To whom it may concern:

The City of Hailey supports SustainBlaine, Inc’s activities in fostering economic development throughout our County. We participate as ex-officio board members and anticipate continued support of its current vision and mission for the foreseeable future.

Sustain Blaine, Inc. and its funding partners rely heavily upon grants to assist with the direct funding needs of the organization. Hailey considers the funding requests of non-profits such as Sustain Blaine, Inc., during each year's budgeting process.

SUBJECT: Approval of Resolution 2013-34, authorizing contract with Sawtooth Construction Inc DBA Earthworks for the 2012 Safe Routes to School Grant for construction of the sidewalk and pedestrian crossing light on Elm St.

AUTHORITY: □ ID Code ______ □ IAR _______ □ City Ordinance/Code _______  
(IFAPPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

The 2012 SR2S Grant was received for $65,852 for the construction of sidewalk from 1st Ave to the alley between Main St and River St. Bids were opened on April 4 from three contractors. Bids ranged from $99,615.50 to $104,789.01. The low bid was submitted by Sawtooth Construction and was approved by ITD for award.

This project will require a minimum of approximately $34,000 from the capital fund to complete. In addition there are concerns expressed by the neighboring properties between Main St and 1st Ave about the final design. It is anticipated that an additional cost of between $3,500 - 6,500 will be needed for additional asphalt paving to address their concerns.

MEMORANDUM OF AGREEMENT

THIS AGREEMENT between the Idaho State Historic Preservation Office, Idaho State Historical Society, by and through the State Historic Preservation Officer, and the city of Hailey hereinafter called the grantee, relates to a survey and planning project to be undertaken by the grantee, assisted with a matching grant-in-aid to support the National Register of Historic Places program in Idaho. The program was established by the National Historic Preservation Act of 1966, as amended, and is administered by the National Park Service, U.S. Department of the Interior.

The State Historical Society and the grantee agree as follows:

1. Application (Project Description and Budget)

   The grantee shall carry out project work as specified in the Application and other attachments, which are hereby incorporated into and made part of this Memorandum of Agreement as Attachment A. The grantee shall carry out project work in accordance with the project "Budget," which is attached and hereby incorporated into and made part of this Memorandum of Agreement as Attachment B. Both parties agree that all funds used by the Idaho State Historical Society for this project shall be federal funds from the Historic Preservation Fund. No state funds are available to satisfy the terms of this agreement. Any major alteration, increases, or decreases in the Project Description or any changes in the Budget must be submitted in writing for review and approval to the State Historic Preservation Office at least 30 days in advance of the proposed effective date and in accordance with the requirements detailed in the project manual which is attached and hereby incorporated into and made part of this Memorandum of Agreement. The State Historic Preservation Office will respond in writing within 15 days.

   Final products will be reviewed and evaluated in accordance with the Secretary of the Interior's Standards for Archaeology and Historic Preservation and the approved "Application." Products that do not meet these standards will be rejected and obligation for products established in the "Work Program" will be considered unfulfilled.

2. Period of Performance

   All work carried out as part of this grant-assisted project shall be conducted between __October 1, 2012__ and the project completion date of __August 30, 2013__ but not until the grantee has received a signed Memorandum of Agreement. Any changes in the period of performance for this project must be approved in writing by the State Historic Preservation Office at least 30 days
prior to the project completion date.

A draft of any publication prepared as part of this project shall be submitted at least 30 days before the project completion date for review and approval by the State Historic Preservation Office. All publications and public information materials including audio visual and workshop materials, when applicable, must contain acknowledgment of National Park Service support and the nondiscrimination statement as identified in NPS-49 and the "CLG Grants Handbook".

3. **Compensation**

Compensation to the grantee shall be on a matching basis as outlined in the "Budget", subject to receipt of funds from the National Park Service and to successful completion of all project work activities. The State Historic Preservation Office agrees to pay the grantee up to $2,500 federal funds when received by the Society according to the Certified Local Government allocation system as outlined in the Certified Local Government Program. The grantee agrees to contribute donated services for a minimum total of $2,500 or 50% of eligible costs, whichever is less.

Payment will be made on the following schedule: The grantee may bill the State Historic Preservation Office after the completion and acceptance by the Society of each completed activity and federal and non-federal share supporting fiscal documentation. The Idaho State Historical Society will reimburse the federal share to the grantee upon the receipt of three copies of the reimbursement request if all completion materials and auditable records are approved. All reimbursements will be made for cash expenditures only. Reimbursement will be made when Historic Preservation Funds become available to the Idaho State Historical Society.

Final billing must also include a comparison of completed activities and budget to those in the approved application.

The grantee agrees to maintain all financial and administrative documents and records pertaining to the full life-cycle of the grant for a period of not less than three years after completion of the project.

4. **Allowable Costs**

Allowable costs are those costs that are documented to the satisfaction of the State Historic Preservation Office, that conform to the approved budget, and that are determined by the Historic Preservation Office to:
a. meet federal requirements for the program;

b. be necessary and reasonable for the completion of project work;

c. have been incurred for project work during the period of the grant; and

d. meet the obligations outlined in the "Application".

If the application is for acquisition or development of a National Register listed property:

a. a Preservation Agreement or Covenant will be executed prior to our concurrent with disbursement of grant funds. The active period for the agreement is based on the amount of federal funds involved and is defined in Chapter 5, Section B.12 and Chapter 6, Section E.8.f.12 of NPS-49.

b. a project sign acknowledging National Park Service assistance will be erected at the project site during the project's term or a copy of a written National Park Service waiver of this requirement.

c. for a development project, the architectural plans and specifications must be approved by the Society as being in conformance with the "Secretary of the Interior's Standards for the Treatment of Historic Properties".

5. Procurement of Personnel and Services

The grantee agrees to comply with Office of Manaldaho ent and Budget Circular A-102 when soliciting supplies, equipment and other services. At a minimum all procurement transactions, regardless of whether by sealed bids or by negotiation, and without regard to dollar value, shall be consistent with OMB Circular A-102. Procurement procedures shall not restrict or eliminate competition. Written selection procedures shall provide, at a minimum, the following procedural requirements:

a. Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly
restrict competition. The description may include a statement of the qualitative nature of the material, product, or service to be procured, and when necessary shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement. The specific features of the named brand which must be met by offerors shall be clearly stated.

b. Clearly set forth all requirements which offerors must fulfill and all other factors to be used in evaluating bids or proposals, such as a deadline for completion of project work.

c. Contract awards shall be made only to responsible contractors that possess the potential ability to perform successfully under the terms and conditions of the proposed procurement. Consideration shall be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

d. Contract awards shall not normally be made to a contractor or professional who has developed or has drafted bid specifications, requirements, a statement of work, an invitation for bids, and/or a request for proposals for a particular procurement. Only after formal advertising has not resulted in any acceptable bids may the grantee or subgrantee negotiate with any available contractor, including the contractor who produced the bid requirements.

Procurement shall be made by one of the following methods: (1) small purchase procedures; (2) competitive sealed bids (formal advertising); (3) competitive negotiation; (4) noncompetitive negotiation.

Evidence of competitive negotiation for professional services and/or formal advertising must be forwarded to the Historic Preservation Office to evidence compliance with federal procurement requirements prior to disbursement of funds.

6. **Project Supervision**
The grantee agrees to ensure that work performed by any project participant conforms to the Application and project schedule and is executed to the professional and scholarly standards required by the Historic Preservation Office.
7. Interim Reports and Requests for Reimbursement

The grantee will be required to submit interim fiscal and programmatic reports in compliance with those dates set forth in the Application. Fiscal and programmatic reports are also required on September 10, if the grant crosses the federal fiscal year. Reimbursement requests can be made for federal funds at the completion of the project. Fifteen days after the completion of the project, 100% of the federal grant award must be requested. The grantee shall contact the Historic Preservation Office immediately in writing if any situation should arise that will affect the timely or successful completion of this project.

The grantee shall indemnify, defend and save harmless the State of Idaho, and the Department, its officers, agents and employees from and against all liability, claims, damages, losses, expenses, actions and suits whatsoever, including injury or death of others or any employee of the contractor or subcontractor caused by or arising out of performance, act or omission of any term of this contract.

THIS AGREEMENT may be terminated short of conclusion upon 15 days written notice from either the State Historic Preservation Office or the grantee. Should this agreement be terminated by the State Historic Preservation Officer, except for reasons of non-compliance by the grantee, the Historic Preservation Office will reimburse the grantee for up to 100% of the eligible costs incurred up to the termination date. Should this agreement be terminated by the grantee, the State Historic Preservation Office, at the discretion of the State Historic Preservation Officer, may reimburse the grantee for up to 100% of the eligible costs incurred to the termination date or may require the grantee to return any or all federal funds transferred to the grantee by the terminating date, depending upon the circumstances of the termination.

THE PARTIES hereto mutually agree to perform this agreement in accordance with this agreement and its attachments. This agreement becomes effective upon signature by the parties below.

Subject: Conjunctive Administration Strategies for the City of Hailey

Mr. Mayor:

This letter describes a scope of work to assist the City of Hailey in considering possible mitigation options under future conjunctive administration of groundwater and surface water in the Big Wood River Valley.

SCOPE OF WORK

Task 1. Compile and Analyze Water-Use Data

Compile and graph annual water production between 1995 and 2012 (based on City of Hailey data). Compare diversions from Indian Creek Spring with groundwater diversions. Prepare map showing relative diversion volumes from Indian Creek Spring and groundwater.

Task 2. Update and Summarize the Current Water Right Portfolio.

SPF will investigate the status of Hailey’s water rights and prepare an updated summary of the City’s water right portfolio. The update will include details of the City’s water rights, including the water right identification number, source, priority date, authorized diversion rate and purpose of use, and any notes required to understand the nature of the water right. The updated information will be included as a summary table in the memorandum described under Task 3 below.

Task 3. Summary Memorandum

Prepare a draft memorandum providing an overview of conjunctive administration, describing potential curtailment under conjunctive administration, summarizing City of Hailey water use, and listing possible options for mitigating or avoiding curtailment under conjunctive administration. The memorandum will include an updated summary of City of Hailey water rights (Task 2) and a list of potential water conservation measures.

Task 4. City Council Presentation

SPF will present a brief summary of its findings during a regularly-scheduled City Council meeting, and will be prepared to answer questions concerning the City’s water use, its water rights, and possible mitigation strategies in the face of pending conjunctive administration of water rights in the Wood River Valley.
ESTIMATED COSTS

SPF proposes to perform this work on a time and materials basis. A current hourly rate schedule is provided as Table 1. Direct costs (travel, photocopy, postage, etc.) are billed at actual cost plus 15%. Subcontract and laboratory costs can be billed directly where appropriate. Hourly rates are adjusted on an annual basis to reflect salary increases.

Our proposed budget is based on time and materials pricing with a not to exceed maximum of $4,000.

AGREEMENT

If this proposal meets with your approval, it may serve as the basis for agreement, in conjunction with the attached schedule of fees and conditions, by affixing a signature in the space provided below. This signature will be considered as a notice to proceed with a budget upper limit of $4,000. Please return one signed original to my office. We look forward to working with you on this project.

SCHEDULE OF FEES AND CONDITIONS

A. SPF WATER ENGINEERING, LLC (SPF)

FEES AND PAYMENT

1. The fee for services will be based on SPF’s standard hourly rates (including labor cost, overhead, and profit). Non-salary expenses directly attributable to the project, such as: (1) living and traveling expenses of employees when away from the home office on business connected with the project; (2) identifiable reproduction costs applicable to the work; and (3) outside services will be charged at actual cost plus 10% service charge to cover overhead and administration. Hourly rates are adjusted on an annual basis.

2. Payment shall be due within 30 days after date of monthly invoice describing the work performed and expenses incurred during the preceding month.

3. OWNER agrees that timely payment is a material term of this Agreement and that failure to make timely payment as agreed constitutes a breach thereof. In the event payment for services rendered has not been made within 60 days from the date of invoice, SPF may, after giving 7 days written notice to OWNER, and without penalty or liability of any nature, and without waiving any claim against OWNER, suspend all work on all authorized services as set forth herein. Upon receipt of payment in full for services rendered, plus interest charges, SPF will continue with all services not inconsistent with Article C.4 herein. Payment of all compensation due SPF pursuant to this Agreement shall be a condition precedent to OWNER using any of SPF’s professional services work products furnished under this Agreement.

4. In order to defray carrying charges resulting from delayed payments, simple interest at the rate of 18% per annum (but not exceeding the maximum rate allowed by law) will be added to the unpaid balance of each invoice. The interest period shall commence 30 days after date of original invoice, and shall terminate upon date of payment. Payments will be first credited to interest and then to principal. No interest charge will be added during the initial 30-day period following date of invoice.

B. COMMENCEMENT OF WORK. The work will be commenced immediately upon receipt of written notice to proceed. If after commencement of work the project is delayed for any reason beyond the control of SPF for more than 60 days, the price and schedule for services under this Agreement are subject to revision. Subsequent modifications shall be in writing and signed by the parties to this Agreement.

C. MISCELLANEOUS PROVISIONS

1. INSURANCE/INDEMNIFICATION/LIMITATION OF LIABILITY

(a) SPF will maintain statutory limits of insurance coverage for Workers’ Compensation and Employer’s Liability Insurance as well as Professional Liability, General Liability and Automobile Liability Insurance and will name Owner as an additional insured on the Professional Liability, General Liability and Automobile Liability Insurance policies if specifically requested in writing.

(b) SPF asserts that it is skilled in the professional calling necessary to the services and duties proposed to be performed, and that it shall perform such services and duties in conformance to and consistent with the standards generally recognized as being employed by professionals of SPF’s caliber in the same locality, and to that end SPF agrees to indemnify and hold harmless Owner, its officers, and employees from and against claims, suits, loss, damages, costs, and expenses arising out of or resulting from the negligent acts, errors, or omissions of SPF, its officers, employees or agents in the performance of its services and duties hereunder, but not from the negligence or willful misconduct of Owner, its officers, and employees. However in no event shall SPF be liable for any special, indirect, or consequential damages as a result of its activities.
performance of the services hereunder. The total aggregate of SPF’s liability to all parties related to this Agreement shall not exceed $50,000, or the amount of SPF’s fee, whichever is less.

(c) Owner hereby understands and agrees that SPF has not created nor contributed to the creation or existence of any or all types of hazardous or toxic wastes, materials, chemical compounds, or substances, or any other type of environmental hazard or pollution, whether latent or patent, at Owner’s premises, or in connection with or related to this project with respect to which SPF has been retained to provide professional engineering services. The compensation to be paid SPF for said professional engineering services is in no way commensurate with, and has not been calculated with reference to, the potential risk of injury or loss which may be caused by the exposure of persons or property to such substances or conditions. Therefore, to the fullest extent permitted by law, Owner agrees to defend, indemnify, and hold SPF, its officers, directors, employees, and consultants, harmless from and against any and all claims, damages, and expenses, whether direct, indirect, or consequential, including but not limited to, attorney’s fees and court costs, arising out of, or resulting from the discharge, escape, release, or saturation of smoke, vapors, soot, fumes, acid, alkalis, toxic chemicals, liquids, gases, or any other materials, irritants, contaminants, or pollutants in or into the atmosphere, or on, onto, upon, in, or into the surface or subsurface of soil, water, or watercourses, objects, or any tangible or intangible matter, whether sudden or not.

(d) Nothing contained within this Agreement shall be construed or interpreted as requiring SPF to assume the status of a generator, storer, transporter, treater, or disposal facility as those terms appear within the Resource Conservation and Recovery Act, 42 USCA §6901 et seq., as amended, or within any state statute governing the generation, treatment, storage, and disposal of waste. Further, the contents of this Agreement shall not be construed or interpreted as requiring SPF to arrange for the transportation, treatment, or disposal of hazardous substances, as described in the Comprehensive Environmental Response, Compensation, and Liability Act, 42 USCA §9601, et seq., as amended.

(e) Notwithstanding any provisions in this Agreement to the contrary, if this project involves construction, as that term is generally understood, and SPF does not provide engineering services during construction, including but not limited to, on-site monitoring, site visits, shop drawing review, and design clarifications, Owner agrees to defend, indemnify, and hold SPF, its consultants, agents, and employees harmless from any and all liability arising out of the construction.

(f) SPF shall not be liable for damages arising out of or resulting from the actions or inaction of governmental agencies, including but not limited to, permit processing, environmental impact reports, dedications, general plans and amendments thereto, zoning matters, annexations or consolidations, use or conditional use permits, and building permits. Owner agrees to defend, indemnify, and hold SPF, its consultants, agents, and employees harmless from any and all liability, other than that caused by the negligent acts, errors, or omissions of SPF, arising out of or resulting from the same.

(g) Notwithstanding other terms of this Agreement to the contrary, SPF makes no warranty, whether express or implied, as to the actual capacity or drawdown of any proposed water well(s), or the quality or temperature of ground water, if any, which may be produced by any water well(s) to be drilled and developed pursuant to this Agreement. Owner understands and agrees that SPF’s responsibility under this Agreement is to apply its hydrogeology expertise, and to exercise the usual standard of care in the engineering profession to develop what ground water may reasonably exist, and may be economically feasible to use, beneath the proposed site(s).

2. DOCUMENTS
(a) All tracings, survey notes, and other original documents, as instruments of service, are and shall remain the property of SPF, except where by law or precedent these documents become public property. Owner agrees to hold harmless, indemnify, and defend SPF, its consultants, agents, and employees against all damages, claims, expenses, and losses arising out of any reuse of the plans and specifications without the written authorization of SPF.

(b) All computer programs, software, and other like data developed during the course of the project, unless specifically developed for Owner, are and shall remain the sole property of SPF.

(c) SPF’s liability to Owner for any computer programs, software products, or related data furnished hereunder is limited solely to the correction of residual errors, minor maintenance, or update(s) as agreed. SPF makes no warranties of any kind, including any implied warranty of merchantability or of fitness for any particular purpose, or against infringement, with respect to computer programs, software products, related data, technical information, or technical assistance provided by SPF under this Agreement. In no event shall SPF, its officers, agents, or employees be liable under or in connection with this Agreement under any theory of tort, contract, strict liability, negligence, or other legal or equitable theory for incidental or consequential damages relating to any computer programs, software products, or related data furnished hereunder.

(d) Environmental Audit/Site Assessment report(s) are prepared for Owner’s sole use. Owner agrees to defend, indemnify, and hold SPF, its consultants, agents, and employees harmless against all damages, claims, expenses, and losses arising out of or resulting from any reuse of the Environmental Audit/Site Assessment report(s) without the written authorization of SPF.

3. **TERMINATION OR ABANDONMENT.** If any portion of the work is terminated or abandoned by Owner, the provisions of this Schedule of Fees and Conditions in regard to compensation and payment shall apply insofar as possible to that portion of the work not terminated or abandoned. If said termination occurs prior to completion of any phase of the project, the fee for services performed during such phase shall be based on SPF’s reasonable estimate of the portion of such phase completed prior to said termination, plus a reasonable amount to reimburse SPF for termination costs.

4. **WAIVER.** SPF’s waiver of any term, condition, or covenant or breach of any term, condition, or covenant, shall not constitute a waiver of any other term, condition, or covenant, or the breach thereof.

5. **ENTIRE AGREEMENT.** This Agreement, and its attachments, contains the entire understanding between Owner and SPF relating to professional engineering services. Any prior or contemporaneous agreements, promises, negotiations, or representations not expressly set forth herein are of no effect. Subsequent modifications or amendments to this Agreement shall be in writing and signed by the parties to this Agreement.

6. **SUCCESSORS AND ASSIGNS.** All of the terms, conditions, and provisions hereof shall inure to the benefit of and be binding upon the parties hereto, and their respective successors and assigns, provided, however, that no assignment of this Agreement shall be made without written consent of the parties to this Agreement.

7. **CONSTRUCTION ESTIMATES.** Estimates of cost for the facilities considered and designed under this Agreement are prepared by SPF through exercise of its experience and judgement in applying presently available cost data, but it is recognized that SPF has no control over costs of labor and materials, or over the construction contractor’s methods of determining prices, or over competitive bidding procedures, market conditions, and unknown field conditions so that SPF cannot and does not guarantee that proposals, bids, or the project construction costs will not vary from SPF’s cost estimates.

8. **INJURY TO WORKERS.** It is understood and agreed that SPF’s fee is based on SPF being named as an Additional Insured on construction contractor’s insurance policy for Comprehensive General Liability and Builders All Risk Liability, and Owner agrees to insert into all contracts for construction between
Owner and construction contractor(s) arising out of this design a provision requiring the construction
contractor(s) to defend, indemnify, and hold harmless both Owner and SPF from any and all actions
arising out of the construction project, including but not limited to, injury to or death of any worker on the
job site, not caused by the sole negligence of Owner or SPF.

9. **SITE VISITS.** Visits to the construction site and observations made by SPF as part of services during
construction under this Agreement shall not make SPF responsible for, nor relieve the construction
contractor(s) of the obligation to conduct comprehensive monitoring of the work sufficient to ensure
conformance with the intent of the Contract Documents, and shall not make SPF responsible for, nor
relieve the construction contractor(s) of the full responsibility for all construction means, methods,
techniques, sequences, and procedures necessary for coordinating and completing all portions of the
work under the construction contract(s), and for all safety precautions incidental thereto. Such visits by
SPF are not to be construed as part of the monitoring duties of the on-site monitoring personnel defined
below.

10. **ON-SITE MONITORING.** When SPF provides on-site monitoring personnel as part of services during
construction under this Agreement, the on-site monitoring personnel will make reasonable efforts to
guard Owner against defects and deficiencies in the work of the contractor(s), and to help determine if
the provisions of the Contract Documents are being fulfilled. Their day-to-day monitoring will not,
however, cause SPF to be responsible for those duties and responsibilities which belong to the
construction contractor(s), including but not limited to, full responsibility for the means, methods,
techniques, sequences, and progress of construction, and the safety precautions incidental thereto, and
for performing the construction work in accordance with the Contract Documents.

11. **SEVERABILITY.** If any provision of this Agreement is declared invalid, illegal, or incapable of being
enforced by any court of competent jurisdiction, all of the remaining provisions of this Agreement shall
nevertheless continue in full force and effect, and no provision shall be deemed dependent upon any
other provision unless so expressed herein.
