been engaged to report on, in conformity with U.S. generally accepted accounting principles. You agree to include my report on the supplementary information in any document that contains and indicates that I have reported on the supplementary information. You also agree to include the audited financial statements with any presentation of the supplementary information that includes my report thereon or make the audited financial statements readily available to users of the supplementary information no later than the date the supplementary information is issued with my report thereon. Your responsibilities include acknowledging to me in the written representation letter that (1) you are responsible for presentation of the supplementary information in accordance with GAAP; (2) you believe the supplementary information, including its form and content, is fairly presented in accordance with GAAP; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reasons for such changes); and (4) you have disclosed to me any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing report copies of previous financial audits, attestation engagements, performance audits or other studies related to the objectives discussed in the Audit Objectives section of this letter. This responsibility includes relaying to me corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or other studies. You are also responsible for providing management's views

on my current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

You agree to assume all management responsibilities relating to the financial statements and related notes and any other nonaudit services I provide. You will be required to acknowledge in the management representation letter my assistance with preparation of the financial statements and related notes and that you have reviewed and approved the financial statements and related notes prior to their issuance and have accepted responsibility for them. Further, you agree to oversee the nonaudit services by designating an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Engagement Administration, Fees, and Other

I may from time to time, and depending on the circumstances, use third-party service providers in serving your account. I may share confidential information about you with these service providers, but remain committed to maintaining the confidentiality and security of your information. Accordingly, I maintain internal policies, procedures, and safeguards to protect the confidentiality of your personal information. In addition, I will secure confidentiality agreements with all service providers to maintain the confidentiality of your information and I will take reasonable precautions to determine that they have appropriate procedures in place to prevent the unauthorized release of your confidential information to others. In the event that I am unable to secure an appropriate confidentiality agreement, you will be asked to provide your consent prior to the sharing of your confidential information with the third-party service provider. Furthermore, I will remain responsible for the work provided by any such third-party service providers.

I understand that your employees will prepare all cash or other confirmations I request and will locate any documents selected by me for testing.

I will provide copies of my reports to the City of Hailey, Idaho; however, management is responsible for distribution of the reports and the financial statements. Unless restricted by law or regulation, or containing privileged and confidential information, copies of my reports are to be made available for public inspection.

The audit documentation for this engagement is the property of Dennis R Brown, CPA and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. I will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Dennis R. Brown CPA personnel. Furthermore, upon request, I may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

The audit documentation for this engagement will be retained for a minimum of five years after the report release date or for any additional period requested by the City. If I am aware that a federal awarding agency or auditee is contesting an audit finding, I will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

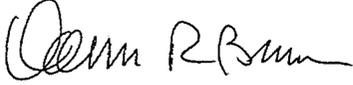

I expect to begin my audit on approximately November 15, 2015 and to issue my reports no later than January 31, 2016. This estimate annually is based on availability of records and cooperation of City personnel. Dennis R Brown is the engagement partner and is responsible for supervising the engagement and signing the reports or authorizing another individual to sign them.

My fee for these services will be at my standard hourly rates plus out-of-pocket costs (such as report reproduction, word processing, postage, travel, copies, telephone, etc.) except that we agree that my gross fee, including expenses, will not exceed \$10,500. My standard hourly rates vary according to the degree of responsibility involved and the experience level of the personnel assigned to your audit. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, I will discuss it with you and arrive at a new fee estimate before I incur the additional costs.

Government Auditing Standards require that I provide you with a copy of my most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract. My 2012 peer review report accompanies this letter.

I appreciate the opportunity to be of service to the City of Hailey, Idaho and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let me know. If you agree with the terms of our engagement as described in this letter, please sign the enclosed copy and return it to me.

Very truly yours,

Dennis R. Brown
Certified Public Accountant

RESPONSE:

This letter correctly sets forth the understanding of the City of Hailey, Idaho.

System Review Report

December 17, 2012

To the Owner of
Dennis R. Brown
and the Peer Review Committee of the Idaho Society of CPAs

We have reviewed the system of quality control for the accounting and auditing practice of Dennis R. Brown (the firm) in effect for the year ended August 31, 2012. Our peer review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants. As a part of our peer review, we considered reviews by regulatory entities, if applicable, in determining the nature and extent of our procedures. The firm is responsible for designing a system of quality control and complying with it to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Our responsibility is to express an opinion on the design of the system of quality control and the firm's compliance therewith based on our review. The nature, objectives, scope, limitations of, and the procedures performed in a System Review are described in the standards at www.aicpa.org/prsummary.

As required by the standards, engagements selected for review included engagements performed under the *Government Auditing Standards*.

In our opinion, the system of quality control for the accounting and auditing practice of Dennis R. Brown in effect for the year ended August 31, 2012, has been suitably designed and complied with to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Firms can receive a rating of *pass*, *pass with deficiency(ies)* or *fail*. Dennis R. Brown has received a peer review rating of *pass*.

Return to Agenda

AGENDA ITEM SUMMARY

DATE: 08/17/2015 **DEPARTMENT:** Admin **DEPT. HEAD SIGNATURE:** HD

SUBJECT: Motion to approve selection of a Health Insurance Agent of Record for the City of Hailey.

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

With Hailey's transition from III-A to a Small Group insurance, an Agent of Record is needed. Within the small group quotes is imbedded a percentage for an Agent, and the quotes are not reduced by the Group not having an Agent. An Agent will be instrumental in helping the Benefits Committee and City Council navigate through the various benefit designs offered, as well as obtaining future quotes, assisting staff with enrollment, claims resolution, and assistance with preauthorization both in and out of network. Significant time will be saved by city staff if an Agent is well-utilized.

We sent out a Request for Qualifications to all agents with a local office. We received five responses, three of whom submitted the required written material. A team of four city staff interviewed all three prospective Agents, and have ranked them in the following order:

1. Mary Comber of Starley-Leavitt Insurance.
2. Candace Ireland of Ireland Insurance.
3. Kathleen Harrison of Harrison Insurance.
4. Michelle Sandoz of Idaho Insurance Specialist (declined to apply after full exploration of the opportunity).
5. Wood River Insurance (declined to apply).

The top two were ranked based on the following criteria:

Criteria	Starley-Leavitt	Ireland
Experience with Groups of our size	4	4
Experience with comparable Governments	4	2
Local Office	2	4
Customer Service and Availability	3	4
Strategic Approach Other Broad Services	4	3
Knowledge Base of Groups, HRA's and vested HRA's	4	4
Knowledge of ACA products and Laws	4	3
Attention to Detail within quotes	3	4
Relational and comfortable negotiating	4	3
Other Broad Services (see S-L page 5)	4	3
Total Points	36	34

Both of these candidates displayed exemplary customer service skills and knowledge. Starley-Leavitt's broad products, fluent knowledge of the Affordable Care Act, and strategic approach based in experience with other local governments edged their points to the top. The company has an office in Bellevue held for the purpose of client meetings.

A rating system is not required for entering into a contract for professional services such as this, and the final decision rests with the Hailey City Council.

FISCAL IMPACT / PROJECT FINANCIAL ANALYSIS:

Hailey's fiscal position will be enhanced through an Agent, as staff time will be minimized, employee care will be increased, and we will be receiving a service that will be paid for whether we use the service or not.

ACKNOWLEDGEMENT BY OTHER AFFECTED CITY DEPARTMENTS: (IF APPLICABLE)

City Attorney Treasurer Clerk
 Administrator Community Development Mayor

RECOMMENDATION FROM APPLICABLE DEPARTMENT HEAD:

Motion to approve selection of a Health Insurance Agent of Record for the City of Hailey.

Re: Health Insurance Proposal

Dear Heather:

Thank you for the opportunity to present the following employee health insurance benefits proposal to the City of Hailey.

With recent and ongoing regulatory changes, many organizations are looking for common sense solutions to their employee benefits strategies. With our consultative approach and supporting resources, we can confidently navigate the challenges and opportunities of health care reform, effectively control plan cost, and manage constant changes with regards to compliance issues, regulations and reporting requirements. In addition, our team provides personalized employee education, communication and assistance to meet the needs of the City of Hailey.

Starley Leavitt Insurance and The Leavitt Group are co-owners of the local agency in Twin Falls. The Leavitt group is the 12th largest broker in the nation and 3rd largest independent broker nationally. What does this mean for you, the customer? Through this affiliation, it simply means we can offer our customers deeper volume discounts with national carriers and TPA's. Instead of generic corporate solutions, we provide our customers with benefit strategies tailored to their specific needs.

On behalf of Starley Leavitt Insurance Agency, Inc., I am pleased to submit the following employee health benefits proposal.

21. Other Fees Schedules:

Group Size: 22 employees
Eight years with the current program.
Current Cost of Program: \$180,120.00

\$1000 ded; 80/20 Co-ins; \$2000 OPM; Rx \$10/\$25/\$50; EAP,
Accidental Injury;
Dental
Vision
HRA – 100% Vested after five years of employment

Five Year Rate History – Five year average increase 5.52%
2010 - 1.5% increase
2011 - 5.5% increase
2012 - 7.5% DECREASE
2013 – 14% increase
2014 – 14% increase

Each year a 12% - 15% increase was budgeted.

22. Quote Analysis:

Our recommendation would be to consider the following options with Regence Blue Shield of Idaho:

Option 1 – Direct Plus Gold
\$1000 Deductible
80%/20% Co-Insurance
\$3500 Out-of-Pocket Maximum
Rx - \$10/\$40/50%/50%

Based on the final rulings on the upcoming Cadillac Tax guidelines this recommendation may change. In the event that the Cadillac Tax would affect the City under this plan we would recommend Option 3, Direct Silver Plus. (Please see attached spreadsheet)

23. Other Insurance Providers:

Although there are other reputable carriers for your group, I believe you would run into out-of-network fees in your area.

24. Dental and Vision:

We will obtain quotes from all carriers that have a strong doctor's office participation level for dental and vision in your area. We would also suggest consideration of a self-funded dental and vision plan.

25. Creative Solutions:

Our recommendation is for the City of Hailey to implement a fully funded group medical insurance plan with an HRA to offset the deductible and co-insurance. The HRA component can be opened up to cover other expenses and that is open for discussion. Rather than allowing additional expenses to be covered through the HRA we recommend the City consider allowing employees to become vested in their HRA after five years of employment. The vested amount can be capped at a certain amount for cost containment purposes. This has proven to be a favorable addition to the benefits package with other groups, as it is viewed as an additional retirement benefit.

National Benefit Services (NBS) is the TPA we use for all HRA, FSA and COBRA administration. Unless there is another TPA the City prefers, NBS is where we would place your plans. (Please see attached fee schedule)

In light of the upcoming Cadillac Tax in 2018, it may be necessary to modify the plan design even more by increasing the deductible and co-insurance to lower premiums in order to avoid the tax. We are monitoring this very closely on an ongoing basis to protect all groups from the tax as is the case with all ACA and DOL compliance issues and reporting requirements.

We would encourage the City to develop a wellness program utilizing the platform already provided by the carrier. Our staff will assist in full implementation and continued support throughout the program to ensure its

success, i.e. reward incentives, biometric screenings, General Health Assessments, etc...

Given the ever changing environment of health benefits compliance issues and the upcoming reporting requirements the team at Starley Leavitt is proactive in educating, servicing and supporting our clients and their employees. We are always striving to find the very best solutions and implementing new programs to fit your needs.

Additional benefits with our agency include:

- ERISA Compliance and Legal Consulting
- Health Care Reform Updates and Dedicated Website
- Dedicated HR Website and Phone Consultation Services
- Informational Seminars
- Claims Reconciliation
- Discount Programs
- Spanish Translation
- Employee Education and Training
- COBRA Administration
- Cadillac Tax Calculator and Education
- 8 Pillars Financial Wellness, Eliminate Financial Stress

Thank you for your consideration. We hope to hear from you soon.

Respectfully,

Mary J. Comer, CBC
Certified Benefits Consultant

August 10, 2015

Heather Dawson, City Administrator
115 Main Street South, Suite H
Hailey, ID 83333

Dear Heather,

Thank you for giving Ireland & Associates Insurance the opportunity to submit a proposal to the City of Hailey to act on their behalf as the agent for the group health insurance program. The following is a response to the "Qualifying Requirements" section of the proposal beginning with question #15 and going through question #25.

#15 Primary Location

Street Address: 111 N. First Ave. Suite 2N Hailey, ID 83333
Mailing Address: PO Box 3769 Hailey, ID 83333
Email address: candace@irelandassociates.com
Phone: (208)788-2616
Fax: (208)788-4547

#16 Service Location

Same Location as listed above

#17 Partners and Subcontractors

No Proposal

#18 Account Representative

Primary Contact Candace Ireland
candace@irelandassociates.com
Secondary Contact Lisa Uhrig

Mailing Address PO Box 3769 Hailey, ID 83333
Phone (208)788-2616
Fax (208)788-4547

#19 Other Municipal Clients

No Proposal

#20 Other References

References Attached from local community employers

#21 Other Fees Schedules

Small Group Current Clients

I represent several Small Group clients but only two local employers, both with 10 or less employees, are enrolled on the new “metal” Qualified Health Plans (as determined by the ACA and made available in January 2014).

The remainder of my Small Group clients have “Grandfathered”/ Grandmothered” plans which are no longer available for new group enrollment. Their plan designs and premiums are not relevant to this proposal, so to avoid adding unnecessary verbiage and possible confusion, I’ve opted not to include the details of their plans. As this proposal is a matter of public record, I also hesitate to include any identifiable information as to the number of employees, premiums and budgets of local employers due to privacy reasons. I represent a wide range of local employers.

As I’m sure you are aware, Small Group plans are no longer underwritten and the premiums are based solely on age and the use/non-use of tobacco by the employees enrolled on the group plan.

#22 Quotes Analyses

I’ve designed a spreadsheet (attached) that places the quotes you provided from both Blue Cross of Idaho and Regence BlueShield of Idaho, side by side for benefit comparison purposes. I’ve chosen a Gold plan from each company, and a Silver plan from each company to compare. Although Blue Cross has provided “age-banded” rates, and Regence has provided “composite” rates, the total premium for each company for the same type of “Metal Plan” is comparable. The major difference is the cost to the employee for their dependent(s). Composite rates transfer more of the cost to a dependent child than the age-banded rates. The age-banded rates, for your group, put more of the cost on the spouse. *Please see attached comparisons.*

#23 Quote From Other Providers

My Small Group clients are insured by either Blue Cross of Idaho or Regence BlueShield of Idaho. Although there are other insurance providers available in Idaho, I have found that the “Blue” plans appear to be a better choice for our area due to the size of their local, and national networks, as well as their access to world-wide coverage through BlueCard. I’ve provided information on three other carriers in Idaho, and for the reasons listed, mainly network limitations, I’m not recommending that the City of Hailey obtain quotes this year, with the possible exception of SelectHealth.

SelectHealth – SelectHealth partners with St. Luke’s Health System plan in Idaho as well as through the BrightPath network. They are a Utah based company. Members can choose to receive medical services in Utah through the Select Care network and receive participating benefits. SelectHealth is a Point of Service (POS) provider through St. Luke’s, and offers benefits under a Preferred Provider Organization (PPO) through the BrightPath network which is also a partner of St. Luke’s. Their national network is through Multi-Plan and PHCS for **emergency and urgent care only** when outside of the Idaho or Utah area. This is primarily a plan for Idahoans who only use St. Luke’s providers while in Idaho. St. Alphonsus Hospital in Boise is not in-network.

PacificSource – There are two types of **county specific** networks available for Blaine County. The first is a PPO through PSN providers in Oregon, Idaho, Montana and southern counties in Washington, and the second, a Coordinated Care network (CCN) with providers available in limited counties in Southwestern Idaho. The national network is for **emergency and urgent care** when out of Idaho. Again, I would cite the network limitations of these plans.

**City of Hailey
Comparison of Benefits**

Benefits	Blue Cross of Idaho Gold Choice 1000	Regence BlueShield of Idaho Gold +	Blue Cross of ID Silver Choice	Regence BlueShield Direct Silver +

Mountain Health Co-op – MHC is new to Idaho in 2015. I have written several individual plans with them, but I do not have enough experience with their group products to confidently recommend them at this time. Their staffing in Idaho is limited and customer service issues, on an individual basis, have been difficult to resolve. They are still too new and I wouldn't recommend them at this point in time to a group the size of the City of Hailey. Coventry is their national network provider, and although large, they aren't as responsive as our "local" carriers.

#24 Dental and Vision

I am contracted with Blue Cross of Idaho, Regence BlueShield of Idaho, and Delta Dental of Idaho to represent their dental plans. I prefer Delta Dental's plans to the other two companies as the majority of dentist's in our area are contracted with Delta Dental's "Premier" plan and accept the contract pricing without balance billing. They have an employer portal that is user friendly for reports, billing and enrollment.

The pricing is comparable between the three companies.

VSP is the largest provider of vision services in our area. They are well priced and are easily accessible through an employer portal for reports, billing and enrollment. Blue Cross of Idaho contracts their vision services through VSP for their group clients. I am contracted with VSP.

#25 Creative Solutions

There are several ways to offer stronger employee benefits, while at the same time saving money for an employer. The key is to evaluate your objectives for your benefits package.

Knowing your employee population and what they want/need in a benefit package should be considered before committing to a benefit plan. Implementing what works well for one company won't necessarily work well for another. With that in mind I've listed a few of the many options available for you to consider.

Wellness Programs

Blue Cross of Idaho, Regence BlueShield of Idaho and SelectHealth offer interactive Wellness programs for employees through their online member portals. These plans encourage employees to become more aware of their health and assist them in making choices for lifestyle changes that are pertinent to their particular situations, while maintaining their privacy. They can choose the level in which they are comfortable participating, and there are reward programs in place for meeting certain milestones in their progress.

The insurance companies help the employer in establishing these plans, customizing them if appropriate and they assist the employees in understanding the benefits and enrolling in the program.

Health Reimbursement Arrangements

HRAs are employer-paid health care arrangements that are typically paired with a high-deductible-health plan. The employer, through the assistance of a Third Party Administrator (TPA), creates an unfunded account for each participating employee and reimburses the employees up to a predetermined amount established by the employer for substantiated medical expenses not covered by insurance. Generally, the reimbursements cover deductibles and copayments, but can also be used to

pay for health insurance premiums for current employee, retirees, and qualified beneficiaries, and Qualified Long Term Care Premiums. They may not be used to cover individual plan premiums. The monies contributed to the HRA are tax deductible to the employer, and the contribution amounts and reimbursements for medical expenses are tax free to the employee. HRA accounts can be rolled from year to year at the discretion of the employer.

There are many ways to structure benefit plans for employees who are offered group health insurance that are beneficial to the employee and the employer. Listing all of them is not necessarily prudent until meeting with the employer and determining your goals and objectives.

I am appreciative of the opportunity you've given me to submit a proposal to the City of Hailey, and am looking forward to assisting you in designing a health benefits package for your employees. Thank you.

Sincerely,

Candace Ireland

RE: Personal Recommendation

Dear City of Hailey Officials:

It is my pleasure to write to you regarding Mrs. Candace Ireland and specifically the services that she has provided to my company for nearly seven years.

Mrs. Ireland has been the preferred insurance agent for my company's group health insurance programs since October 1, 2008. The demographics of my company and clients span across multiple states and countries; as a result I work with several independent insurance agents and brokers. It is a true pleasure to work with Mrs. Ireland and to have her as part of my team, so-to-speak. She has created a great working relationship. She is responsive to our requests and has proven that she is both knowledgeable and capable when it comes to understanding our health insurance requirements, which can be relatively complex; all of this in a time when policies, procedures, and programs are in constant flux.

Mrs. Ireland has created an environment whereby my employees contact her directly if they have questions about their coverage or if they have a specific need or require special assistance with their claims. This direct line of communication with Mrs. Ireland ensures their privacy, which is a must, as well it also removes a great deal of burden from me and my staff as plan administrators. It is difficult to count the number of hours that she has saved me over the years.

I am confident that Mrs. Ireland will provide the same level of exceptional service as an agent for your group health insurance that she has consistently given to me.

Respectfully,

Travis M. Smart, CPA, M.Tax

City of Hailey
VIA: HAND DELIVERY

Ref: Candace Ireland
Ireland & Associates Insurance, LLC

To Whom it May Concern,

It is with great pleasure that I am writing to recommend Candace Ireland to you as your Agent for group health insurance.

For the past 8 years Candace has been assisting us with our group health insurance needs. During this time, Candace has been prompt and attentive in producing policy materials and renewals. Of particular value to me is Candace's hands approach to our needs. While maintaining a high level of professionalism, Candace has personalized her service in a manner which shows she cares. Candace has made herself available day and night to explain and clarify policy specifics and coverage questions to our entire staff.

I have the highest regard and admiration for Candace's abilities in all aspects of insurance. She understands the details of her industry and is comfortable in representing them. It is because of her excellence in this area, as well as my experience working with her that I highly recommend Candace Ireland to you. Please do not hesitate to contact me directly should you have any additional questions or require additional information regarding Candace.

Warmest Regards,

A handwritten signature in cursive script that reads "M. Hanson".

Monica A. Hanson
Partner
Alpine Investment Group, LLC

August 3, 2015

To Whom It May Concern:

Candace Ireland of Ireland & Associates Insurance has been the health insurance agent for my company since January 1, 2006.

Candace manages our health and dental policies, assists with annual renewals, new employee enrollments, and works directly with employees.

She helps employees understand their covered benefits, and assists them with any claims issues and questions or concerns they may have about their coverage. Candace provides spreadsheets of claims for the employees when necessary, to help them better understand how their claims were paid, and provides a summary showing the amounts they owe to specific providers and facilities.

Candace and her office staff are responsive and reliable, return phone calls and answer emails promptly. They are knowledgeable and easy to work with. Candace will meet with employees after business hours so as not to impact their work schedules.

I feel confident recommending Candace Ireland of Ireland & Associates Insurance to assist you with your health insurance needs. She is both knowledgeable and qualified under the new ACA guidelines to assist businesses with choosing the plan(s) that best meets their needs.

Sincerely,

Carolyn Lister

RE: Candice Ireland, Ireland and Associates

To Whom It May Concern,

I am the Executive Director from Swiftsure Ranch Therapeutic Equestrian Center and have worked with Candace Ireland for almost 5 years in this capacity.

Candace's professionalism is mixed with caring and integrity. She is always very responsive and helpful and has always looked out for not only the interest of our organization but also the employees we have. I don't feel like she is selling a policy but rather, looking out for the best possible solution through research and investigation based on our needs.

I highly recommend her and her company for your needs and if you have any additional questions, please do not hesitate to contact me.

Sincerely,

Cheryl L. Bennett

Employee Health Insurance Proposal

City of Hailey

Submitted by Kathleen Harrison

Harrison Insurance & Financials appreciates the opportunity to participate in your RFQ for the City of Hailey's Employee Health Insurance.

- 1.) Proposed Costs – No additional costs over and above the insurance premium. Harrison Insurance would accept the commission paid to agents and not charge any additional fees.
- 2.) Client Management System is in place to help monitor and follow up with new applicants (employees or dependents), claims issues, renewals, etc. Also available as a calendar to contact clients at a specific time.
- 3.) Kathleen Harrison will be the agent and account representative. Shannon Kozeliski will be available for assistance if needed. Both are fully licensed in health insurance and accredited with the ACA and Your Health Idaho. Harrison Insurance has handled several government groups, including the City of Bellevue, Friedman Memorial Airport, and Wood River Fire & Rescue. In the past, Harrison Insurance has been the agent of record for the City of Hailey's group health insurance.

4.) Kathleen has specialized in Health Insurance since 1988 and works with all the carriers in the State of Idaho. Harrison Insurance is a locally owned and operated firm that has been in Hailey for 27 years, and in the present location on the corner of 1st and Bullion for over 9 years. As a local agency, we are currently partnering with The Advocates and making a donation to them for each new client.

5.) Process: When a new employee has been hired and starts working for the city, an appointment will be set up with Kathleen. Benefits will be reviewed and covered at that time as well as assistance in completion of an application. By working one on one with new employees, Harrison Insurance will a.) Remove the time that the City staff might have to spend in explaining the insurance benefits and answering questions, b) Make sure the application is completed correctly and signed in all spaces, and c.) Make every effort to insure the application is received for the new employee in a timely manner to enable them to be on the plan at the completion of his/her probationary period.

*In addition, Harrison Insurance is available on an as needed basis to answer questions from staff or employees regarding claims, enrollment, billing issues, etc.

*Harrison Insurance will also be available for employee meetings regarding any health insurance issues, questions, or concerns.

*I recommend that the City email Harrison Insurance advising the date of employment, name, and contact information (both phone and email) of each new employee. We can then contact the individual and set up a time to review the coverage and complete the paperwork.

6.) Claims Issues: Kathleen will be available to work with employees/dependents regarding claims questions. Typically when there is a claims issue, either the insured does not understand why a bill wasn't paid and how the coverage works, or, something which occurs more often, the provider has not coded the bill appropriately. This has been a frequent occurrence lately and can be easily rectified with a call to the insurance company and/or provider. Kathleen will be available to help with claims issues by appointment. (Please understand that there can be limitations as permission from the insured must be given to your carrier prior to them discussing anything with the agent.)

7.) References, Government

*Other Municipal Clients:

City of Bellevue, Dee Barton 788-2128

*Other Government Entities

Wood River Fire & Rescue, Bart Lassman 788-5577

Freidman Memorial Airport, Rick Baird 788-9003

8.) Other References

Jeff Bertz, owner Copy & Print 788-4200

Jan Burrell owner of Sawtooth Paint & Airless 720-1091

9.) Other Insurance Carriers

Harrison Insurance is licensed with all the carriers that are on the exchange.

**National General*

National General (Previously Assurant Health) has a Self Funding option which is worth considering. A portion of the premium is used for a high deductible plan. This part of the premium is nonrefundable. The balance of the premium is used to pay for medical expenses that are applicable to the high deductible. Any funds not used for the high deductible would be refundable to the group. Depending on claims, it can be substantial. The benefits can be identical (or nearly identical) to current benefits. Their network is the Aetna network which is substantial nationwide. I have included an attachment from Assurant which explains how this works.

**Select Health*

Select Health has standard plans. Their network is the St. Luke's network, which is not as expansive as the Blue Cross or Regence Blue Shield networks. Premiums tend to be lower than Blue Cross.

10.) Harrison Insurance is currently appointed with Delta Dental and VSP, as well as Lifemap for dental and vision benefits. Most dental and vision carriers have nearly identical plans, leaving one's decision based on the network and cost. Delta Dental also has voluntary options available.

11.) Creative Solutions: The major carriers all have options for improving the overall group health. These things range from discounted exercise facilities, hearing aids, and LASIK surgeries to a variety of wellness challenges such as weight loss, exercise goals, etc. Some of these programs may have an additional premium; others are included automatically at no additional charge. I would be happy to attend an employee meeting to review some of these options with employees and to explain these benefits in more detail. I have attached flyers from Blue Cross explaining these options.

Thank you for the opportunity to participate in your RFQ.

5:33:51 PM **Burke moved to approve all consent agenda items, seconded by Brown, motion passed with Brown abstaining from CA 303 as she was not present at the July 20, 2015 council meeting.**

PUBLIC HEARINGS:

PH 306 Airport Discussion

HAILEY CITY COUNCIL MINUTES
August 3, 2015

5:34:58 PM Keirn introduced this item. Burke is okay with the documents presented.

Cooley comments, he sees the alternatives as triggers to future needs, i.e. moving the airport to a new location.

5:37:39 PM Burke comments on land acquisition needs. Reminding the council that needs could be for parking planes.

Discussion ensued about past research, studies and efforts regarding moving the airport to a new location.

5:43:54 PM Cooley comments on the list of triggers for moving the airport. 5:45:30 PM If you do anything to change the size of aircraft coming in, then it presents potential runway damages with larger planes, a risk.

5:46:34 PM Brown summarizes what she's heard tonight from council discussion. Brown is good with a triggering plan.

5:48:31 PM Burke comments regarding safety standards and our airport.

5:49:41 PM Tower was moved to current site but it is still in the runway protection zone. So, the tower does need to move to a new location.

Public comments:

5:50:45 PM Peter Lobb comments more take offs and landings this year. Maybe we can suggest that some of these pilots not fly so close to city, early on a Sunday morning.

5:54:47 PM Walt Denekas Hailey resident (Woodside area) comments. Denekas states that the council seems open to expanding the airport for operations reasons but not for larger aircraft.

5:55:44 PM last page of chapter D, Williamson suggests to talk about 2 points. Page 128, dual path and input on when to have scope of work meetings, suggests after chapter E. Williamson is not sure what to make of #8, TBD. Williamson suggests this needs to be in writing first and then discussed.

PH 307 Public hearing to consider amendment to Hailey's FY 2015 Appropriation Ordinance No. 1168, amending the budget to appropriate additional expenses of \$112,433 to be spent under contracts with Wood River Fire District, Fire Department Grants, and Idaho Department of Building Safety by considering Ordinance No. 1183

5:58:03 PM Becky Stokes, Treasurer gave an update on the proposed budget. This is the 2nd amendment to our current budget to spend additional revenue we have received. This replaces Ordinance No. 1159, with proposed Ordinance No. 1183.

No public comments.

HAILEY CITY COUNCIL MINUTES
August 3, 2015

5:59:42 PM Burke moves to approve Ordinance No. 1183, read by title only, conduct 1st and only reading approving budget of \$112,433, authorize the Council President to sign, seconded by Brown. Motion passed.

6:00:42 PM Keirn conducts the only Reading of Ordinance No. 1183 by title only.

PH 308 Discussion of Cobblestone sidewalk and HWY 75 crosswalk project bid – rejecting Paul Construction's bid and re-advertising in fall 2015

6:01:34 PM Williamson comments on this item. The bid came in over the engineer's estimate. Suggest that we will re-bid work in the fall.

6:03:09 PM Tony Evans asks a question, wants to see a visual of this sidewalk and asked if there was any risk of residents wandering onto the highway.

6:04:08 PM Brown moves to authorize Mayor to sign rejection letter to Pauls Contruction bid on the Cobblestone Sidewalk job, seconded by Burke, motion passed.

OLD BUSINESS:

OB 309 2nd Reading Ordinance No. 1181 amending Mayor and Council Salaries

6:04:57 PM Keirn conducts the 2nd Reading of Ordinance No. 1181, by title only

OB 310 Consideration of Resolution 2015-66 and the 2nd Amendment to the Settlement Agreement with Knife River to allow Woodside Blvd. Chip Seal after the 1st. Amendment's deadline of July 31, 2015

6:05:30 PM Dawson comments on this item, this changes the dates of the work only.

6:06:31 PM Brown moves to approve Resolution 2015-66 with the 2nd Amendment to the Settlement Agreement with Knife River to allow chip sealing to occur after Aug. 1, 2015, authorize President to sign, seconded by Burke, motion passed.

STAFF REPORTS:

6:07:04 PM Dawson there is only 1 meeting in September scheduled due to the Labor Day holiday on 9/7/15. If we might need a special meeting on 8/31/15, is anyone available? Burke will be out of town, Brown and Keirn and Cooley are available.

EXECUTIVE SESSION: Pending & Imminently Likely Litigation (IC 67-2345(1)(f))

6:09:00 PM Brown moves to go into Executive. Session to discuss Pending & Imminently Likely Litigation (IC 67-2345(1)(f)), seconded by Cooley, motion passed with roll call vote. Brown, yes. Keirn, yes. Cooley, yes. Burke, yes.

HAILEY CITY COUNCIL MINUTES
August 3, 2015

Council President and council came out of Executive Session at 6:25 pm.

Motion to conclude the meeting was made by Cooley, seconded by Burke, motion passed.

Return to Agenda

AGENDA ITEM SUMMARY

DATE 08/17/2015 DEPARTMENT: Finance & Records **DEPT. HEAD SIGNATURE:** MHC

SUBJECT

Council Approval of Claims costs incurred during the month of July 2015 that are set to be paid by contract for August 2015.

AUTHORITY: ID Code 50-1017 IAR _____ City Ordinance/Code _____

AGENDA ITEM SUMMARY

DATE: 08-17-15 DEPARTMENT: Com. Development DEPT. HEAD LH
SIGNATURE: _____

SUBJECT:
Wood River High School Senior Project Report

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:
Austin Shetler has asked brief the Council about his upcoming Senior Project. He is planning sandwich board signage announcing Wood River football games, which would be placed in key locations the day of the game. He is requesting sponsorship from local businesses to help defray the costs of the sandwich boards. Austin will be in attendance to provide additional details.

AGENDA ITEM SUMMARY

DATE: 08/17/15 **DEPARTMENT:** PW - Water **DEPT. HEAD SIGNATURE:** MP

SUBJECT: Motion to approve Resolution 2015- 70, adopting the 2015 Hailey Water Master Plan.

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

The last Water Master Plan was completed in 2002. Since that time we have completed the installation of meters, constructed a second water tank, upgraded two major distribution lines and added a SCADA system for water system operation. DEQ recommends a new plan every 5 years and requires an updated master plan in order to approve any major capital projects.

The Plan is now complete and has been approved by DEQ. Please refer to the attached Executive Summary, the Master Plan document the Council and Mayor received prior to the meeting or a link to the entire document found on the City's website: <http://www.haileycityhall.org/publicworks/water/WaterDept>

HAILEY RESOLUTION NO. 2015-70

**A RESOLUTION OF THE CITY OF HAILEY, IDAHO,
ADOPTING THE HAILEY WATER SYSTEM MASTER PLAN.**

WHEREAS, the Hailey City Council authorized the Water System Master Plan work in 2013;

WHEREAS, the Hailey Public Works Department has reviewed the Water System Master Plan;

WHEREAS, the Hailey City Council has received and reviewed the attached Executive Summary from SPF Engineering; and

WHEREAS, the Hailey City Council finds that the Hailey Water System Master Plan continues to establish reasonable recommendations for operations and maintenance and capital infrastructure for Hailey's water system.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and City Council of the City of Hailey adopt the 2015 Hailey Water System Master Plan, attached hereto.

PASSED AND ADOPTED BY THE HAILEY CITY COUNCIL AND APPROVED BY THE MAYOR THIS _____ day of August, 2015.

Fritz X. Haemmerle, Mayor

ATTEST:

Mary Cone, City Clerk

EXECUTIVE SUMMARY

1.1. Introduction

This Master Plan assesses the City's water system and associated water rights and provides detailed recommendations for needed future upgrades. The plan reviews existing population and water demands, and uses available data to project 20-year demands for planning purposes. The sources of supply, storage, and distribution system facilities are evaluated with regard to Idaho Department of Environmental Quality (IDEQ) regulatory requirements.

1.2. Overview of Existing System

Hailey's existing water system serves approximately 3,300 connections. The system includes one spring source, six well sources, two storage tanks, nearly 57 miles of distribution piping, and three pressure zones across the City. The City's water quality is excellent, with only chlorine added to provide a disinfection residual throughout the system.

Hailey lies within the Big Wood River Ground Water Management Area and the Eastern Snake River Plain Moratorium Area. Because of this, developing new water rights in the area is difficult and most new rights must have authorized mitigation plans in place prior to development. It is anticipated that Idaho Department of Water Resources (IDWR) will begin more aggressive management of groundwater and surface water as interconnected sources in the near future (known as "conjunctive administration"). The City has a fairly robust existing water right portfolio for supply to the potable water system that will allow new sources of supply to be added to the system in coming years. An analysis of how conjunctive administration may affect the City is included in this plan, and the City is working on ways to optimize and protect supplies into the future.

Hailey has been a leader in the state in implementing forward-thinking conservation measures. This is apparent in the more than 50 percent decrease in water demands from 680 gallons per person per day (gpcd) in 1990 to 315 gpcd in 2013. The City is interested in additional conservation measures, which will be beneficial in working with continued limitations on water rights in the area.

1.3. Summary of System Evaluation Results

The City currently needs to add additional supply. The City's preference is to increase available supplies from the existing River Street Well, Indian Creek Spring, and Northridge Facility prior to considering construction of new wells. Adding chlorination to the Third Avenue Well so that it can run continuously during high demand times is recommended. The City will need to add standby power generators to several

sources of supply in the future, and may choose to add them earlier as a customer service measure.

The City's distribution system meets flow requirements in nearly all areas, with only several small pipeline upgrades identified to provide increased fire flow capacity. However, Hailey's fire chief indicates that fire flows are adequate across the City, so these improvements have been given a low priority. The City has adequate storage through the 20-year planning period.

The City will put a focus on conservation planning and implementation. An emphasis on outdoor (irrigation-use) conservation to decrease summer irrigation demands will reduce (1) the need for additional, future peak-capacity water supply infrastructure, and (2) reliance on junior-priority groundwater rights that are vulnerable to curtailment under conjunctive administration.

1.4. Capital Improvement, Maintenance, and Water Right Plan

Chapter 9 includes detailed capital improvement recommendations and maintenance budgeting suggestions. A summary is included in Tables 1-1 and 1-2. Recommendations for actions by the City to address a tightening water right situation in the Wood River Valley over the planning period are included in Chapters 8 and 9.

Table 1-9
Recommended Capital Improvement Summary

Next 5 Years (2015 – 2019)	
Supply	\$667,000
Distribution/Storage	\$217,000
Total (2015 – 2019)	\$884,000
Years 6-20 (2020 – 2034)	
Supply	\$1,540,000
Distribution	\$2,163,000
Total (2020 – 2034)	\$3,703,000

Maintenance and repair budgeting of approximately \$592,000 per year is recommended to keep pace with replacement of aging assets. The bulk of these dollars would go to pipeline replacement and distribution system maintenance. The City has several repair and replacement activities planned for the near future including replacement of flow meters at existing well facilities.

Table 1-2
Suggested Annual Maintenance and Repair Budgeting

Maintenance and Repair Budgeting	
Supply	\$110,000
Storage	\$5,000
Distribution	\$467,000
Controls System	\$10,000
Annual Total	\$592,000

9. CAPITAL IMPROVEMENT, MAINTENANCE AND WATER RIGHT PLAN

This section considers capital improvements, ongoing maintenance and replacement budgeting, and water right recommendations for the 20-year planning period.

9.1. Capital Improvement Program

The Capital Improvement Program (CIP) items were developed through spreadsheet analysis of source and supply facilities, and by analyzing the distribution system using the hydraulic model with different demand scenarios. A workshop was held with City personnel where the priority of improvements was ranked (Appendix D). The final CIP list was compiled based on City rankings and need. The CIP is broken into near-term (next five years), long-term (next 20 years), and non-capital improvements. Table 9-1 shows the recommended Capital Improvement Program. Details for each proposed capital improvement are included in Appendix D.

The timing of some of the improvements is dependent on growth and the manner in which other recommended improvements are completed. The City needs to re-assess each improvement prior to implementation.

9.1.1. Funding Options

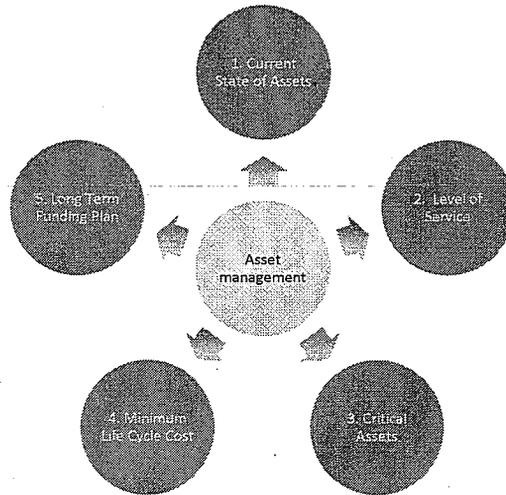

Potential funding mechanisms for the needed capital improvements include rates, development charges, local improvement districts, bonds, and external funds such as state or federal loans and grants.

Hailey has historically funded most improvements through rates (with a few loan/grant projects), and typically includes specific needed improvements for the coming year in the annual rate calculation. Rates could also be set with a contribution to a general "capital improvement fund" designated.

9.2. Asset Management, Maintenance and Replacement Program

Every municipal provider needs to invest in ongoing water system maintenance, rehabilitation, and replacement activities. Figure 9-1 shows key asset management components. Managing the utilities' assets optimally results in maintaining the desired level of service at the lowest life-cycle cost. Part of asset management is budgeting to replace infrastructure over time so that it does not outlive its service life. The Infrastructure Maintenance and Replacement Program in Table 9-2 is presented for the City's consideration. The City does not currently budget substantial amounts for maintenance and replacement, and may choose to ramp up funding over time. The suggested budget is a guideline, and it would be expected that funds shift between line items as needs each year change.

Figure 9-1
Flowchart: The Five Core Questions of Asset Management
(Source: *EPA Asset management: A best Practices Guide*)

9.3. Water Right Recommendations

Recommendations for actions related to water rights over the planning period are provided in Table 9-3.

Table 9-1
Capital Improvement Program

Improvement	Description	Cost Estimate	Comments	Year
NEAR TERM CAPITAL IMPROVEMENTS - NEXT 5 YEARS				
1	Investigate the Potential for Additional Supply from the River Street Well. Install larger pump in River Street Well.	\$ 95,000	Install a water level measurement device in the well. Analyze flow and pumping level data to determine if additional supply could be obtained from this well with a new pump. We estimate that a 150 hp pump and new electrical equipment will be installed.	2015
2	Extend Hatches at Quigley Tank	\$ 24,000	Fabricate extenders for the two existing access hatches at Quigley Tank so they are a minimum of 24 inches above existing grade.	2015-2016
3	Add Standby Power Generator (mobile) at Woodside Facility	\$ 99,000	Power well pump (40 hp) and large booster pump (100 hp). 200 kW generator. Permanent generator priced, mobile would be expected to cost less.	2015 - 2019
4	Add Chlorination to Third Avenue Well	\$ 89,000	Construct sodium hypochlorite storage and feed system in a new building.	2016
5a	Investigate Potential for Additional Supply from Indian Creek Spring	\$ 55,000	Depending upon camera inspection could include tree removal, root removal, rehabilitation of existing laterals, construction of new laterals, sump pumping, or shallow wells.	2015 - 2019
5b	Implement Selected Improvement(s) at Indian Creek Spring	\$5,000 - \$300,000	Selected improvements could range from root removal to installation of shallow wells. The range of anticipated costs is shown here.	2015 - 2019
6	Investigate the Potential for Additional Supply from the Northridge Facility. Implement selected improvement(s) at Northridge Facility	\$ 30,000	Investigate improvements at the Northridge facility that would allow the full 2,100 gpm water right amount to be diverted. The improvements could take many forms depending on the outcome of the investigation. For this estimate, we have assumed that adding a VFD to one of the existing 50 hp well pumps and changing the controls set-up for the booster pumps will allow for a constant 2,100 gpm to be supplied from this facility.	2015 - 2019
7	Silver Star Pressure Reduced Zone	\$ 193,000	Consider creation of another pressure zone, or consolidate with north or south Woodside to keep static pressures less than 100 psi.	2015 - 2019
LONG TERM CAPITAL IMPROVEMENTS - NEXT 20 YEARS				
8	Replace existing pipeline from Indian Creek Spring to Turbine Tank	\$ 1,676,000	Replace the aged pipeline from Indian Creek Springs to Turbine Tank with a new 12-inch diameter pipeline. Approximately 2.3 miles in length.	2020-2034
9	Investigate ways to improve connectivity to Quigley Tank. Implement improvements	\$ 483,000	Quigley Tank is currently filled by selective operation of Woodside Well. Adding a tank fill booster pump station at the base of Quigley Canyon would improve the ability to fill the tank from any source in the system. Alternatively, some piping configuration changes, particularly around the Third Avenue Well, may assist with filling the tank. Pump station option shown (most expensive), land costs, generator not included in pricing.	2020 - 2034
10	Design, Permit, and Construct New Well	\$ 732,000	Drill new well, install pump, and construct well house. Minimum 1.8 MGD capacity assumed. No costs for well lot included. No generator included.	2024
11	Add Standby Power Generator (mobile) at Third Avenue Facility	\$ 76,000	Pricing is for a 150 kW generator at Third Avenue. Permanent generator priced, mobile would be expected to cost less.	2031
12	Construct New Well	\$ 732,000	To maintain firm system capacity above maximum day demand. Minimum 1.8 MGD capacity assumed. No costs for well lot included. No generator included.	2033
NON-CAPITAL IMPROVEMENTS				
13	Establish Fire Flow Policy	\$ 3,500	Work with Fire Department to set maximum fire flow demands for larger structures and establish water storage requirements	2015
14	Arsenic Testing with Lower Detection Limit		Current arsenic test results indicate arsenic <5 ug/l. There is a possibility the Maximum Contaminant Level (MCL) will be lowered from 10 to 5 ug/l by EPA in the future. Check Heileys sources with testing down to a 1 ug/l detection limit to determine if arsenic levels are substantially below 5 ug/l.	2015 - 2019
15	Develop and Implement Conservation Plan		Complete conservation plan and implement. Determine how rebates/incentives will be funded.	2015 - 2019

All costs shown in 2014 dollars. A 20% contingency is included in each estimated project cost.

Table 9-2
Infrastructure Maintenance and Replacement Program

Facility	Annual Target Budget	Comments
Well Facilities	\$ 100,000	Replace/calibrate existing flow meters, rehab well facilities, routine maintenance, properly abandon unused wells (such as the small one at the Woodside facility), pipe and valve repair/replacement, pump replacement.
Indian Creek Springs	\$ 10,000	Routine maintenance - clean roots from collector lines, tree removal, replacement or upgrade of needed equipment.
Storage Tanks	\$ 5,000	Inspection, concrete repair, needed upgrades to accessories such as ladders and hatches.
Pipelines	\$ 345,000	Assume a 75-year replacement cycle, which would result in replacing 1.3% of the pipelines in the system every year.
Fire Hydrants	\$ 35,000	Total number of hydrants in system unknown. Estimate as replacing 10 hydrants per year.
Service Meters	\$ 77,000	3,313 service meters in system. All meters new in 2003 - 2006. Assume 30-year life. Replace 3.3% per year.
SCADA System	\$ 10,000	Ongoing control system upgrades at well and distribution facilities.
MAJOR REPAIR AND REPLACEMENT ACTIVITIES PLANNED IN 20-YEAR PLANNING PERIOD		
Replace Production Flow Meters	\$ 60,000	Replace flow meters at the turbine inlet, turbine tank outlet, Northridge booster pumps, Woodside booster pumps, Third Avenue Well, River Street Well with new magnetic flow meters. May require some pipe re-work.
PLANNING/TESTING ACTIVITIES		
Pothole and Test Existing Distribution Piping	\$ 10,000	Test five pipe locations per year in older sections of distribution system. Requested by City insurance company in 2013.
Continue to build records of existing assets	\$ -	Continue to build records that document what the City owns, location, condition, useful life, and value. Consider asset management software.

Table 9-3
Water Right Recommendations

Suggested Timeframe	Water Right No(s)	Issue	Solution	Task
Water Right Maintenance				
2023		New Well in 2024 to meet IDEQ requirement for redundant supply	Drill a new well (2024)	File a transfer application with IDWR to add a new point of diversion to existing groundwater rights
2032		New Well in 2033 to meet IDEQ requirement for redundant supply	Drill a new well (2033)	File a transfer application with IDWR to add a new point of diversion to existing groundwater rights
Future		Demands exceed existing groundwater water rights	Acquire new water rights for groundwater	Monitor 5-year water facility master plans for increasing demands; apply for new water rights as needed for reasonably anticipated future needs (RAFN)
Tasks Related to Conjunctive Administration				
Ongoing		Limited future water supply for existing uses	Reduce per capita demands - focus on consumptive use (irrigation) reductions	Explore and implement additional conservation measures and incentives, especially those that reduce consumptive use
Ongoing		Conjunctive administration may limit consumptive uses	Determine the extent of consumptive vs non-consumptive uses	Maintain record of diversion data from SCADA system to establish the City's actual water use over time
Ongoing		Conjunctive administration may limit consumptive uses	Continue to move parks and other large irrigation parcels off of the potable supply	Develop plans to keep parks green during shorter irrigation seasons by planting drought-tolerant grasses and native plants, installing more efficient irrigation systems, etc.
2015		Limited future water supply for additional development	Require Developers to provide comprehensive water plan and implementation schedule at time of City processing	Review and enhance City policies and ordinances to strengthen City's position in processing annexation requests; require Developers to bring water rights to the table when requesting annexation
2015	all Indian Creek Spring water rights	Indian Creek Spring water rights exceed current spring flow collection and are needed for their senior-priority date	Increase flow collection from Indian Creek Spring	Continue to investigate methods to increase spring flow collection; implement chosen alternative(s)
Future		Regional solutions may develop to meet conjunctive administration requirements	Monitor and cooperate with the creation of proposed mitigation plans	Meet with similarly-positioned stake holders in the area (such as other municipalities) to create a regional solution.
Future		Limited future water supply for irrigation use	Possible use of treated wastewater effluent for irrigation supply	Consider installation of facilities to treat and deliver wastewater for irrigation use

SUBJECT:

Presentation by Dwayne Guthrie of TischlerBise on Hailey Development Impact Fees

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

The Council approved a Request for Proposal at the February 9, 2015 Council meeting to issue a Request for Proposal to update Annexation Fees and Development Impact Fees.

The City of Hailey developed an annexation fee study in 2001 and updated it in 2005. In 2007 Hailey implemented development impact fees. In 2012, Hailey updated both the annexation fees and the development impact fees. The method of this update included some variations on the method by which development impact fees were established in 2007.

The Council approved a contract with TischlerBise, Inc. on March 2, 2105 to make recommendations on annexation and development impact fees.

Tonight discussion will focus on development impact fees. A draft report is attached.

REPORT HIGHLIGHTS:

The report summarizes the various development-related fees available to municipalities in Idaho, and then focuses on development impact fees as specifically authorized by Idaho law.

Development impact fees (DIF) are permitted in Idaho for the following growth-related categories: police, parks and recreation, Fire and EMS and Streets. DIF's are collected at the time of building permit as a one-time payment for growth-related infrastructure, and are to be used for capital projects only (no operational or maintenance costs). A brief summary of the restrictions of DIF is found on page 6 of the Tishler Report.

Hailey has had DIF for these categories since 2007, and has collected revenues of varying amounts per year, with a seven-year average of \$85,700 (Figure 5, Tischler report). Tishler notes that DIF will never pay for the full cost of capital projects needed in the City of Hailey. The report makes the following recommendations:

- 1) Suspend the Police DIF. Hailey has collected only \$46,000 of the \$1,892,000 estimated capital cost of a new Police Station. Because DIF's in Idaho must be spent within eight years of collection, it will be very difficult for Hailey to raise needed funds through DIF. If the funds are not raised, the City will need to spend the accrued revenue on another qualifying capital police project, or refund the police fees. (The City refunded \$3,458 of Police DIF in 2013).
- 2) Modify residential DIF to be based on dwelling size.
- 3) Simplify the collection of nonresidential DIF into four categories.
- 4) Modify the remaining DIF's as follows:

Citywide Service Area	Parks and Paths	Fire	Streets	CIP	Proposed Total	Current Fee	Increase / (Decrease)	% Change
Residential (per dwelling unit) by Square Feet of Finished Living Space								
1000 or less	\$87	\$120	\$638	\$31	\$876	\$1,450	(\$574)	--40%
1001 to 1600	\$162	\$224	\$1,033	\$58	\$1,477	\$1,450	\$27	2%
1601 to 2200	\$213	\$294	\$1,298	\$76	\$1,881	\$1,810	\$71	4%
2201 to 2800	\$252	\$347	\$1,500	\$90	\$2,189	\$1,810	\$379	21%
2801 or more	\$273	\$377	\$1,611	\$98	\$2,359	\$1,810	\$549	30%
Nonresidential (per 1,000 Square Feet of Floor Area)								
Industrial	\$0	\$118	\$277	\$31	\$426	\$850	(\$424)	--50%
Commercial	\$0	\$258	\$1,987	\$68	\$2,313	\$3,740	(\$1,427)	--38%
Institutional	\$0	\$126	\$794	\$33	\$953			
Office & Other Services	\$0	\$428	\$860	\$112	\$1,400	\$2,550	(\$1,150)	--45%

EXECUTIVE SUMMARY

TischlerBise was hired to update development impact fees and annexation fees for the City of Hailey. We had the privilege of previously working in Hailey, providing an annexation study in 2001 and an impact fee study in 2007. As part of our current work effort, the firm reviewed growth-related capital needs, revenue sources (both current and available options), and development trends to gain an understanding of what might be the best course of action. **Based on this assessment, our preliminary recommendation is to pursue a comprehensive infrastructure funding strategy that includes utility connection fees, annexation fees, impact fees, and other mechanisms (i.e. development agreements, general obligation bonds, and a local improvement district for streets).** Current and proposed policy frameworks for growth-related infrastructure funding are shown in Figures 1 and 2. A brief explanation of each funding mechanism is provided below.

Annexation Fees – Updated annexation fees for Hailey will be provided in the future.

Utility Connection Fees – In Hailey, utility connections fees are based on the net value of existing system capacity that is absorbed by additional utility customers.

Development Impact Fees – Recommended facilities for impact fee funding include park improvements and paths/trails that have a citywide service area, fire apparatus, street improvements and additional rolling stock (not replacement).

Development Agreements – As part of the development approval process, the City may negotiate for needed improvements such as utility lines, neighborhood parks, open space, and street improvements (both within and near a proposed development) that are not listed as system improvements to be funded by impact fees. However, these are fairly rare in Hailey because rezones are not common.

General Obligation and Revenue Bonds – GO bond financing might be required for the proposed Library expansion and Police Station. Voter approval is also a good test for residents' willingness to pay, especially for expensive infrastructure like street improvements. Revenue bonds are commonly used for utility improvements.

Local Improvement District (LID) – The cumulative cost of street improvements is larger than any other type of infrastructure and will require substantial funding from revenue other than impact fees. A LID can meet these capital needs and provide funds for maintenance of the existing street network.

Figure 1: Current Policy Framework for Growth-Related Infrastructure Funding

<i>Infrastructure Type</i>	<i>Utility Connection Fees</i>	<i>Annexation or Impact Fees</i>	<i>Other Mechanisms</i>
<i>Water</i>	Net Value of Existing System per Connection	Annexation Fee	Revenue Bonds
<i>Wastewater</i>	Net Value of Existing System per Connection	Annexation Fee	Revenue Bonds
<i>Current Asset Value, Future Capital Improvements, General Fund Operating and Services Deficiencies</i>		Annexation Fee	
<i>Library</i>		Ineligible for Impact Fee	
<i>Police</i>		Impact Fee	
<i>Parks & Recreation</i>		Impact Fee	
<i>Fire & EMS</i>		Impact Fee	
<i>Streets</i>		Impact Fee	

TischlerBise recommends the policy framework summarized in Figure 2.

Figure 2: Proposed Policy Framework for Growth-Related Infrastructure Funding

<i>Infrastructure Type</i>	<i>Utility Connection Fees</i>	<i>Annexation or Impact Fees</i>	<i>Other Mechanisms</i>
<i>Water</i>	Net Value of Existing System per Connection	Annexation Fee?	Revenue Bonds
<i>Wastewater</i>	Net Value of Existing System per Connection	Annexation Fee?	Revenue Bonds
<i>Library</i>		Annexation Fee?	G.O. Bond or Library Levy
<i>Police</i>		Annexation Fee?	G.O. Bond
<i>Parks & Recreation</i>		Impact Fee for Citywide Park Improvements and Paths/Trails	G.O. Bond
<i>Fire & EMS</i>		Impact Fee for Fire Apparatus	G.O. Bond
<i>Streets</i>		Impact Fee for Street Improvements and Rolling Stock	G.O. Bond and Local Improvement District (LID)

BIG PICTURE PERSPECTIVE ON FISCAL REALITIES

Growth-related capital needs from the FY15 CIP are summarized in Figure 3. Rather than analyze all projects, TischlerBise extracted improvements with a growth percentage, indicating projects with an essential nexus to new development. Even though Idaho impact fee enabling legislation allows local governments to prepare 20-year capital plans, TischlerBise recommends a 10-year CIP. Key reasons for a ten-year horizon are the requirement to update impact fees at least every five years and the mandate to demonstrate benefit to fee-payers by spending impact fees within eight years of collection. The growth cost column was derived using growth percentages from the FY15 CIP, as shown in the detailed list of improvements (see Figure 4).

Impact fees are limited to the growth share of future capital improvements (i.e. the column on the right side of Figure 3). A credit for other revenue sources is only necessary if there is potential double payment for the growth share of capital improvements. In Hailey, revenues other than impact fees will be used for replacement of existing facilities, correcting existing deficiencies, and for the non-growth share of capital improvements. If City Council makes a legislative policy decision to fully fund the growth share of capital improvements using impact fees, there is no potential double payment from other revenue sources. In other words, after a new development is complete, the occupants and owners join the ranks of existing service units and property owners that will pay property, sales, and income taxes to cover approximately \$8.8 million in capital costs for the non-growth share of capital improvements over the next ten years.

Figure 3: Summary of 10-Year General Fund Capital Needs to Accommodate Growth

Row Labels	Values	
	Sum of Total Cost	Sum of Growth Cost
Fire	\$1,604,480	\$401,120
Library	\$2,600,000	\$780,000
Parks & Paths	\$678,000	\$212,400
Police	\$1,892,000	\$946,000
Street	\$6,067,750	\$1,673,075
Grand Total	\$12,842,230	\$4,012,595

Source: cost data from City of Hailey FY15 CIP.

The key take-away from Figures 3 and 4 is that Hailey would like to construct growth-related improvements costing approximately \$12.8 million over the next ten years, with approximately \$4.0 million from impact fees and the remaining \$8.8 million from other General Fund revenues. Unfortunately, this level of spending is probably ten times greater than actual spending levels since the Great Recession. To gain a better understanding of fiscal realities, revenues from impact fees are discussed in the next section.

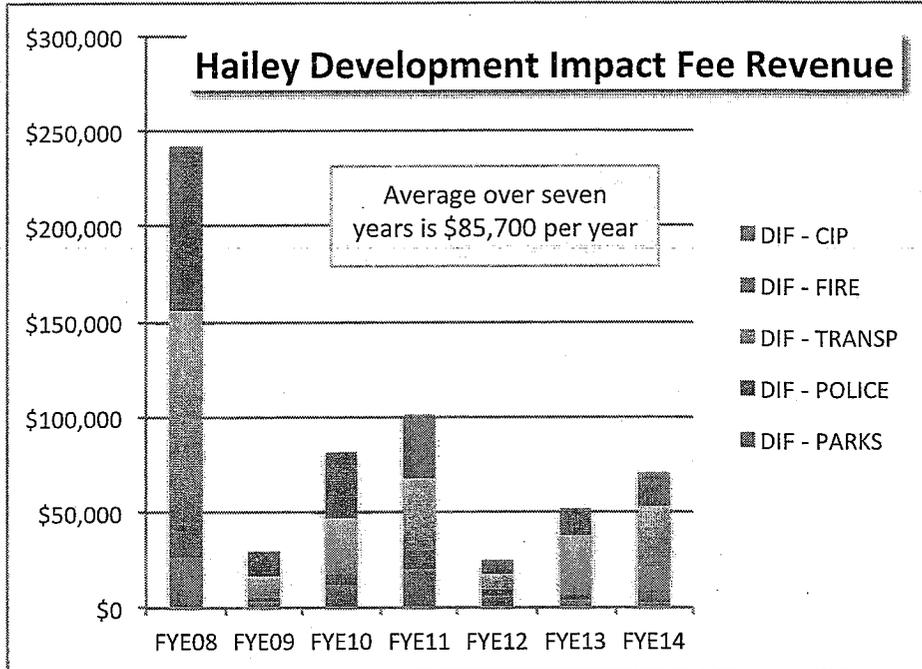

Figure 4: FY15 CIP Growth Projects Over the Next Ten Years

Type	Project Description	BaseYr	FtYrs1-5	FtYrs6-10	Total Cost	Growth Share	Growth Cost
		FY 15 Budget	FY16-20	FY21-25			
Fire	New Fire Engine	\$0	\$700,980	\$903,500	\$1,604,480	25%	\$401,120
Library	Library Expansion (not DIF eligible)	\$0	\$2,600,000	\$0	\$2,600,000	30%	\$780,000

Street	3rd Ave Sidewalks (Elm St - Hwy 75)	\$0	\$0	\$193,000	\$193,000	40%	\$77,200
Street	Missing Sidewalk Connections	\$0	\$60,000	\$0	\$60,000	40%	\$24,000
10-Year Grand Total =>					\$12,842,230	31%	\$4,012,595
Average Annual =>					\$1,284,000		\$401,000

DEVELOPMENT IMPACT FEES

Impact fees are one-time payments by new development for growth-related infrastructure. In contrast to project improvements, impact fees are intended to fund system improvements that benefit the entire service area by increasing infrastructure capacity. Figure 5 shows Hailey's annual impact fee collections from FY07-08 through FY13-14. Prior to the Great Recession, Hailey collected almost \$250,000 a year in impact fee revenue, increasing the average annual revenue over the past seven years to \$85,700. If we examine the past three years, impact fee revenue has fallen to an average of \$48,700 per year. As shown above (see Figures 3-4), fully funding the growth share of Hailey's CIP will require approximately \$401,000 per year from impact fees, plus \$883,000 per year from other revenue sources. Given more conservative development projections, documented in Appendix A, and fiscal constraints on current revenues, there appears to be a significant fiscal disparity requiring a decrease in capital spending and/or an increase in additional broad-base revenues, such as general obligation bonds and establishment of a local improvement district for streets. These additional revenue sources are discussed in more detail near the end of this report.

Figure 5: Impact Fee Revenue History

Source: Graph by TischlerBise, revenue history provided by City staff.

DEVELOPMENT IMPACT FEES

TischlerBise was retained by the City of Hailey, to update the impact fee analysis for public facilities needed to accommodate future development. Capital improvements due to growth were identified for three types of public capital improvements: (1) Parks and Paths, (2) Fire Apparatus, and (3) Streets.

Impact fees are one-time payments used to construct system improvements that serve multiple development projects or even the entire jurisdiction. By law, impact fees can only be used for *capital* improvements, not operating or maintenance costs. Impact fees are subject to legal standards that satisfy three key tests: **need, benefit, and proportionality**.

- First, to justify a fee for public facilities, local government must demonstrate a **need** for capital improvements.
- Second, new development must derive a **benefit** from the payment of the fees (i.e., in the form of public facilities constructed within a reasonable timeframe).
- Third, the fee paid by a particular type of development should not exceed its **proportionate** share of the capital cost.

As documented in this report, the City of Hailey has complied with applicable legal precedents. Impact fees are proportionate and reasonably related to the capital improvement demands of new development, with the projects identified in this study taken from Hailey's Capital Improvements Plan (CIP). Specific costs have been identified using local data and current dollars. With input from City staff, TischlerBise determined service units for each type of infrastructure and calculated proportionate share factors to allocate costs by type of development. This report documents the formulas and input variables used to calculate the impact fees for each type of public facility. Impact fee methodologies also identify the extent to which new development is entitled to various types of credits to avoid potential double payment of growth-related capital costs.

Unique Requirements of the Idaho Impact Fee Act

The Idaho Development Impact Fee Act has several requirements not common in the enabling legislation of other states. This overview summarizes these unique requirements. First, as specified in 67-8204(2) of the Idaho Act, "development impact fees shall be calculated on the basis of levels of service for public facilities . . . applicable to existing development as well as new growth and development." Second, Idaho requires a Capital Improvements Plan (CIP) [see 67-8208]. The CIP requirements are summarized in this report, with more detailed information maintained by City staff responsible for each type of infrastructure funded by impact fees. Third, the Idaho Act states the cost per service unit (i.e., impact fee) may not exceed the cost of growth-related system improvements divided by the number of projected service units attributable to new development [see 67-8204(16)]. Fourth, Idaho requires a proportionate share determination [see 67-8207]. Basically local government must consider various types of applicable credits that may reduce the capital costs attributable to new development.

Hailey's Current Impact Fees

Current impact fees are shown in Figure 6. TischlerBise recommends suspension of the Police impact fee. During the initial seven years of fee collections, Hailey has only collected approximately \$46,000 towards the total cost of \$1,892,000 for a new Police Station. Because fees must be spent within eight

years, TischlerBise is recommending that Hailey seek voter approval for General Obligation bond financing. If voters do not approve the bonds, the City will have to spend police fee revenue on an alternative improvement that benefits fee payers, or refund the police fees.

Figure 6: Current Impact Fee Schedule in Hailey

	2007 Ord. 985	2012 Parks	Trans- portation	2012 Police	Fire & EMS	C.I.P. Cost	Proposed 2012
Residential:		Per housing unit					
Single Family Detached	\$2,629	\$120	\$1,063	\$248	\$310	\$69	\$1,810
All Other Housing Types (per unit)	\$2,010	\$129	\$651	\$267	\$334	\$69	\$1,450
Non-residential:		Per square foot of floor area					
Commercial (up to 25,000 SF)	\$6.64	n/a	\$5.52	\$0.20	\$0.89	\$0.05	\$6.66
Commercial (25,001-100,000 SF)	\$4.87		\$4.01	\$0.16	\$0.77	\$0.05	\$4.99
Commercial (100,001+ SF)	\$3.62		\$2.90	\$0.14	\$0.65	\$0.05	\$3.74
Office (up to 25,000 SF)	\$3.27		\$1.64	\$0.06	\$1.11	\$0.05	\$2.86
Office (25,001+ SF)	\$2.85		\$1.40	\$0.05	\$1.05	\$0.05	\$2.55
Medical-Dental Office	\$4.75		\$3.23	\$0.12	\$1.09	\$0.05	\$4.49
Hospital	\$2.90		\$1.57	\$0.04	\$0.91	\$0.05	\$2.57

Warehousing	\$0.98		\$0.44	\$0.02	\$0.34	\$0.05	\$0.85
Mini-Warehouse	\$0.28		\$0.23	\$0.01	\$0.01	\$0.05	\$0.30
Other Non-residential:			Per square foot of floor area				
Lodging (per room)	\$655	n/a	\$529	\$17	\$118	*	\$654
Day Care (per student)	\$445		\$420	\$14	\$43	*	\$477
Nursing Home (per bed)	\$345		\$222	\$7	\$96	*	\$325

General Methods

There are three general methods for calculating development impact fees. The choice of a particular method depends primarily on the timing of infrastructure construction (past, concurrent, or future) and service characteristics of the facility type being addressed. Each method has advantages and disadvantages in a particular situation, and can be used simultaneously for different cost components.

Reduced to its simplest terms, the process of calculating development impact fees involves two main steps: (1) determining the cost of development-related capital improvements and (2) allocating those costs equitably to various types of development. In practice, though, the calculation of impact fees can become quite complicated because of the many variables involved in defining the relationship between development and the need for facilities within the designated service area. The following paragraphs discuss three basic methods for calculating development impact fees and how those methods can be applied.

Cost Recovery (past improvements)

The rationale for recoupment, often called cost recovery, is that new development is paying for its share of the useful life and remaining capacity of facilities already built, or land already purchased, from which new growth will benefit. This methodology is often used for utility systems that must provide adequate capacity before new development can take place.

Incremental Expansion (concurrent improvements)

The incremental expansion method documents current level-of-service (LOS) standards for each type of public facility, using both quantitative and qualitative measures. This approach assumes there are no existing infrastructure deficiencies or surplus capacity in infrastructure. New development is only paying its proportionate share for growth-related infrastructure. Revenue will be used to expand or provide additional facilities, as needed, to accommodate new development. An incremental expansion cost method is best suited for public facilities that will be expanded in regular increments to keep pace with development.

Plan-Based Fee (future improvements)

The plan-based method allocates costs for a specified set of improvements to the service units expected from new development. Improvements are typically identified in a CIP or long-range facility plan and development potential is identified by a land use plan. There are two basic options for determining the cost per demand unit: 1) total cost of a public facility can be divided by total demand units (average cost), or 2) the growth-share of the public facility cost can be divided by the net increase in demand units over the planning timeframe (marginal cost).

Credits

Regardless of the methodology, a consideration of “credits” is integral to the development of a legally defensible impact fee methodology. There are two types of “credits” with specific characteristics, both of which should be addressed in development impact fee studies and ordinances. The first is a revenue credit due to possible double payment situations, which could occur when other revenues may contribute to the capital costs of infrastructure covered by the impact fee. This type of credit is integrated into the impact fee calculation, thus reducing the fee amount. The second is a site-specific credit or developer reimbursement for dedication of land or construction of system improvements. This type of credit is addressed in the administration and implementation of the impact fee program.

Figure 7 summarizes the methods and cost components used for each type of public facility in Hailey’s impact fee study. After consideration of input during work sessions and public hearings, City Council may change the proposed impact fees by eliminating infrastructure types, cost components, and/or specific capital improvements. If changes are made during the adoption process, TischlerBise will update the fee study to be consistent with legislative policy decisions.

Figure 7: Proposed Fee Methods and Cost Components

<i>Type of Impact Fee</i>	<i>Service Area</i>	<i>Plan-Based (future)</i>	<i>Cost Allocation</i>
<i>Parks and Paths</i>	Citywide	Park Improvements and Paths/Trails	Population
<i>Fire</i>	Citywide	Fire Apparatus	Functional Population and Jobs
<i>Streets</i>	Citywide	Multi-modal Improvements and Rolling Stock	Vehicle Miles of Travel

Proposed Impact Fees

Figure 8 summarizes proposed impact fees for new development in the City of Hailey. As discussed in Appendix A, TischlerBise recommends that residential fees be imposed by dwelling size, base on finished living space. In addition, TischlerBise recommends simplifying nonresidential fees into four general categories with no size thresholds. For nonresidential development, impact fees are stated per 1,000 square feet of floor area. Nonresidential development categories, defined below, represent general groups of land uses with a similar number of service units per development unit (e.g. average weekday vehicle trip ends per thousand square feet of floor area). For unique development types, the City may allow or require an independent impact fee assessment.

- **Industrial:** Establishments primarily engaged in the production, transportation, or storage of goods. By way of example, Industrial includes manufacturing plants, distribution warehouses, trucking companies, utility substations, power generation facilities, and telecommunications buildings.
- **Commercial:** Establishments primarily selling merchandise, eating/drinking places, and entertainment uses. By way of example, Commercial includes shopping centers, supermarkets, pharmacies, restaurants, bars, nightclubs, automobile dealerships, and movie theaters.
- **Institutional:** Public and quasi-public buildings providing educational, social assistance, or religious services. By way of example, Institutional includes schools, universities, churches, daycare facilities, and government buildings.
- **Office and Other Services:** Establishments providing management, administrative, professional, or business services; personal and health care services; and lodging facilities. By way of example, Office and Other Services includes banks, business offices; hotels and motels; assisted-living facilities, nursing homes and hospitals.

Figure 8: Proposed Impact Fee Schedule

Citywide Service Area	Parks and Paths	Fire	Streets	CIP	Proposed Total	Current Fee	Increase / (Decrease)	% Change
Residential (per dwelling unit) by Square Feet of Finished Living Space								
1000 or less	\$87	\$120	\$638	\$31	\$876	\$1,450	(\$574)	-40%
1001 to 1600	\$162	\$224	\$1,033	\$58	\$1,477	\$1,450	\$27	2%
1601 to 2200	\$213	\$294	\$1,298	\$76	\$1,881	\$1,810	\$71	4%
2201 to 2800	\$252	\$347	\$1,500	\$90	\$2,189	\$1,810	\$379	21%
2801 or more	\$273	\$377	\$1,611	\$98	\$2,359	\$1,810	\$549	30%
Nonresidential (per 1,000 Square Feet of Floor Area)								
Industrial	\$0	\$118	\$277	\$31	\$426	\$850	(\$424)	-50%
Commercial	\$0	\$258	\$1,987	\$68	\$2,313	\$3,740	(\$1,427)	-38%
Institutional	\$0	\$126	\$794	\$33	\$953			
Office & Other Services	\$0	\$428	\$860	\$112	\$1,400	\$2,550	(\$1,150)	-45%

PARKS AND PATHS CIP AND IMPACT FEES

As specified in 67-8203(29), development impact fees in Hailey exclude costs to repair, upgrade, update, expand or replace existing capital improvements to provide better service to existing development. The City's Comprehensive Plan, Municipal Code, and website describe existing public facilities. Existing parks and paths/trails are fully utilized and there is no surplus capacity for future development. Recommended improvements needed to accommodate additional development are listed in Figure 9. Total impact fee funding of \$212,400 represents a growth share of 31%, requiring \$465,000 from other revenue sources over the next ten years.

Figure 9: Summary of Ten-Year CIP for Parks and Recreation

Description	Year 1-5	Year 6-10	Total Cost	Impact Fee Share	Impact Fee Funding
Impact Fee System Improvements					
Lion Improvements	\$500,000	\$0	\$500,000	30%	\$150,000
1st Ave Shared Use Path	\$0	\$45,000	\$45,000	50%	\$22,500
Parks Trail B (remaining section - Glenbrook to bike path)	\$73,000	\$0	\$73,000	30%	\$21,900
Keefer Park Plaza	\$60,000	\$0	\$60,000	30%	\$18,000
			\$0		\$0
Ten-Year Total =>			\$678,000	31%	\$212,400
Funding from Other Revenue Sources =>			\$465,600		
Share from Other Sources =>			69%		

Revenue Credit Evaluation

A credit for future revenue is only necessary if there is potential double payment for the growth share of system improvements needed to accommodate new development. The City of Hailey plans to partially fund future improvements from impact fees. Because no additional revenues are required for the growth share of improvements for parks and paths, a revenue credit is not required.

Proposed Impact Fees for Parks and Paths

Figure 10 indicates cost factors for the proposed parks and paths impact fee. Proposed fees by dwelling size, measured in square feet of finished living space, are equal to the average number of persons per housing unit multiplied by the capital cost per person. For example, a residential unit that has 2,801 or more square feet would pay a fee of \$273 (truncated) based on an average of 2.97 persons per housing unit multiplied by a capital cost of \$92 per person.

Figure 10: Impact Fee Schedule for Parks and Paths

2801 or more	2.97	\$273	\$120	\$153	128%

Funding Strategy for Parks and Paths

Figure 11 summarizes growth-related parks and recreation improvements to be constructed in Hailey over the next ten years. Using impact fee revenue the City will provide \$212,400 in park improvements and paths/trail. As shown in the lower portion of the table, the expected ten-year increase of 1,022 housing units will provide impact fee revenue to cover the growth cost of system improvements. This revenue projection is based on the demographic data described in Appendix A and the proposed fee amount for an average residential unit. To the extent the rate of development either accelerates or slows down, there will be a corresponding change in the impact fee revenue.

Figure 11: Summary of Growth Costs and Revenue for Parks and Paths

FIRE CIP AND IMPACT FEES

TischlerBise recommends functional population to allocate the cost of additional fire apparatus to residential and nonresidential development (see Figure 12). Functional population is similar to what the U.S. Census Bureau calls "daytime population," by accounting for people living and working in a jurisdiction, but also considers commuting patterns and time spent at home versus nonresidential locations. Residents that don't work are assigned 20 hours per day to residential development and four hours per day to nonresidential development (annualized averages). Residents that work in Hailey are assigned 14 hours to residential development and 10 hours to nonresidential development. Residents that work outside Hailey are assigned 14 hours to residential development. Inflow commuters are assigned 10 hours to nonresidential development. Based on 2011 functional population data for Hailey, the cost allocation for residential development is 73% while nonresidential development accounts for 27% of the demand for fire infrastructure.

Figure 12: Functional Population

Functional Population Cost Allocation for Public Safety Infrastructure			
	<i>Demand Units in 2011</i>	<i>Demand Hours/Day</i>	<i>Person Hours</i>
Residential			
Population*	7,880		
62% Residents Not Working	4,868	20	97,360

Fire Infrastructure Needs

As specified in 67-8203(29), development impact fees in Hailey exclude costs to repair, upgrade, update, expand or replace existing capital improvements to provide better service to existing development. The City’s Comprehensive Plan, Municipal Code, and website describe existing public facilities. The inventory of fire apparatus is fully utilized and there is no surplus capacity for future development. To accommodate projected development over the next ten years, Hailey will purchase a new fire engine. As shown in Figure 13, the projected growth share is only 25% of the total cost, thus obligating the City to use other revenue sources to fully fund the planned improvement.

Figure 13: Growth-Related Need for Fire Facilities

Description	Year 1-5	Year 6-10	Total Cost	Impact Fee Share	Impact Fee Funding
Impact Fee System Improvements					
New Fire Engine	\$700,980	\$903,500	\$1,604,480	25%	\$401,120
			\$0		\$0
	Ten-Year Total =>		\$1,604,480	25%	\$401,120
	Funding from Other Revenue Sources =>		\$1,203,360		
	Share from Other Sources =>			75%	

Proposed Fire Impact Fees

Figure 14 indicates proposed impact fees for fire facilities in Hailey. Residential fees are derived from average number of persons per housing unit and the cost per person. Nonresidential fees are based on average jobs per 1,000 square feet of floor area and the cost per job. The cost factors for fire facilities are summarized in the upper portion of Figure 14. Persons per unit, by dwelling size, are based on local data, as discussed in Appendix A. For nonresidential development, average jobs per thousand square feet of floor area are documented in Figures A3-A4 and related text.

Proposed development fees for fire facilities are shown in the column with light orange shading. To derive the proposed fee for residential development, multiply average persons per housing unit by the cost per person. For example, the impact fee for a dwelling of 1000 square feet or less would be 0.95 x \$127, or \$120 (truncated). For a new warehouse with 100,000 square feet of floor area, the proposed fee would be \$118 x 100, or \$11,800.

Figure 14: Fee Schedule for Fire Apparatus

Input Variables

Growth Cost of Ten-Year CIP =>	\$401,120

Industrial	0.92	\$118	\$340	(\$222)	-65%
Commercial	2.00	\$258	\$650	(\$392)	-60%
Institutional	0.98	\$126			
Office & Other Services	3.32	\$428	\$1,050	(\$622)	-59%

Funding Strategy for Fire Facilities

Revenue projections shown in Figure 15 assume implementation of the proposed fire fees and that development over the next ten years is consistent with the land use assumptions described in Appendix A. To the extent the rate of development either accelerates or slows down, there will be a corresponding change in the development fee revenue. As shown in the column on the right below, Hailey expects to add 160,000 square feet of "Office & Other Services" over the next ten years. This nonresidential development category includes business and personal services, such as medical offices health care facilities. Office & Other Services are projected to pay approximately \$68,000 in fire impact fees over the next ten years.

Figure 15: Growth Costs and Fee Revenue for Fire Facilities

STREETS CIP AND IMPACT FEES

Impact fees for streets are derived using a plan-based approach for growth-related improvements. The streets impact fee is derived from trip generation rates, trip rate adjustment factors, and the growth cost of capital improvements per vehicle mile of travel. The latter is a function of the average trip length, trip-length weighting factor, and growth share of street improvements. Each component is described below.

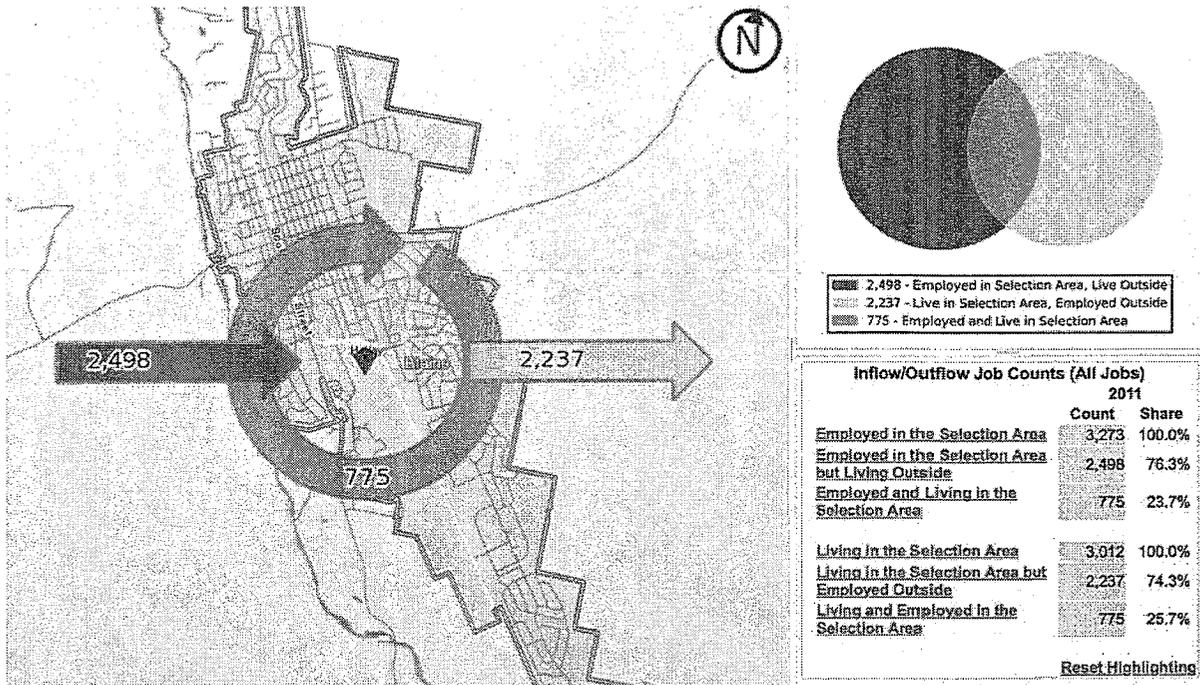

Trip Generation Rates

Hailey's street impact fees are based on average weekday vehicle trip ends. Trip generation rates are from the reference book Trip Generation published by the Institute of Transportation Engineers (ITE 9th Edition 2012). A vehicle trip end represents a vehicle either entering or exiting a development (as if a traffic counter were placed across a driveway). To calculate street impact fees, trip generation rates require an adjustment factor to avoid double counting each trip at both the origin and destination points. Therefore, the basic trip adjustment factor is 50%. As discussed further below, the impact fee methodology includes additional adjustments to make the fees proportionate to the infrastructure demand for particular types of development.

Adjustments for Commuting Patterns and Pass-By Trips

Residential development has a larger trip adjustment factor of 61% to account for commuters leaving Hailey for work. According to the 2009 National Household Travel Survey (see Table 30) weekday work trips are typically 31% of production trips (i.e., all out-bound trips, which are 50% of all trip ends). As shown in Figure 16, the Census Bureau's web application OnTheMap indicates that 74% of resident workers traveled outside the city for work in 2011. In combination, these factors ($0.31 \times 0.50 \times 0.74 = 0.11$) support the additional 11% allocation of trips to residential development.

Figure 16: Inflow/Outflow Analysis

For commercial development, the trip adjustment factor is less than 50% because retail development and some services, like schools, attract vehicles as they pass by on arterial and collector roads. For example, when someone stops at a convenience store on the way home from work, the convenience store is not the primary destination. For the average shopping center, ITE indicates that 34% of the vehicles that enter are passing by on their way to some other primary destination. The remaining 66% of attraction trips have the commercial site as their primary destination. Because attraction trips are half of all trips, the trip adjustment factor is 66% multiplied by 50%, or approximately 33% of the trip ends.

Vehicle Miles of Travel

A Vehicle Mile of Travel (VMT) is a measurement unit equal to one vehicle traveling one mile. In the aggregate, VMT is the product of vehicle trips multiplied by the average trip length¹. The average trip length in Hailey is calibrated using data on existing infrastructure and a lane capacity standard (discussed below).

¹ Typical VMT calculations for development-specific traffic studies, along with most transportation models of an entire urban area, are derived from traffic counts on particular road segments multiplied by the length of that road segment. For the purpose of impact fees, VMT calculations are based on attraction (inbound) trips to development located in the service area, with the trip lengths calibrated to the road network considered to be system improvements. This refinement eliminates pass-through or external-external trips, and travel on roads that are not system improvements (e.g. interstate highways).

Lane Capacity

Street impact fees are based on a lane capacity standard of 2,900 vehicles per lane, derived from Quality/LOS Handbook Tables (Florida Department of Transportation, 2012). The standard is based on a two lane, undivided, signalized, non-state arterial with a posted speed limit of 35 miles per hour or slower, operating at Level-Of-Service (LOS) "C". The lane capacity standard was reviewed by City staff and found to be consistent with actual traffic counts on Hailey arterials.

Trip Length Weighting Factor by Type of Land Use

The streets impact fee methodology includes a percentage adjustment, or weighting factor, to account for trip length variation by type of land use. As documented in Table 6 of the 2009 National Household Travel Survey, vehicle trips from residential development are approximately 121% of the average trip length. The residential trip length adjustment factor includes data on home-based work trips, social, and recreational purposes. Conversely, shopping trips associated with commercial development are roughly 66% of the average trip length while other nonresidential development typically accounts for trips that are 73% of the average for all trips. The specific weighting factors for each development prototype are shown in Figure 17.

Development Prototypes and Projected Travel Demand

The relationship between the amount of development in Hailey and system improvements is documented below. Figure 17 summarizes the input variables used to determine the average trip length on Hailey collectors. In the table below HU means housing units, KSF means square feet of nonresidential development, in thousands, Institute of Transportation Engineers is abbreviated ITE, and VTE means vehicle trip ends. Trip generation rates by bedroom range are documented in Figures A7, A9 and related text.

Projected development in Hailey over the next ten years, and the corresponding need for additional lane miles, is shown in the middle section of Figure 17. Trip generation rates and trip adjustment factors convert projected development into average weekday vehicle trips. A typical vehicle trip, such as a person leaving their home and traveling to work, generally begins on a local street that connects to a collector street, which connects to an arterial road and eventually to a state or interstate highway. This progression of travel up and down the functional classification chain limits the average trip length determination, for the purpose of impact fees, to the following question, "What is the average vehicle trip length on impact fee system improvements?"

City staff maintains a database of city streets that indicates Hailey currently has 33.3 lane miles of collectors. The only arterial is Main Street, which is a state highway. With 33.3 lane miles of collectors and a lane capacity standard of 2,900 vehicles per lane, the existing network has 96,570 vehicle miles of capacity (i.e., 2,900 vehicles per lane allocated traveling the entire 33.3 lane miles). To derive the average utilization (i.e., average trip length expressed in miles) of the collector network, divide vehicle miles of capacity by the vehicle trips attracted to development in the city. As shown in the bottom-left corner of the table below, existing development attracts 30,352 average weekday vehicle trips. Dividing 96,570 vehicle miles of capacity by inbound average weekday vehicle trips yields an average trip length of approximately 3.18 miles.

Planned Street Improvements

As specified in 67-8203(29), development impact fees in Hailey exclude costs to repair, upgrade, update, expand or replace existing capital improvements to provide better service to existing development. The City's Comprehensive Plan, Municipal Code, and website describe existing public facilities. The inventory of collector streets is fully utilized and there is no surplus capacity for future development.

Planned transportation improvements (from the FY15-19 CIP), are listed in Figure 18. Even though the projects recommended for impact fee funding are selected from Hailey's CIP, the "need" for improvements is more difficult to determine for streets than for utility systems. The key difference is that water and sewer utilities are closed systems, but a street network is an open system. The demand for street capacity can be influenced by development units outside the service area and by what is know as "triple convergence." In essence, this concept acknowledges that street capacity is consumed by drivers changing their time, route, and mode of travel, with the latter being more significant in urban

areas. Also, “traffic congestion” is a relative and more subjective measure that is closely connected with a person’s willingness to pay. Given this complexity, the list of street improvements can be reduced by City Council during the public hearing process to eliminate lower priority projects, or lower growth shares (assuming additional funding is available from revenue sources other than impact fees). Conversely, if elected officials desire to expand the list of street improvements, proposed impact fees would increase proportionately.

As shown in Figure 18, growth-related street improvements over the next ten years have a total cost of \$6.07 million, with \$1.67 million to be funded by impact fees (28%) and the other 72% to be funded from other revenues. Proposed street improvements will enhance connectivity, provide safer and more desirable multi-modal routes (i.e. for pedestrians and cyclists) and relieve vehicular congestion.

Figure 18: Summary of Street Improvements

Project Description	FY16-20	FY21-25	Total Cost	Impact Fee Share	Impact Fee Funding
Snow Storage - Requires Land	\$1,340,000	\$0	\$1,340,000	30%	\$402,000

Missing Sidewalk Connections	\$60,000	\$0	\$60,000	40%	\$24,000
			\$0		\$0
Ten-Year Total			\$6,067,750	28%	\$1,673,075
Revenue from Sources Other Than Impact Fees =>				72%	\$4,394,675

Revenue Credit Evaluation

A credit for other revenues is only necessary if there is potential double payment for system improvements. In Hailey, gas tax and General Fund revenues will be used for maintenance of existing facilities, correcting existing deficiencies, and for capital projects that are not impact fee system improvements. As shown below in the Figure 20, cumulative impact fee revenue over the next ten years roughly matches the growth cost of system improvements. There is no potential double payment from other revenues because street impact fees will exclusively fund the growth share of system improvements.

Proposed Impact Fees for Streets

Input variables for Hailey’s street impact fees are shown in the upper section of Figure 19. Inbound vehicle trips by type of development are multiplied by the capacity cost per vehicle mile of travel to yield the impact fees. Given the City’s improvements plan (\$1.67 million funded by impact fees) and the projected increase of 24,897 vehicle miles of travel over the next ten years, the capital cost is \$67.20 per vehicle miles of travel. To derive the impact fee for the commercial development per 1000 square feet of floor area, multiply the following factors from Figure 19.

$$\begin{array}{r} 42.70 \text{ weekday vehicle trip ends per 1000 square feet} \\ \times \\ 0.33 \text{ adjustment factor for inbound trips, including pass-by} \\ \times \\ 3.18 \text{ average miles per trip} \\ \times \\ 0.66 \text{ trip length adjustment factor for commercial development} \\ \times \\ \$67.20 \text{ growth cost per VMT} \\ = \\ \$1,987 \text{ per 1000 square feet (truncated)} \end{array}$$

The text below from Trip Generation (ITE 2012) supports the consultant's recommendation to use ITE 820 Shopping Center as a reasonable proxy for all commercial development. The shopping center trip generation rates are based on 302 studies with an r-squared value of 0.79. The latter is a goodness-of-fit indicator with values ranging from 0 to 1. Higher values indicate the independent variable (floor area) provides a better prediction of the dependent variable (average weekday vehicle trip ends). If the r-squared value is less than 0.50, ITE does not publish the value because factors other than floor area provide a better prediction of trip rates.

"A shopping center is an integrated group of commercial establishments. Shopping centers, including neighborhood, community, regional, and super regional centers, were surveyed for this land use. Some of these centers contained non-merchandising facilities, such as office buildings, movie theaters, restaurants, post offices, banks, and health clubs. Many shopping centers, in addition to the integrated unit of shops in one building or enclosed around a mall, include out parcels (peripheral buildings or pads located on the perimeter of the center adjacent to the streets and major access points). These buildings are typically drive-in banks, retail stores, restaurants, or small offices. Although the data herein do not indicate which of the centers studied include peripheral buildings, it can be assumed that some of the data show their effect."

Funding Strategy for Street Improvements

The ten-year plan for street improvements has a growth cost of approximately \$1.67 million to be funded by impact fees. As shown in Figure 20, cumulative impact fee revenue is approximately equal to the growth cost of improvements over the next ten years. Revenue projections shown below assume implementation of the proposed street impact fees and the development projections described in Appendix A. To the extent the rate of development either accelerates or slows down, there will be a corresponding change in the impact fee revenue. Given strong economic incentives for locating close to customers, most Commercial, Institutional, and Office/Other Services will typically follow residential development and choose to locate in Hailey, even if the City continues to impose impact fees. For “foot loose” industrial development (i.e. employers that have multiple options on where to locate), impact fees can hinder economic development efforts, but the table below indicates industrial development will only contribute \$11,000 towards street improvements over the next ten years.

Figure 20: Projected Growth Costs and Fee Revenue

Ten-Year Cost of Street Improvements

Total Projected Revenues (rounded) =>						\$1,672,000

FEE IMPLEMENTATION AND ADMINISTRATION

Capital improvements and development impact fees must be evaluated and updated at least every five years to comply with Idaho's enabling legislation. Some jurisdictions make annual adjustments for inflation using the Engineering News Record (ENR) Construction Cost Index published by McGraw-Hill Companies. This index could be applied to the adopted impact fee schedule. If cost estimates or demand indicators change significantly, the City should redo the fee calculations.

Fees must be spent within eight years of when they are collected, with the expenditures limited to growth-related system improvements or debt service on growth-related infrastructure, as specified in the impact fee study. General practice is aggregate first in, first out accounting (rather than project-specific tracking) with impact fees and accrued interest maintained in a separate fund that is not comingled with other revenues. In Idaho, an annual report is mandatory, indicating impact fee collections, expenditures, and fund balances by type of infrastructure.

Service Areas

To ensure a substantial benefit to new development paying impact fees, the City of Hailey has evaluated collection and expenditure zones for public facilities that may have distinct benefit or service areas. In the City of Hailey, impact fees for parks and paths, fire apparatus, and street improvements will benefit new development throughout the entire incorporated area. TischlerBise recommends one citywide service area for Hailey impact fees.

Cost of CIP Preparation Attributable to Impact Fee Determination

As stated in Idaho's enabling legislation, a surcharge on the collection of development impact fees may be used to fund the cost of preparing the CIP that is attributable to the impact fee determination. Because development fees must be updated at least every five years, this cost was allocated to the projected increase in service units over five years. As shown in Figure 21, proportionate share factors based on functional population were used to allocate the cost of CIP preparation by development category.

Figure 21: Surcharge for Cost of CIP Preparation

Institutional	0.98	\$33	\$50	(\$17)	-34%
Office & Other Services	3.32	\$112	\$50	\$62	124%

Development Categories

Proposed impact fees for residential development are by square feet of finished living space, excluding unfinished basement and garage floor area. Appendix A provides further documentation of demographic data by size threshold.

The four general nonresidential development categories in the proposed impact fee schedule can be used for all new construction within Hailey. Nonresidential development categories represent general groups of land uses that share similar average weekday vehicle trip generation rates and job density (i.e. jobs per 1,000 square feet of floor area), as documented in Appendix A. "Industrial" includes the processing or production of goods, along with warehousing, transportation, communications, and utilities. "Commercial" includes retail development and eating/drinking places. "Institutional" development includes public and quasi-public buildings such as schools, daycare, and churches. "Office & Other Services" includes offices, business services, lodging, and personal services such as health care.

An applicant may submit an independent study to document unique demand indicators for a particular development. The independent study must be prepared by a professional engineer or certified planner and use the same type of input variables as those in Hailey's impact fee study. For residential development, impact fees are based on average persons per housing unit and average weekday vehicle trip ends per housing unit. For nonresidential development, impact fees are based on average weekday vehicle trips ends per 1,000 square feet of floor area, and the average number of jobs per 1,000 square

feet of floor area. The independent fee study will be reviewed by City staff and can be accepted as the basis for a unique fee calculation. If staff determines the independent fee study is not reasonable, the applicant may appeal the administrative decision to Hailey's elected officials for their consideration.

Credits and Reimbursements

A general requirement that is common to impact fee methodologies is the evaluation of credits. A revenue credit may be necessary to avoid potential double payment situations arising from one-time impact fees plus on-going payment of other revenues that may also fund growth-related capital improvements. The determination of revenue credits is dependent upon the impact fee methodology used in the cost analysis.

Policies and procedures related to site-specific credits should be addressed in the ordinance that establishes the impact fees. Project-level improvements, required as part of the development approval process, are not eligible for credits against impact fees. If a developer constructs a system improvement included in the fee calculations, it will be necessary to either reimburse the developer or provide a credit against the fees in the area that benefits from the system improvement. The latter option is more difficult to administer because it creates unique fees for specific geographic areas. Based on national experience, TischlerBise recommends a jurisdiction establish a reimbursement agreement with the developer that constructs a system improvement. The reimbursement agreement should be limited to a payback period of no more than ten years and the City should not pay interest on the outstanding balance. The developer must provide sufficient documentation of the actual cost incurred for the system improvement. The City should only agree to pay the lesser of the actual construction cost or the estimated cost used in the impact fee analysis. If the City pays more than the cost used in the fee analysis, there will be insufficient fee revenue. Reimbursement agreements should only obligate the City to reimburse developers annually according to actual fee collections from the benefiting area.

The supporting documentation for each type of impact fee illustrates the types of infrastructure considered to be system improvements. Site specific credits or developer reimbursements for one type of system improvement does not negate an impact fee for other system improvements.

OTHER MECHANISMS

Although development agreements and general obligation bonds are not revenue sources, they are a means to provide growth-related infrastructure. A development agreement specifies improvements to be made the developer, with the costs typically passed along to future buyers or renters in the new development. Bonds are a financing mechanism, whereby Hailey borrows funds to complete a capital improvement and then makes debt service payments to retire the obligation over time.

DEVELOPMENT AGREEMENTS

The *Idaho Land Use Handbook* states, “cities and counties have broad and express statutory authority to enter into contracts of all types and to engage in other actions in fulfillment of their police powers” (page 66, Givens Pursley LLP 2013). TischlerBise recommends that development agreements be used to address the need for site-specific improvements, such as the geographic expansion of the water distribution system or wastewater collection system. Development agreements are also suitable for neighborhood parks and open space; often requiring these public amenities to be perpetually maintained by a homeowners association. Street improvements are the other major infrastructure need commonly addressed in a development agreement. However, these are fairly rare in Hailey because rezones are not common.

GENERAL OBLIGATION BONDS FOR LIBRARY AND POLICE STATION

According to the *City Budgeting Manual* published by the Association of Idaho Cities, General Obligation (GO) bonds are backed by the full faith and credit of the local government, with repayment from property tax levies. These bonds must receive two-thirds supermajority voter approval and are appropriated for major public facilities, such as a new library and police station. As shown above in Figure 2, the proposed library expansion and new police station are the two most expensive growth-related projects in Hailey’s FY15 CIP. If GO bonds are approved, a debt service methodology could be used to recover the growth share of the police station cost from impact fees.

LOCAL IMPROVEMENT DISTRICT (LID) FOR STREETS

Also, the *City Budgeting Manual* published by the Association of Idaho Cities states that a resolution of the governing board is sufficient to create a LID, following the procedures set out in Idaho Code Title 50, Chapter 17. A LID may issue bonds and there is no requirement for a popular vote. LIDs are not limited to ad-valorem assessments and TischlerBise highly recommends exploration of other cost allocation methods. For example, allocating the cost of street improvements to the land area of each parcel within the City would provide an economic incentive for infilling and redeveloping vacant and under-utilized properties.

As a broad-based revenue, a LID is ideal for funding the non-growth share of intersection improvements identified in Hailey's 2007 Transportation Master Plan (see Table 6). Also, a LID will provide funding for improvements that benefit existing development, including the following projects from the FY15 CIP:

- Snow storage (land and improvements)
- 3rd Ave sidewalks and missing sidewalk connections
- Reconstructing streets (S Woodside Industrial Park and NE Woodside)

APPENDIX A: DEMOGRAPHICS AND DEVELOPMENT PROJECTIONS

Appendix A provides the population, housing unit, jobs and nonresidential floor area data for the 2015 development impact fee studies. To evaluate the demand for growth-related infrastructure from various types of development, TischlerBise also prepared documentation of average weekday vehicle trip generation rates and demand indicators by size of dwelling. These metrics (explained further below) are the “service units” or demand indicators that will be used to update Hailey’s impact fees.

Development impact fees must be proportionate by type of development and based on the need for growth-related improvements. The demographic data and development projections discussed below will be used to demonstrate proportionality and the anticipated need for additional infrastructure. All land use assumptions and projected growth rates are consistent with Hailey’s Comprehensive Plan. In contrast to the Comprehensive Plan, which is more general and has a long-range horizon, development impact fees require more specific quantitative analysis and have a short-range focus. Typically, impact fee studies look out five to ten years, with the expectation that fees will be periodically updated (e.g. every 5 years). Infrastructure standards will be calibrated using fiscal year 2014-15 data. In the City of Hailey the fiscal year begins on October 1st.

SUMMARY OF GROWTH INDICATORS

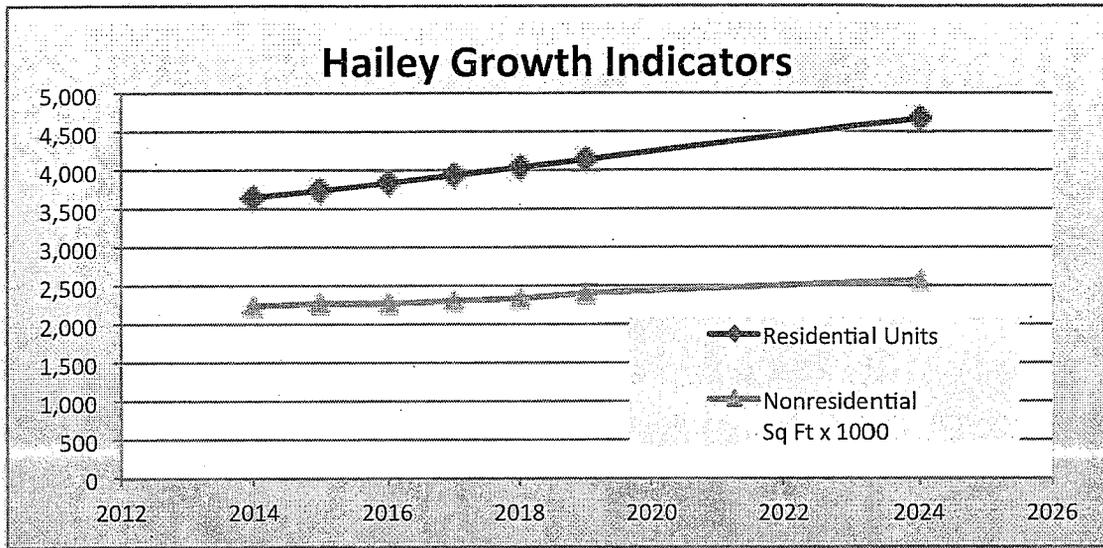

Key development projections for the City of Hailey are housing units and nonresidential floor area, as shown in Figure A1. These projections will be used to estimate development fee revenue and to indicate the anticipated need for growth-related infrastructure. The goal is to have reasonable projections without being overly concerned with precision. Because impact fees methods are designed to reduce sensitivity to development projections in the determination of the proportionate-share fee amounts, if actual development is slower than projected, fee revenue will decline, but so will the need for growth-related infrastructure. In contrast, if development is faster than anticipated, the City will receive an increase in fee revenue, but will also need to accelerate infrastructure improvements to keep pace with the actual rate of development.

The housing unit projection was derived from the low-range population growth rate (2.5% per year) from Section 5 in the 2010 Comprehensive Plan. Conversion of year-round residents to housing units assumes 2.25 persons per housing unit, as documented below (see Figure A2 and related text). During the next five years, the impact fee study assumes an average increase of 96 housing units per year.

The projected increase in floor area is based on job growth rates from the 2010 Hailey Comprehensive Plan and the 2015 Blaine County Community Profile. The Blaine County Community Profile expects overall jobs to increase by 0.6% per year, with office and health care jobs expected to increase by 3.4% annually (see Table 3). TischlerBise used the conservative overall job growth rate of 0.6% for Industrial and Institutional jobs and the more optimistic rate of 3.4% annually for Office & Other Services. For Commercial jobs, TischlerBise assumed the residential growth rate of 2.5% per year. Current estimates of floor area by type of nonresidential development are discussed below (see Figures A3-A4 and related text). Over the next five years, Hailey expects an average increase of 32,000 square feet of nonresidential floor area per year. The weighted average job increase is 1.4% per year.

Figure A1: Summary of Development Projections and Growth Rates

Hailey, Idaho	Year						2014 to 2019 Average Annual		
	2014	2015	2016	2017	2018	2019	2024	Increase	Compound Growth Rate
Residential Units	3,651	3,742	3,836	3,932	4,030	4,131	4,673	96	2.5%
Nonresidential Sq Ft x 1000	2,240	2,260	2,290	2,320	2,350	2,400	2,580	32	1.4%

RESIDENTIAL DEVELOPMENT AND PERSONS PER HOUSING UNIT

According to the U.S. Census Bureau, Hailey increased by an average of 97 housing units per year from 2000 to 2010, which is an average annual compound growth rate of 3.3%. Consistent with the nationwide decline in development activity during the Great Recession, residential construction slowed significantly from 2008 to 2010, thus decreasing the growth rate in housing units during the past decade. Given the lingering lull in construction activity, Hailey only expects to increase by an average of 71 housing units from 2010 to 2020, which is less than the actual increase during the previous decade.

The 2010 census did not obtain detailed information using a “long-form” questionnaire. Instead, the U.S. Census Bureau has switched to a continuous monthly mailing of surveys, known as the American Community Survey (ACS), which is limited by sample-size constraints. For example, data on detached housing units are now combined with attached single units (commonly known as townhouses). Part of the rationale for deriving fees by bedroom range, as discussed further below, is to address this ACS data limitation. Because townhouses generally have fewer bedrooms than detached units, fees by bedroom range ensure proportionality and facilitate construction of affordable units.

If Hailey’s elected officials make a legislative policy decision to *not* impose fees by dwelling size, TischlerBise will recommend that fees be imposed for two residential categories. As shown Figure A2, dwellings with a single unit per structure (detached and attached) average 2.46 persons per housing

unit. Dwellings in structures with two or more units average 1.62 year-round residents per unit. This category includes duplexes, which have two dwellings on a single land parcel. According to the latest available data, the overall average is 2.25 year-round residents per housing unit and 2.38 persons per household.

According to the U.S. Census Bureau, a household is a housing unit that is occupied by year-round residents. Development fees often use per capita standards and persons per housing unit, or persons per household, to derive proportionate-share fee amounts. TischlerBise recommends that fees for residential development in the City of Hailey be imposed according to the number of year-round residents per housing unit.

Figure A2: Year-Round Persons per Unit by Type of Housing

2013 Five-Year Estimate by Type of Housing

<i>Units in Structure</i>	<i>Persons</i>	<i>House-holds</i>	<i>Persons per Household</i>	<i>Housing Units</i>	<i>Persons per Housing Unit</i>	<i>Housing Mix</i>	<i>Vacancy Rate</i>

Five-Year Estimates, 2013 American Community Survey, U.S. Census Bureau.

JOBS AND NONRESIDENTIAL DEVELOPMENT

In addition to data on residential development, the calculation of impact fees requires data on nonresidential development. TischlerBise uses the term “jobs” to refer to employment by place of work. In Figure A3, gray shading indicates the four nonresidential development prototypes the will be used by TischlerBise to derive average weekday vehicle trips, Vehicle Miles of Travel (VMT) and nonresidential floor area. Current floor area estimates for industrial, commercial, institutional, and office/other services, are derived using national averages of square feet per job (see *Trip Generation*, Institute of Transportation Engineers, 2012). For future industrial development, warehousing (ITE code 150) is a reasonable proxy with an average 1,093 square feet per job. The prototype for future commercial development is an average-size shopping center (ITE code 820). Commercial development (i.e. retail and eating/drinking places) is assumed to average 500 square feet per job. For institutional development, such as public buildings, schools and churches, floor area in Hailey is based on education and government jobs, assuming an average of 1,018 square feet per job. The prototype for institutional development is an elementary school. For office and other services, a average-size office (ITE 710) is the prototype for future development, averaging of 301 square feet per job.

Figure A3: Average Weekday Vehicle Trip Ends

ITE Code	Land Use / Size	Demand Unit	Wkdy Trip Ends Per Dmd Unit*	Wkdy Trip Ends Per Employee*	Emp Per Dmd Unit	Sq Ft Per Emp

* *Trip Generation, Institute of Transportation Engineers, 9th Edition (2012).*

Figure A4 indicates 2011 estimates of jobs and nonresidential floor area within Hailey. Job estimates, by type of nonresidential, are from Hailey's Work Area Profile from the U.S. Census Bureau's online web application known as OnTheMap. The number of jobs in Hailey is based on quarterly workforce reports supplied by employers. With 3,273 jobs and an overall average of 653 square feet per job, Hailey had almost 2.14 million square feet of nonresidential building space in 2011. Floor area estimates are derived from the number of jobs by type of nonresidential development and average square feet per job ratios, as discussed on the previous page.

Figure A4: Jobs and Floor Area Estimates

	2011 Jobs (1)		Sq Ft per Job (2)	2011 Estimated Floor Area	Jobs per 1000 Sq Ft
Industrial (3)	680	21%	1,093	743,000	0.92
Commercial (4)	696	21%	500	348,000	2.00
Institutional (5)	661	20%	1,018	673,000	0.98
Office & Other (6)	1,236	38%	301	372,000	3.32
TOTAL	3,273	100%	653	2,136,000	1.53

(1) Jobs in 2011 from Work Area Profile, OnTheMap, U.S. Census Bureau web application.

(2) Derived from data in Trip Generation, published by the Institute of Transportation Engineers, 2012.

(3) Major sectors are Construction, Manufacturing, and Transportation/Warehousing.

(4) Major sectors are Retail and Accommodation/Food Services.

(5) Major sectors are Educational Services and Public Administration.

(6) Major sectors are Professional/Scientific/Technical Services and Health Care.

DETAILED LAND USE ASSUMPTIONS

Demographic data shown in Figure A5 are key inputs for Hailey’s impact fee update. Cumulative data are shown at the top and projected annual increases, by type of development, are shown at the bottom of the table.

Given the expectation that impact fees are updated every five years, TischlerBise did not evaluate long-term demographic trends such as declining household size (i.e. the average number of persons in an occupied dwelling). The projected increase in housing units through 2030 assumes a constant ratio of 2:25 persons per housing unit.

CUSTOMIZED TRIP GENERATION RATES PER HOUSING UNIT

As an alternative to simply using the national average trip generation rate for residential development, the Institute of Transportation Engineers (ITE) publishes regression curve formulas that may be used to derive custom trip generation rates, using local demographic data. Key independent variables needed for the analysis (i.e. vehicles available, housing units, households and persons) are available from American Community Survey data for Hailey. Customized average weekday vehicle trip generation rates by type of housing are shown in Figure A6. A vehicle trip end represents a vehicle either entering or exiting a development, as if a traffic counter were placed across a driveway. The custom trip generation rates for Hailey are lower than national averages. For example, single-unit residential development in Hailey is expected to produce 8.71 average weekday vehicle trip ends per dwelling, which is lower than the national average of 9.57 (see ITE code 210).

Figure A6: Residential Trip Generation Rates by Type of Housing

Hailey, Idaho		Households (2)			Vehicles per Household by Tenure
	Vehicles Available (1)	Single Unit per Structure	2+ Units per Structure	Total	
Owner-occupied	4,610	2,090	224	2,314	1.99
Renter-occupied	1,766	474	530	1,004	1.76
TOTAL	6,376	2,564	754	3,318	1.92
Housing Units (6) =>		2,622	888	3,510	

Units per Structure	Persons (3)	Trip Ends (4)	Vehicles by Type of Housing	Trip Ends (5)	Average Trip Ends	Trip Ends per Housing Unit
Single Units	6,462	16,776	4,997	28,882	22,829	8.71
2+ Units	1,440	4,932	1,379	5,725	5,329	6.00
TOTAL	7,902	21,708	6,376	34,607	28,158	8.02

- (1) Vehicles available by tenure from Table B25046, American Community Survey, 2013.
- (2) Households by tenure and units in structure from Table B25032, American Community Survey, 2013.
- (3) Persons by units in structure from Table B25033, American Community Survey, 2013.
- (4) Vehicle trips ends based on persons using formulas from Trip Generation (ITE 2012). For single unit housing (ITE 210), the fitted curve equation is $EXP(0.91*LN(persons)+1.52)$. To approximate the average population of the ITE studies, persons were divided by 12 and the equation result multiplied by 12. For 2+ unit housing (ITE 220), the fitted curve equation is $(3.47*persons)-64.48$.
- (5) Vehicle trip ends based on vehicles available using formulas from Trip Generation (ITE 2012). For single unit housing (ITE 210), the fitted curve equation is $EXP(0.99*LN(vehicles)+1.81)$. To approximate the average number of vehicles in the ITE studies, vehicles available were divided by 19 and the equation result multiplied by 19. For 2+ unit housing (ITE 220), the fitted curve equation is $(3.94*vehicles)+293.58$.
- (6) Housing units from Table B25024, American Community Survey, 2013.

DEMAND INDICATORS BY DWELLING SIZE

Impact fees must be proportionate to the demand for infrastructure. Because averages per housing unit, for both persons and vehicle trips, have a strong, positive correlation to the number of bedrooms, TischlerBise recommends residential fee schedules that increase by dwelling size. Custom tabulations of demographic data by bedroom range can be created from individual survey responses provided by the U.S. Census Bureau, in files known as Public Use Micro-data Samples (PUMS). PUMS files are only available for areas of at least 100,000 persons, with the City of Hailey included in Public Use Micro-data Area (PUMA) 01000 that includes the following seven counties: Blaine, Elmore, Jerome, Minidoka, Gooding, Lincoln, and Camas. As shown in Figure A7, TischlerBise derived trip generation rates and average persons per housing unit by bedroom range, from un-weighted PUMS data. The recommended multipliers by bedroom range (shown below) are for all types of housing units, adjusted to the control totals for Hailey. As shown above, Hailey averages 8.02 weekday vehicle trip ends (see Figure A6) and 2.25 persons per housing unit (see Figure A2).

Figure A7: Vehicle Trip Ends and Persons by Bedroom Range

Hailey, ID							Recommended Multipliers (4)		
Bedrooms	Persons (1)	Trip Ends (2)	Vehicles Available (1)	Trip Ends (3)	Average Trip Ends	Housing Units (1)	Trip Ends per Housing Unit	Persons per Housing Unit	Housing Mix
0-1	56	190	48	286	238	53	4.40	1.12	9%
2	241	716	225	1,321	1,018	145	6.88	1.76	25%
3	548	1,512	454	2,646	2,079	245	8.31	2.37	43%
4+	369	1,055	284	1,663	1,359	130	10.24	3.01	23%
Total	1,214	3,472	1,011	5,916	4,694	573	8.02	2.25	

- (1) American Community Survey, Public Use Microdata Sample for ID PUMA 01000 (2013 1-Year unweighted data).
- (2) Vehicle trips ends based on persons using formulas from Trip Generation (ITE 2012). For single unit housing (ITE 210), the fitted curve equation is $EXP(0.91 * LN(\text{persons}) + 1.52)$. To approximate the average population in the ITE studies, persons were divided by 2 and the equation result multiplied by 2.
- (3) Vehicle trip ends based on vehicles available using formulas from Trip Generation (ITE 2012). For single unit housing (ITE 210), the fitted curve equation is $EXP(0.99 * LN(\text{vehicles}) + 1.81)$. To approximate the average number of vehicles in the ITE studies, vehicles available were divided by 4 and the equation result multiplied by 4.
- (4) Recommended multipliers are scaled to make the average values for PUMA 01000 match the average values for Hailey, derived from American Community Survey 2013 5-Year data.

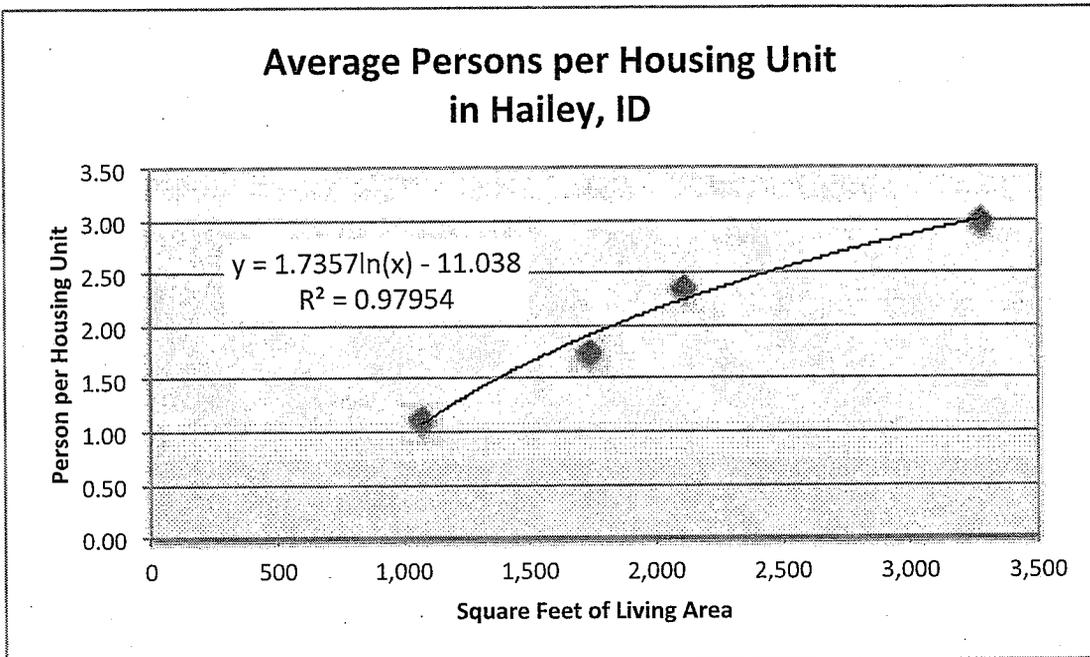

Average floor area and number of persons by bedroom range are plotted in Figure A8, with a logarithmic trend line derived from four actual averages for the area that includes Hailey. Using the trend line formula shown in the chart, TischlerBise derived the estimated average number of persons, by dwelling size, using 600 square foot intervals. For the purpose of impact fees, TischlerBise recommends a minimum fee based on a unit size of 1000 square feet and a maximum fee for units 2801 square feet or larger. According to the U.S. Census Bureau's Survey of Construction microdata for Mountain West states, the average size of all two-bedroom single-family housing units (both detached and attached) constructed in 2013 was 1,744 square feet of finished living space. This same source indicates an average of 2,115 and 3,283 square feet of finished living space for three and four-or-more bedroom housing units, respectively.

The U.S. Census Bureau also publishes summary tables for multifamily housing units, indicating 1,076 square feet of floor area for units constructed in 2013 in the West census region. As shown in the upper-right of the table below, the lowest floor area range (1000 square feet or less) has an estimated average of 0.95 persons per housing unit. This is consistent with the fact that 44% of multifamily units constructed during 2013 in the West Region were either efficiencies or one-bedroom units suitable for a single-person household.

Figure A8: Persons by Square Feet of Living Space

Actual Averages per Hsg Unit			Fitted-Curve Values	
Bedrooms	Square Feet	Persons	Sq Ft Range	Persons
0-1	1,076	1.12	1000 or less	0.95
2	1,744	1.76	1001 to 1600	1.77
3	2,115	2.37	1601 to 2200	2.32
4+	3,283	3.01	2201 to 2800	2.74
			2801 or more	2.97

U.S. Census Bureau 2013 Survey of Construction is the data source for average square feet of dwellings. Average persons per housing unit is from 2013 ACS PUMS for the area that includes Hailey.

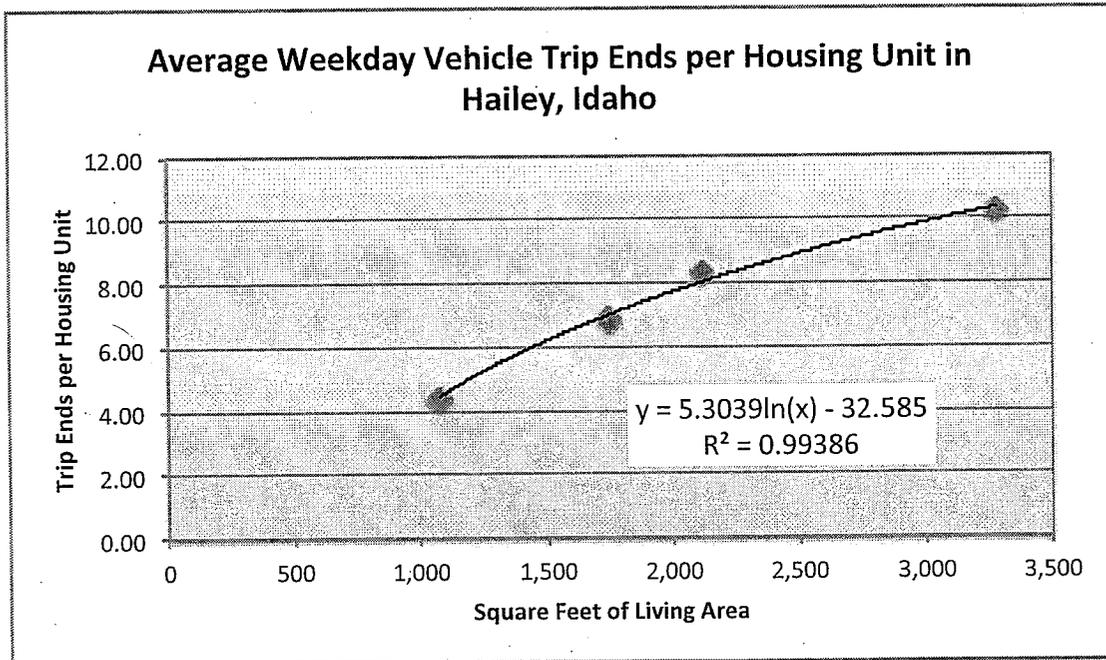

To derive average weekday vehicle trip ends by house size, TischlerBise combined demographic data derived from U.S. Census Bureau PUMS files with floor area from derived from the Survey of Construction microdata file. Average floor area and weekday vehicle trip ends, by bedroom range, are plotted in Figure A9, with a logarithmic trend line derived from four actual averages for the area that includes Hailey. TischlerBise used the trend line formula to derive estimated trip ends by dwelling size, in 600 square feet intervals.

The average-size, three-bedroom unit is within the size range of 1601 to 2200 square feet and has a fitted-curve value of 8.23 vehicle trip ends on an average weekday. A small apartment unit of 1,000 square feet or less would pay 49% of the transportation impact fee paid by an average-size dwelling. A large unit of 2801 square feet or more would pay 124% of the transportation impact fee paid by an average size unit. If Hailey implements a “one-size-fits-all” approach, small units will be required to pay more than their proportionate share while large units will pay less than their proportionate share. Average fees for all dwelling sizes makes small units less affordable and essentially subsidizes larger units.

Figure A9: Vehicle Trips by Dwelling Size

U.S. Census Bureau 2013 Survey of Construction is the data source for average square feet of dwellings. Average persons per housing unit is from 2013 ACS PUMS for the area that includes Hailey.

Actual Averages per Hsg Unit			Fitted-Curve Values	
Bedrooms	Square Feet	Trip Ends	Sq Ft Range	Trip Ends
0-1	1,076	4.40	1000 or less	4.05
2	1,744	6.88	1001 to 1600	6.55
3	2,115	8.31	1601 to 2200	8.23
4-5	3,283	10.24	2201 to 2800	9.51
			2801 or more	10.22

AGENDA ITEM SUMMARY

DATE: 08/17/2015 **DEPARTMENT:** Admin **DEPT. HEAD SIGNATURE:** HD

SUBJECT: Public Hearing on proposed FY 2016 Budget in the amount of \$13,402,653.

1. Public Hearing and City Council Discussion
2. Public Hearing on Water and Wastewater fees for FY 2016
3. Consideration of Annual Appropriation Ordinance
4. Authorization to approve and sign L-2 Form, certifying property tax levy to Blaine County Board of County Commissioners

AUTHORITY: ID Code _50- _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

On July 6, 2015 Mayor Haemmerle presented a preliminary budget for council discussion. A not-to-exceed budget was adopted by the Hailey City Council on July 20, 2015, and has been published twice as prescribed by law. Information about the budget was distributed to all of Hailey through Our Town. The information stated:

Message from the Mayor

Public Invited to Budget Hearing

Hailey's public hearing on the FY2016 proposed budget is scheduled for Monday, August 17, 2015 at 5:30 p.m. Adoption of a city budget is one of the most important pieces of work done by your city government. I will highlight here some primary elements of the budget I proposed to the City Council.

Revenues remain mostly flat, with a few exceptions:

- a 3% property tax increase as allowed by law for an increase of \$80,000.
- an increase in revenue for roads of \$75,000, due to a change in the State Fuel Tax formula. We have correspondingly increased the street department maintenance by over \$75,000.

Expenses are targeted to meet the following goals:

- We will buy less expensive health insurance, and use that savings for salary increases and an improved benefits package for our employees. Mayor and Council salaries are proposed to increase to \$24,000 for Mayor and \$10,200 for City Council. These salaries were last increased by 3% in 2007, prior to which modest biannual increases were applied.
- The Hailey Public Library will implement electronic book monitoring equipment costing \$25,000, which will reduce the loss of materials and allow library staff time to be more focused on community services, such as "Book a Librarian" or the popular adult and children's programs.
- We will maintain the integrity of our public buildings. Fox Building maintenance will be increased by \$60,000 for radon mitigation and window repairs.
- Hailey Police Department will continue to implement community policing through a new School Resource Officer positioned within Wood River Middle School. This position is contracted by Blaine County School District to work under HPD authority.
- The Water Master Plan will begin to be implemented with the purchase of a back-up generator for our wells. A \$20,000 card read system to meter and bill from the fill-spout will pay for itself. A new pick-up is warranted within our aging fleet.
- The Wastewater Master Plan priorities will be launched with \$100,000 for ultra-violet equipment at the treatment plant.
- A \$300,000 VatCom Jet Truck is budgeted for sewer line maintenance. Our 2007 truck will need to be replaced in the foreseeable future.
- \$375,000 has been reserved from our remaining capital fund for the replacement of two fire trucks. Our plan is

to purchase one new truck on a multi-year lease and refurbish one of the trucks to extend its useful life another five to ten years. Another \$150,000 is reserved for essential breathing apparatus for fire-fighters known as SCBA gear.

- Our \$82,000 contract with Wood River Rural Fire District is budgeted for fire department salaries and equipment maintenance. This contract dramatically increased the workload of Hailey's Fire Chief, who now acts also as the WRFD Assistant Chief. Both departments benefit by shared use of fire-fighters and equipment through this contract.
- We will assess and design our current 3rd Avenue Fire Station site for a combined police and fire station. At that location where two fire stations sit side by side, we may have the potential of teaming with WRFD to design a facility across both lots.
- Two part-time employees will be added to our Parks Department. With increased staff and maintenance dollars in parks, our Street Department will focus primarily on street care. We will continue to make gains in the quality of our parks, streets, and alleys.
- We are holding the last \$100,000 in the capital fund for Street projects, including safety features on Cobblestone where middle school pedestrian traffic conflicts with cars. The project is partly grant-funded.

FISCAL IMPACT / PROJECT FINANCIAL ANALYSIS:

Attached are the line-item details for the proposed budget. Also attached is information pertaining to the water and wastewater rates required to support the proposed budget. An appropriation ordinance and the L2 form certifying the tax levy to the Blaine County Board of County Commissioners has been prepared.

ACKNOWLEDGEMENT BY OTHER AFFECTED CITY DEPARTMENTS: (IF APPLICABLE)

<input type="checkbox"/> City Attorney	<input type="checkbox"/> Finance	<input type="checkbox"/> Licensing	<input type="checkbox"/> Administrator
<input type="checkbox"/> Library	<input type="checkbox"/> Community Development	<input type="checkbox"/> P&Z Commission	<input type="checkbox"/> Building
<input type="checkbox"/> Police	<input type="checkbox"/> Fire Department	<input type="checkbox"/> Engineer	<input type="checkbox"/> W/WW
<input type="checkbox"/> Streets	<input type="checkbox"/> Parks	<input type="checkbox"/> Public Works	<input type="checkbox"/> Mayor

RECOMMENDATION FROM APPLICABLE DEPARTMENT HEAD:

1. Public Hearing and City Council Discussion – Consider public comments regarding overall budget.
2. Public Hearing on Water and Wastewater fees for FY 2016 – consider public comments regarding proposed water and wastewater user fees, and water and wastewater connection fees. Discuss and **direct staff to bring back Resolution adopting fees at next meeting.**
3. Consideration of Annual Appropriation Ordinance – If budget is satisfactory, make a **motion to proceed with first reading of Ordinance # 1184, read by title only.**
4. Authorization to approve and sign L-2 Form, certifying property tax levy to Blaine County Board of County Commissioners – **Motion to authorize the mayor and city clerk to sign and L-2 form certifying Hailey's increased (3%) levy to the Blaine County Board of County Commissioners and the Idaho State Tax Commission.**

Public Works Memo

To: Mayor Fritz Haemmerle
City Council Members

CC: Heather Dawson, City Administrator
Roger Parker, Wastewater Division Manager
Cole Balis, Water Division Manager

From: Mariel Platt, Public Works Director

Date: August 17, 2015

Re: FY 2016 Water and Wastewater Connection Fees and User Rates

Acting as the City's Engineer, Galena Engineering has been given water and wastewater divisions' FY 2016 budgets and together with staff has developed the connection fees and user rates for both divisions. Many updates were made to connection fees – both the number of connections, as well as an update to our inventoried infrastructure, depreciation values and other variables have changes these fees for FY 2016. The following is a summary of the changes proposed by staff to these rates and fees.

Water

User Rates – FY 2015 total operating budget was \$1,311,712.81, compared to FY 2016, which is \$1,689,572.98. This is an increase of \$377,860.18. This increase can be attributed in part to the following new or continued expenses:

- Mobile generator for pump houses/wells as recommended by the Water System Master Plan - \$85,000.
- Engineering and consulting fees for improvements to Indian Springs collection system - \$50,000
- Consulting and legal fees for Water Rights work - \$200,000
- Truck fill card reader system - \$20,000
- Indian Creek and River Street Pump Upgrades - \$30,000

The Municipal Code states that we set rates annually based on the new budget. In order to cover the additional expenses listed in FY 2016's budget we will need to raise rates accordingly.

25% of our expense must be covered by the base rate and 75% by the rate per 1,000 gallons used.

Base rate is currently \$8.24 and is now proposed to at \$10.80. This is a \$2.56/month increase for every user.

The following is the proposed and current year's rates. The difference ranges from \$0.09 to \$1.44 per 1,000 gallons. This is consistent with the existing tiered rate structure, where everyone would pay \$0.34 for the first 10,000 gallons, but each subsequent tier would increase in cost per 1,000 gallons consumed in accordance with the rate shown for that tier.

Proposed Rate Table		Prior Year Rate	Difference
Gallons Used	\$/1,000 gallons		
1,000-10,000	0.34	0.25	0.09
11,000-20,000	0.68	0.50	0.18
21,000-30,000	1.02	0.75	0.27
31,000-40,000	1.36	1.00	0.36
41,000-50,000	1.70	1.25	0.45
51,000-60,000	2.04	1.50	0.54
61,000-70,000	2.38	1.75	0.63
71,000-80,000	2.72	2.00	0.72
81,000-90,000	3.40	2.50	0.90
91,000-100,000	4.08	3.00	1.08
101,000-150,000	4.76	3.50	1.26
151,000 & above	5.44	4.00	1.44

The average winter usage is about \$6,000, which would be \$2.04, plus the proposed base and bond rates. If you used 50,000 is would cost you about \$51, plus the base rate of \$10.80, plus the bond rate, which remains unchanged at \$3.89.

Connection Fees – The connection fee for a typical ¾” connection is currently \$4,449 and is proposed to change to \$4,083.65. This is a \$366 decrease.

Wastewater

User Rates - User rates are proposed to stay the same despite an increase in the budget by about \$186,800. The additional expenses can be covered using fund balance, which we anticipate will come in part from funds unspent this current fiscal year.

Connection Fees – The connection fee for a typical ¾” connection is currently \$3,907 and is proposed to change to \$2,548.27. This is a \$1,359 decrease.

Subject: fare for Hailey Route

Hi Heather-

As part of the presentation to the city on our budget request, I mentioned that a fare on Hailey route could be instituted if city funding were flat from the city. Given that it looks like Hailey funding for Mountain Rides will be staying where it is for this budget year, I want to alert you to the fact that a fare that will go into effect in November. The Hailey route will now have a fare of \$1, effective Nov 1st.

I want to make sure that this doesn't come as a surprise to anyone. We will be alerting riders to expect a fare on Hailey Route in the fall, so that they aren't surprised either. If you have any questions or would like to sit down with me to discuss, please let me know.

Thanks,
Jason

AGENDA ITEM SUMMARY

DATE: 8/17/15 **DEPARTMENT:** Community Development **DEPT. HEAD SIGNATURE:** LH

SUBJECT: Public hearing and recommendation for the Planning and Zoning Commission regarding amendments to Ordinance 532, Chapter 17.05 (soon to be Title 17) District Use Matrix, to allow Urban Agriculture as an Accessory Use to Schools

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code 5.20
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

The City adopted Urban Agriculture provisions in 2010, with amendments in 2013. These sections of the code allow for the production of vegetables, fruits, honey and eggs for personal consumption, including production by members of a neighborhood or by a non-profit organization. Urban Agriculture is allowed in the following Zone Districts: LR-1, LR-2, GR, LB, and TN.

It has come to staff's attention that some schools (those located in the above zones) are allowed to conduct Urban Agriculture, but schools in the B and SCI-SO zone districts are not permitted to do so. (Note that schools are not permitted in a variety of zones; but only the zones that allow both Schools and Urban Agriculture are discussed in this summary.) Two schools in Hailey are in these zone districts. The Sage School, on Aviation Drive is located in the SCI-SO Zone District. The Syringa Mountain School on Glenbrook Drive is in the B Zone District.

The Planning and Zoning Commission voted on July 13, 2015 to recommend an amendment to the District Use Matrix that would allow Urban Agriculture as an Accessory use for all Schools. This will level the playing field for all schools with regards to Urban Agriculture, but also limit the types of Urban Agriculture that may occur in the more commercial zone districts.

Procedural Process

A public hearing was conducted by the Planning and Zoning Commission on July 13, 2015, and a unanimous recommendation on proposed code changes was made.

This item was introduced as new business on July 20, 2015. A public hearing has been scheduled for tonight on this matter pursuant to the Idaho Local Land Use Planning Act.

HAILEY ORDINANCE NO. __

AN ORDINANCE OF THE CITY OF HAILEY, IDAHO, AMENDING HAILEY'S ZONING ORDINANCE 532, BY AMENDING SECTION 17.05, OFFICAL USE MAP AND DISTRICT USE MATRIX TO ALLOW URBAN AGRICULTURE AS AN ACCESSORY USE TO SCHOOLS IN ALL ZONING DISTRICTS WHERE SCHOOLS ARE PERMITTED; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; AND PROVIDING FOR THE EFFECTIVE DATE OF THIS ORDINANCE UPON PASSAGE, APPROVAL AND PUBLICATION ACCORDING TO LAW.

WHEREAS, the Hailey City Council has found that the following amendment to the Hailey Zoning Ordinance conforms to the Hailey Comprehensive Plan;

WHEREAS, schools have a variety of accessory activities to assist in the learning process, and urban agriculture is one such activity;

WHEREAS, schools are permitted conditionally in the GR, LB, B and SCI-SO Zones;

WHEREAS, Urban Agriculture is not permitted in two of the zones that allow schools (B and SCI-SO), creating a hardship for schools in those zones with regards to Urban Agriculture;

WHEREAS, urban agricultural uses, so long as accessory and subordinate, are compatible with the uses in B and SCI-SO zone districts; and

WHEREAS, the amendment will promote the public health, safety and general welfare.

NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF HAILEY, IDAHO, AS FOLLOWS:

Section 1. Portions of the District Use Matrix found in Section 17.05 of the Hailey Zoning Ordinance Title 17 are hereby amended by addition of the underlined language and by deletion of the stricken language, as follows:

Section 5.4 District Use Matrix

AGRICULTURAL USES														
Agriculture	Horses, a maximum of two (2) horses per acre on lots of one (1) acre minimum size	N	C	C	C	N	N	N	N	N	N	N	N	N
	Urban Agriculture (see definition)	N	P	P	P	N	P	P	N <u>A</u>	N	N	N	N <u>A</u>	N

Section 2. Severability Clause. Should any section or provision of this Ordinance be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the Ordinance as a whole or any part thereof other than the part so declared to be unconstitutional or invalid.

Section 3. Repealer Clause. All City of Hailey ordinances or parts thereof, which are in conflict herewith, are hereby repealed.

Section 4. Effective Date. This ordinance shall be in full force and effect from and after the required three (3) readings, approval, and publication according to law.

PASSED AND ADOPTED BY THE HAILEY CITY COUNCIL AND APPROVED BY THE MAYOR THIS __ DAY OF __, 2015.

HAILEY ORDINANCE NO. __

AN ORDINANCE OF THE CITY OF HAILEY, IDAHO, AMENDING HAILEY'S ZONING ORDINANCE, TITLE 17, BY AMENDING CHAPTER 17.06, DESIGN REVIEW, BY PROVIDING A NEW SECTION 17.06.000, PURPOSE OF DESIGN REVIEW; BY AMENDING SECTION 17.06.010, DESIGN REVIEW APPLICABILITY AND 17.06.020, AUTHORITY OF THE ADMINISTRATOR; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; AND PROVIDING FOR THE EFFECTIVE DATE OF THIS ORDINANCE UPON PASSAGE, APPROVAL AND PUBLICATION ACCORDING TO LAW.

WHEREAS, the Hailey City Council has found that the following amendment to the Hailey Zoning Ordinance conform to the Hailey Comprehensive Plan;

WHEREAS, the Title does not contain a Purposes Section, which is desirable to give context to the regulations; and

WHEREAS, Sections 17.06.010, Design Review Applicability and 17.06.020, Authority of the Administrator, do not provide clarity as to projects requiring design review and projects exempt from design review; and

WHEREAS, the following amendments clarify the design review process, but do not make substantial changes to the design review thresholds; and

WHEREAS, the amendments will promote the public health, safety and general welfare.

NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF HAILEY, IDAHO, AS FOLLOWS:

Section 1: Section 17.06 is hereby amended to add a new section, Section 17.06.000, with the addition of the underlined language as follows:

Section 17.06.000. Purpose of Hailey Design Review

The following purposes describe the broad goals of Design Review. They are not intended to be prescriptive or regulatory.

- A. To ensure that the general appearance and function of building design and construction is compatible with character of the City of Hailey and its neighborhoods;
- B. To promote original and high quality design;
- C. To reinforce the historic and cultural character of the Hailey community;
- D. To encourage revitalization of downtown Hailey;
- E. To promote building and site design that fits into the context of established neighborhoods, and reinforces a "sense of place";
- F. To promote sustainable design principles;
- G. To promote walkable development and enhance the character and function of Hailey streets;
- H. To coordinate on site vehicular and non-vehicular traffic circulation patterns with adjacent transportation systems, and to manage the impact of the vehicular traffic on adjacent streets;

- I. To ensure efficient arrangement of on-site parking with regard to building location, safe access points, non-motorized travel, utilities and public services and adjacent land uses;
- J. To prevent unnecessary excavation or fill for building foundations, access roads, driveways and similar improvements including prevention soil erosion and flood damage;
- K. To ensure appropriate and adequate landscaping, with an emphasis on sustainable, low-water use landscaping and;
- L. To protect and conserve the economic base of Hailey including property values.

Section 2. Section 17.06.010 of the Hailey Zoning Ordinance Title 17, Chapter 17.06 is hereby amended by the addition of the underlined language and the deletion of the stricken language, as follows:

Section 17.06.010: Applicability.

- A. No person shall build, develop, or substantially remodel or alter the exterior of the following Buildings without receiving design review approval or exemption pursuant to this Article, as outlined in the matrix and 17.01.020 below:
- B. ~~1. A building for a non-residential Principal or Conditional Use within any zoning district.~~
- 2. ~~A building for a Public or Semi-Public Use within any zoning district.~~
- 3. ~~A Multi-Family Dwelling of three or more units within any zoning district.~~
- 4. ~~A Single Family Dwelling, Duplex or Accessory Structure within the Townsite Overlay (TO) District.~~
- 5. ~~A Historic Structure.~~
- B. ~~Exemptions:~~
 - 1. ~~Murals and public art~~
 - 2. ~~Applications for non-emergency temporary structures are not subject to Design Review, but are subject to the Conditional Use Permit process as set forth in Article XI of the Zoning Ordinance.~~
 - 3. ~~Projects which qualify under Section 6A.2(A)(3) of this Article.~~
(Ord. 1097, §1, 2012, Ord. 1062, §1, 2010)

<u>Projects which qualify under Section 6A.2 (A) (3) of this Article.</u>	<u>X</u>		

Section 3. Section 17.06.020 of the Hailey Zoning Ordinance Title 17, Chapter 17.06 is hereby amended by the addition of the underlined language and the deletion of the stricken language, as follows:

17.06.020: Authority of the Administrator.

The Administrator has the authority to review and make, or recommend, decisions as follows:

A. ~~The Administrator has the authority to recommend for approval or denial certain applications for Design Review that the Administrator determines to have no substantial impact on~~

~~adjacent properties or on the community at large, subject to final approval or denial by the Commission on its consent agenda. Such recommendation for approval or denial shall specify the standards used in evaluating the application; the reasons for the approval or denial; and conditions of approval, if any. Applications that have no substantial impact may include, but are not limited to: additions under five hundred (500) square feet or which are not prominently visible from a public street, façade changes and alterations to parking or other site elements~~

AB. Emergency Applications: Those applications for projects of an emergency nature, necessary to guard against imminent peril, regardless of zoning district, shall receive administrative review and approval, denial, or conditional approval, subject to criteria set forth in subsection 17.06.060B of this Chapter. The Administrator may, upon the request of the applicant or the direction of any City official, forward the application to the Commission for review

B.C. Exemptions: The Administrator, with concurrence from the Chair or the Chair's Designee, has the authority to ~~recommend~~ exemption of certain projects from the design review requirements, upon finding; the project is minor, will not conflict with the design review standards of this Chapter and will not adversely impact any adjacent properties. ~~Examples include, but are not limited to: applications that have no substantial impact, may include, but are not limited to: minor deck additions, changes to siding materials, changes to an existing window(s) or door(s), an addition of a window or door, and minor landscape changes.~~ Such recommendation for exemptions shall be documented in writing on file with the Community Development Department drafted in the form of Findings of Fact and Conclusions of Law, subject to final decision by the Commission on its consent agenda prior to issuance of a building permit. Should the ~~Commission deny the Administrator's recommendation or Administrator and Chair~~ determine that the proposal does not meet all of the above evaluation criteria, the project shall be subject to the provisions of this chapter prior to issuance of a building permit. Exemptions shall be included in the Commissioners packet at regular meetings for informational purposes.

C.D. Minor Modifications: The Administrator has the authority to approve minor modifications to projects that have received design review approval by the Commission prior to, and for the duration of a valid Building Permit. The Administrator shall make the determination as to what constitutes minor modifications and may include, but are not limited to changes to approved colors and/or siding materials, changes to site plans that do not significantly increase building footprints or significantly change driveway or road alignment, changes to landscape plans that do not decrease the amount of landscaping, changes to dumpster enclosures, changes to exterior lighting fixtures and location, or changes to windows that do not significantly affect project design, appearance or function. All approved modifications must be documented in a memo to the project file and on the approved set of plans on file with the city. For modifications to design review approval that are determined by the Administrator not to be minor, the Administrator has the authority to recommend approval or denial of such modifications, subject to final decision by the Commission on its consent agenda. Such recommendation for approval or denial shall be drafted in the form of Findings of Fact and Conclusions of Law.

Section 4. Severability Clause. Should any section or provision of this Ordinance be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the Ordinance as a whole or any part thereof other than the part so declared to be unconstitutional or invalid.

Section 5. Repealer Clause. All City of Hailey ordinances or parts thereof, which are in conflict herewith, are hereby repealed.

Section 6. Effective Date. This ordinance shall be in full force and effect from and after the required three (3) readings, approval, and publication according to law.

PASSED AND ADOPTED BY THE HAILEY CITY COUNCIL AND APPROVED BY THE MAYOR THIS __ DAY JULY, 2015.

DEPARTMENT: Public Works

DEPT. HEAD SIGNATURE: MP

SUBJECT: Consideration of Amendments to Title 18 Standard Drawings for water and wastewater.

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

The following describes the proposed amendments:

- Amendment to Standard Drawing No. 18.14.010.C.4, to clarify connection standards for new sewers;
- Amendment to Standard Drawing Nos. 18.14.010.B.3 and 18.14.010.B.8, clarifying meter type and connection requirements for residential water service and adding that double check valve devices are appropriate for low hazard protection.
- Creating new Standard Drawing Nos. 18.14.010.B.9, 18.14.010.B.10 and 18.14.010.B.11 specifying the required water service layout, installation standards for reduced-pressure principle backflow assemblies and pressure-vacuum breaker assemblies.

		18.14.010.C.4
		DRAWING NO.

TYPICAL WATER SERVICE AND METER CONNECTION

N.T.S.

NOTES

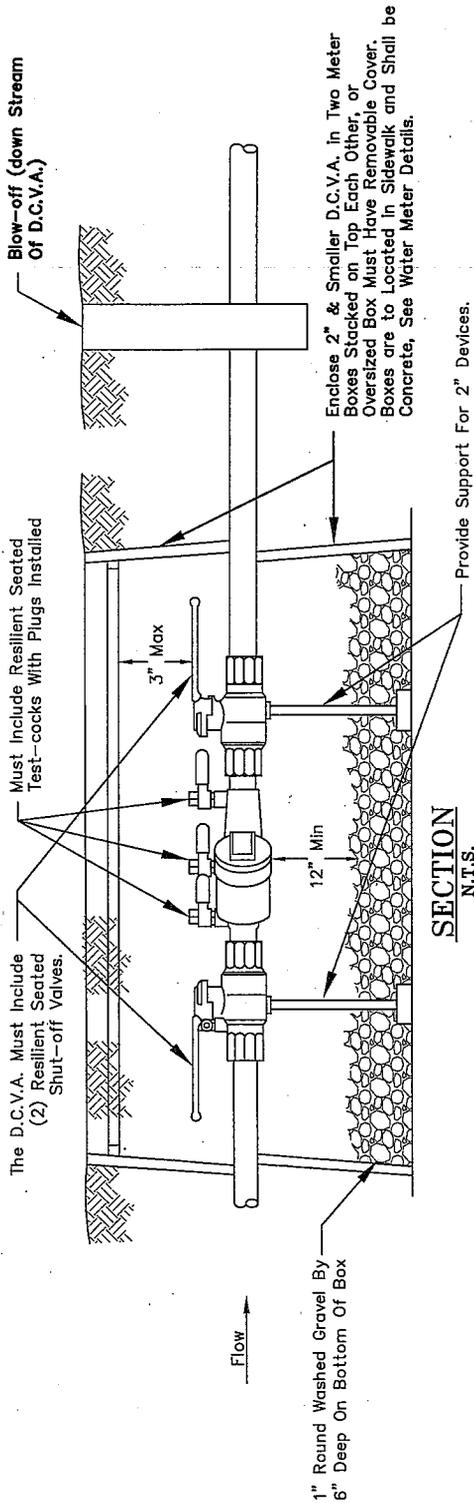

1. Water Services shall be installed in accordance with the current edition of the ISPW-Section 404-Water Service Line and Meters.
2. Water Service Line shall have a 6' min. bury depth.
3. Meter vaults shall be Mueller 250CS217FBBSN or Ford PFCBH-388-18-72-FP-NL.
4. Service Line shall be 3/4" diameter Type K copper unless otherwise specified. Copper service pipe shall be encased with plastic pipe sleeving material from corporation stop to vault with both ends wrapped with PASCO 10ml PVC #9052 pipe tape.
5. CAUTION: OPEN CORPORATION VALVE BEFORE BACKFILL.
6. An owner constructing a new public water system in a subdivision or development shall construct a water tap and service for each potential user and extend it to the property line. Water services shall be marked with a blue painted metal fence post.
7. All copper service shall be wrapped with #6 gauge copper wire thermally insulated wrap every 5'. Run wire to top of vault.
8. Water service lines which cross the street shall be insulated with 2" thick by 2' wide Dow Board. Insulation shall be installed from the water main to the vault.
9. Water service lines shall be bedded with Type I Pipe Bedding per the current edition of ISPW Section 305 - Pipe Bedding.
10. Connection to the meter box or curb stop shall be; Mueller H15451 CTS x F.I.P.; or Ford C14-33-Q-NL.
11. No service or irrigation connections within 6 feet of the meter vault. Stagger multiple connections made on the pipe along the circumference and separate by a minimum of 6 feet.
12. Materials used shall be compliant with ANSI/NSF 60/51.
13. All services shall conform to the vertical and horizontal separation requirements per DEQ.
14. All parts must be brass and compliant with the low lead rule (<math><0.25\% \text{ Pb}</math> by weight).
15. All brands and model numbers specified herein, or an approved equal, shall be required. Approved equals shall be determined by the City.

Return to Agenda

AGENDA ITEM SUMMARY

DATE: 08/17/15

DEPARTMENT: Public Works

DEPT. HEAD SIGNATURE: MP

SUBJECT: Resolution No. 2015-71, adopting a private water and wastewater permit and inspection fee.

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

According to Municipal Code Section 13.04.030, Mandatory Hookup to Municipal Water and Wastewater Systems, private water and wastewater systems are allowed in Hailey city limits only when the property does not abut or have a permanent right of access to any street, alley or right of way where there is a municipal water or wastewater system within 300 feet from the property line of the building being served.

The majority of the properties that this would apply to would be the annexed properties in Little Indio. When this criteria is met a private well or septic system can be constructed, so long as they receive a permit from the City and adhere to the following Code Section 13.04.060:

Where the municipal water and/or wastewater system(s) are not available under the provisions of this chapter, a private water system or a private wastewater system may be installed; provided, that the system(s) comply with all the provisions of this chapter.

- A. *Before the commencement of construction of a private water system or a private wastewater system, the owner shall first obtain a written permit from the city. The application for said permit shall be made on a form furnished by the city, which the applicant shall supplement by plans, specifications and other information as may be deemed necessary by the city. A permit and inspection fee established by resolution shall be paid to the city at the time the application is filed.*
- B. *A permit for a private water system or a private wastewater system shall not permit the use of the system until the installation is completed to the satisfaction of the city. The city shall be allowed to inspect the work at any stage of construction, and the applicant for the permit shall notify the city when the work is ready for various inspections, and before any underground works are covered. The applicant shall request an inspection by the city two (2) business days in advance of the need.*
- C. *The type, capacities, location and layout of a private water system or a private wastewater system shall comply with all of the rules and regulations and recommendations of all applicable federal, state and local authorities.*
- D. *At such times as the municipal water system becomes available to the property served by the private water system, and the owner or tenant avails himself of the municipal service, it is mandatory that the private water supply is not connected or cross connected in any way to the water lines served by the municipal water system and shall properly abandon the well in the private water system. At such times as the municipal wastewater system becomes available to the property served by the private wastewater system, the owner or agent shall connect to the municipal wastewater system and properly abandon the private wastewater system, including the removal of any septic tank and leach field.*
- E. *The owners shall operate and maintain the private water and wastewater system in a sanitary manner at all times, without any contamination to the municipal water and wastewater systems, and at no expense to the city.*
- F. *No statement contained in this section shall be construed to interfere with any additional requirements that may be imposed by applicable federal or state authorities, such as the Idaho department of health and welfare or the Idaho department of water resources. (Ord. 1094, 2011)*

From staff's research, it is believed that the fees associated with this type of permit have never been established and there is no existing Resolution.

This Resolution will adopt fees for the permit and possible inspections associated with the permit. It is recommended that the fees cover the costs to review the permit information and any

necessary inspections for both private water and wastewater systems. It is estimated that the cost would be approximately \$100 for each type of permit – private water and private wastewater systems. This would include an inspection, if it was necessary to do so.

Currently, the Idaho Department of Health and Welfare permits and inspects all private systems. This is most common in the unincorporated County, where municipal water and wastewater systems are not available. The City's approval of a permit would be contingent on the approval of a State permit.

RESOLUTION NO. 2015-71

A RESOLUTION OF THE HAILEY CITY COUNCIL ENACTED PURSUANT TO HAILEY MUNICIPAL CODE SECTION 13.04.060, PROVIDING FOR FEES WHICH SHALL BE ASSESSED FOR A PRIVATE WATER OR WASTEWATER SYSTEM PERMIT.

WHEREAS, the City of Hailey has adopted Section 13.04.060 of the Hailey Municipal Code; which allows the city to assess fees by resolution for the private water and wastewater system permits;

WHEREAS, the city has an established Municipal Water and Wastewater System Permit fee, but does not have an established fee for private systems that are found to be permissible within the City of Hailey pursuant to Section 13.04.030.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Hailey, Idaho that any previous Resolutions establishing private water and wastewater system permit fees are repealed and the following fees for private water system and private wastewater system permits are adopted:

1. Private wastewater system fee is one hundred dollars (\$100.00).
2. Private water system fee is one hundred dollars (\$100.00).

PASSED BY THE CITY COUNCIL AND APPROVED BY THE MAYOR ON AUGUST 17th, 2015.

AGENDA ITEM SUMMARY

DATE: 08/17/15

DEPARTMENT: PW

DEPT. HEAD SIGNATURE: MP

SUBJECT: Discussion on future amendments to Title 13 – water and wastewater.

AUTHORITY: ID Code _____ IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

Over the last few months a number of water and wastewater code updates have been identified. The majority of the proposed updates would provide better clarification on requirements and would be for consistency with State requirements and best practices. The following updates are proposed:

- Specifying that the wastewater service line (maintained by the private property owner) extends not only to the wastewater mainline, but includes the connection to the mainline as well. If the connection was damaged it would be the responsibility of the private property owner to repair.
- Requiring Idaho DEQ to review all water and wastewater mainline construction plans submitted by a private party in association with a development or other work that requires the relocation, reconstruction, or construction of new mainlines, prior to the city's review and approval. The city's engineer would no longer review Idaho DEQ standards, for the State, which shortens the review time for the private party, but opens the city up to liabilities and is not typically considered best practice.
- Specify that water use within the city from a private water right is subject to different rules and regulations.
- Specify that the valve at the main must be turned off on abandoned water services.
- Specify that a permit is required for connection work at the mainline.

DEPT. HEAD SIGNATURE: HD

SUBJECT: Consideration of Ordinance to increase Hailey mayor and city council salaries.

AUTHORITY: ID Code SO-203 IAR _____ City Ordinance/Code _____
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

As part of Hailey's FY 2016 budget, a salary increase is proposed for mayor and council. The mayor's salary is proposed to increase from \$19,080 per year to \$24,000 per year. The council's salary is proposed to increase from \$9600 per year to \$10,000 per year.

FISCAL IMPACT / PROJECT FINANCIAL ANALYSIS:

These salary increases create a net budget increase of \$7,694.

HAILEY ORDINANCE NO. 1181

AN ORDINANCE OF THE CITY OF HAILEY, IDAHO, AMENDING SECTION 2.08 OF THE HAILEY MUNICIPAL CODE, ENTITLED SALARIES; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Idaho Code 50-203 provides for the increase in mayor and council salaries by ordinance during an election year;

NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF HAILEY, IDAHO, AS FOLLOWS:

Section 1: Section 2.08.010 of the Hailey Municipal Code is hereby amended by the addition of the underlined language and by the deletion of the stricken language, as follows:

2.08.010 Mayor's salary. From and after the effective date provided for in the ordinance codified in this chapter, the monthly salary of the mayor of Hailey shall be the exact sum of ~~one thousand five hundred ninety~~ **two-thousand** dollars (~~\$1590~~) (**\$2000**) per month.

Section 2: Section 2.08.020 of the Hailey Municipal Code is hereby amended by the addition of the underlined language and by the deletion of the stricken language, as follows:

2.08.020 Councilmembers' salary. From and after the effective date provided for in the ordinance codified in this chapter, the monthly salary for members of the city council shall be the exact sum of ~~eight hundred~~ **eight-hundred fifty** dollars (~~\$800~~) (**\$850**) per month.

Section 3: Should any section or provision of this Ordinance be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the Ordinance as a whole or any part thereof other than the part so declared to be unconstitutional or invalid.

Section 4: All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Section 5: This Ordinance shall be in full force and effect on January 1, 2016, from and after its passage, approval, and publication according to law.

Subject: Fwd: A few deep questions and requests

NRC Chairman:

In the email of 8/13/2015, Roger Hannah tells me that, *The NRC does not have specific details about the removal procedures, but Dominion or DOE may be able to provide further information, and that, The specific licensing action is a Part 72 ISFSI technical specification change and there are ongoing discussions between the Dominion, DOE and the NRC regarding this action, including an upcoming September meeting.*

Chairman, it is very strange that NRC is unaware of the details of the removal procedures. What are all of those Resident Inspectors doing and how does stuff like this happen without a detailed and advanced review by NRC? Also it is strange that removal operations took place in advance of the Part 72 ISFSI technical specification change (whatever that is) and the ongoing discussions, etc.?

I asked straightforward questions, and received a reply that does not address several of the questions although that reply certainly has pertinent facts.

Chairman, please get answerers to all of my questions and send me a complete report with easily accessible references that tell me what is going on. Apparently rods were removed from several bundles. Apparently the rods will be shipped in a water-filled container which I infer from the statement, *These sister rods will be kept wet at the facility upon arrival.*

It is revealing that, *The rods were placed in a NAC, Inc basket which is in the North Anna spent fuel pool. They will be capped and then placed into a NAC, Inc. transportation cask that is currently scheduled to go to INEL (or Oak Ridge) in January 2016. DOE is planning the route.*

Chairman, get me the answers with accessible references, especially those that have the details of the processes and impact of the pulling of the rods from the fuel assemblies.

Thank you,

Robert H. Leyse

Subj: Re: A few deep questions and requests

Roger:

Thank you for the additional data, however, my questions remain unanswered and I believe that it is the NRC's duty to know the answers and provide them to me.

Robert H. Leyse

In a message dated 8/13/2015 10:51:07 A.M. Mountain Daylight Time, Roger.Hannah@nrc.gov writes:

Mr. Leyse –

The specific licensing action is a Part 72 ISFSI technical specification change and there are ongoing discussions between the Dominion, DOE and the NRC regarding this action, including an upcoming September meeting. Dominion, the company that operates the North Anna plant is aware that the State of Idaho Governor and the public are interested in this project and DOE has been the state's point of contact.

The high burn-up (HBU) spent fuel (referred to as sister rods) is being loaded into a cask and being picked up by DOE and EPRI for delivery to INEL (or Oak Ridge):

- 25 analog rods were pulled from North Anna's spent fuel (some from the actual assemblies that will go into the HBU cask); these rods are considered representative of the HBU cask rods.
- The rods were pulled on schedule in June.
- The rods were placed in a NAC, Inc basket which is in the North Anna spent fuel pool. They will be capped and then placed into a NAC, Inc. transportation cask that is currently scheduled to go to INEL (or Oak Ridge) in January 2016. DOE is planning the route.
- These sister rods will be kept wet at the facility upon arrival. Some will be cut up and all of them will be monitored for any changes that occur.
- After 10 years, the fuel from that cask will be shipped to the DOE facility that has received the sister rods. That facility will then compare the sister rods to the HBU cask rods (i.e., compare wet to dry storage) to identify any concerns. This information will form the basis for storing high burn-up fuel in dry containers in the future.

The NRC does not have specific details about the removal procedures, but Dominion or DOE may be able to provide further information.

Please let us know if you have additional questions.

Cc: rthornberry@postregister.com; gfoley@mtexpress.com; CHAIRMAN Resource <CHAIRMAN.Resource@nrc.gov>

Subject: [External_Sender] Fwd: A few deep questions and requests

Roger:

I have not received any reply to my inquiry. Please reply, these are deep concerns, however, the answers are at the NRC's fingertips.

My last question in the forwarded email is: *Have the fuel rods been removed from the bundle?*

Via GOOGLE, I found out that the fuel rods have been removed.

<http://pbadupws.nrc.gov/docs/ML1508/ML15082A346.pdf>

DOE stated that 25 "sister rods" would be shipped from North Anna to the Idaho National Laboratory (INL) in early 2016. Of the 25 "sister rods," nine with M5 cladding had been chosen and placed into a container in the North Anna spent fuel pool. In addition, approximately 14 fuel rods with Zirlo cladding and a variety of fuel rods with Zircaloy-4 cladding had been chosen as potential "sister rods," but they had not been loaded into the container in the North Anna spent fuel pool.

So, Roger, the fuel rods have been removed. Apparently the fuel rods were removed from more than one bundle since nine have M5 cladding and approximately 14 fuel rods with Zirlo cladding and a variety of fuel rods with Zircaloy-4 cladding had been chosen. Please tell me about the removal procedures. Were the rods scratched or otherwise impacted?

As I mentioned, there is a lot of commotion in Idaho, and it is not going to evaporate. So, please respond promptly to all of our deep concerns.

Robert H. Leyse

Subj: A few deep questions and requests

Roger:

For the distribution of this e-mail, you are:

- Sr. Public Affairs Officer:
Roger Hannah - 404-997-4417

at the North Anna Power Station, Unit 1

I have a few questions. Here is brief background:

There is commotion in Idaho that arises from the plans to ship 25 fuel rods from North Anna to the Idaho National Laboratory. Here are a few quotes from Idaho news media:

The proposal called for two shipments of 25 commercial spent nuclear fuel rods, one in June and one in January 2016. In total, the fuel would weigh roughly 200 pounds.

The second would be obtained from the North Anna Power Station in Virginia.

The second shipment of rods would be used for researching nuclear fuel storage.

Here are some deep questions and requests:

Tell me how to find the documents on the NRC's web site that detail the licensing by the NRC and that describe the removal of 25 fuel rods from a fuel bundle at the North Anna site.

Since the fuel rods are firmly mounted with spring loading at several points, tell me how the rods are removed without producing significant scratching.

Has the fuel bundle ever been chemically or ultrasonically cleaned?

How many months has the fuel been operated at significant power; that is, greater than fifty percent?

Have the fuel rods been removed from the bundle?

Thank you,

Robert Leyse

HAILEY RESOLUTION NO. 2015 - __

A RESOLUTION OF THE CITY OF HAILEY, IDAHO, AUTHORIZING GIVENS PURSLEY TO SIGN AN AGREEMENT FOR ENGINEERING SERVICES WITH BROCKWAY ENGINEERING, PLLC FOR OR ON BEHALF OF THE CITY OF HAILEY IN THE MATTER OF THE DELIVERY CALLS BY THE BIG WOOD AND LITTLE WOOD CANAL COMPANIES

WHEREAS, the Big Wood and Little Wood Water Users Association has submitted a letter dated February 23, 2015 requesting administration of water rights under the prior appropriation doctrine;

WHEREAS, the Director of the Idaho Department of Water Resources ("IDWR") has treated the letter as a delivery call pursuant to the IDWR Conjunctive Management Rules and has initiated a contested case proceeding (Case No. CM-DC-2015-001);

WHEREAS, the City of Hailey has engaged the law firm of Givens Pursley to represent Hailey in Case No. CM-DC-2015-001 and has filed a Notice of Intent to Participate in Case No. CM-DC-2015-001;

WHEREAS, the City of Hailey believes it is in the best interest of the City of Hailey to also engage an expert to assist Hailey in this proceeding and to independently assist Hailey in this proceeding; and

WHEREAS, the City of Hailey wishes to maintain appropriate confidentiality of documents under the attorney-client privilege and as work product.

NOW, THEREFORE, BE IT RESOLVED by the City Council and the Mayor of the City of Hailey that Givens Pursley is authorized to execute an Agreement for Engineering Services with Brockway Engineering, PLLC on behalf of the City of Hailey.

PASSED AND ADOPTED BY THE HAILEY CITY COUNCIL AND APPROVED BY THE MAYOR THIS _____ day of August, 2015.

Fritz X. Haemmerle, Mayor

ATTEST:

Mary Cone, City Clerk
