FOR IMMEDIATE RELEASE

Hailey Domino's Pizza Partners with Fire Department to Promote Fire Safety

Hailey residents receive free pizza for properly functioning smoke detectors

Hailey, ID 04/17/09

As a friendly safety reminder, Hailey's Domino's Pizza and the Hailey Fire Department are joining forces to promote fire prevention. On Friday May 8th, from 6 P.M. to 8 P.M., anyone who orders a Domino's pizza may be surprised at the door when their pizza arrives aboard a fire engine. If the customer would like to participate the fire department, will check all the smoke detectors in the home and if they are working, the pizza is **free**. If the smoke detector is not working, the firefighters will replace the batteries or detectors and leave the home with a fully functioning detector.

"Fire safety is vitally important," said Terry Owens owner of Domino's Pizza in Hailey. "We are thrilled to work with the Hailey Fire Department on a program to promote the safety of our friends and neighbors and to reward those who make fire safety a priority."

"This is a great time of year to change the batteries on your smoke detector," said Mike Baledge, Hailey Fire Marshal. "Functioning smoke detectors save lives, but many people forget to maintain the batteries. We are excited to be working with Domino's Pizza to promote good fire safety precautions by rewarding residents who have properly installed and functioning smoke detectors with a free, delicious pizza."

Orders will be randomly selected. Customers can call the Hailey Domino's Pizza store, located at 16 E Bullion St at 208-578-2100 to place their order and be eligible for the fire truck delivery.
