## **CITY ANNOUNCES “GOOD SAMARITAN” PROGRAM FOR SNOW REMOVAL**

(Hailey, Idaho) – Each year during the snow season the City of Hailey receives numerous requests to remove snow from driveways by citizens who are unable to because they are either elderly or disabled. However, the City of Hailey does not have the manpower and cannot spend public funds to address private property requests such as this.

In an effort to provide snow removal assistance to those in need throughout the winter, the city is requesting that private citizens step forward to help. City staff will maintain a list of both property owners who require assistance along with those people willing to help.

Please call 788-9830 x 22 or x 14 to either request or offer this service. While the city cannot guarantee that everyone who requires the service will receive help, every effort will be made to match up those willing to pitch in with those needing assistance.
