SUBJECT: Ratification of Letter of Interest to US EPA, requesting bikeshare technical assistance for Mountain Rides.

AUTHORITY: □ ID Code  □ IAR  □ City Ordinance/Code

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:
US EPA is offering technical assistance on bikeshare programs/projects. The bikeshare program that is being developed will be owned and operated by Mountain Rides because they are a subawardee of the Hailey Community Climate Challenge. However, this opportunity can only be applied for by local governments, so this LOI is signed and submitted by the City on behalf of Mountain Rides. See attached LOI.

If selected, the technical assistance will help Mountain Rides further develop its bikeshare business plan (i.e. fee structure, sponsorship, etc.), placement of hub locations and outreach and marketing to the Latino community.

There is no financial commitment or in-kind match required by either the City of Mountain Rides.

RE: Building Blocks for Sustainable Communities Letter of Interest – Tool #1: Planning Bikeshare Programs

Dear Ms. Dale:

The challenge of implementing a bikeshare program is that people have become all too accustom to their cars. They use their cars to drive to and from work and run errands. We want the community to opt into the bikeshare program and get out of their cars. We have researched bikeshare programs and vendors, selected a vendor – Social Bicycles – and have purchased them, but we have yet to work out a number of planning, administration, and implementation elements that are critical to a successful program. We live in a small community with a population of about 8,000 people. Hailey is located in a narrow valley, where the distances across town range from about 2 miles (north-south) and 0.25 miles (east-west). It is very feasible to choose to use a bike for all travel within Hailey. However, the key is successful outreach and marketing, to get the community excited and engaged, as well as successful implementation and management. We live in a community that is highly active and motivated by healthy living and lifestyle; however, car travel, even for short distances, is still the norm.

The tool directly applies to the nature of the smart growth element, for which we want to receive technical assistance. We have 16 bikes, but are not ready to launch the program until spring 2013 and we have a ways to go towards ensuring the program is successful. We have field tested some bikes this fall by providing bikes to a number of organizations and businesses and have conducted a focus group, but we are still challenged by: 1) remaining system planning, 2) business plan, system operations, and 3) health, safety, and social equity issues. We request assistance on all or part of the following:

- how best to implement and manage the program before spring and/or possibly during the first part of implementation in the spring/summer of 2013, including the selection and refinement of hub locations.
- how best to structure the membership and/or fee,
- how to create incentives and work with businesses on sponsorship, and
- how to reach underrepresented communities within the City of Hailey, particularly the Latino community, which is 30% of Hailey’s demographic.

Help with any or all of these topics would help better ensure program success and lay the groundwork for neighboring communities to replicate the effort.

We will include traditionally underrepresented communities by having one or possibly more of the bike racks near bus stops and apartment buildings in a section of town called Woodside where there is a large Latino population and low-income population base, who participate in public transportation. We have discussed future phases to include materials and websites in Spanish, but beyond translating materials to Spanish we are unsure what the best strategy is to
engage and promote bikeshare within these communities. Historically, this population has been a challenge for the city to successfully engage.

The City of Hailey was awarded US EPA’s Climate Showcase Communities grant and has partnered with Mountain Rides, the area’s transportation authority, to own and operate the bikeshare program in Hailey. Sixteen (16) bikes have already been purchased through Social Bicycles and the early stages of planning have begun. The capacity for successful implementation exists through organization, political and policy adoption, and recent and planned physical improvements. Mountain Rides is a highly respected and effective organization in the region and has the capacity and transportation expertise to successfully implement this program. The city of Hailey was recently awarded DOT’s Tiger II grant and is nearing completion of a complete street project, which provided pedestrian and bike infrastructure along an entire Boulevard which happens to service primarily low-income and Latino neighborhoods. The city has recently adopted a complete streets ordinance, which will put into practice and implement Hailey’s Transportation Master Plan, to further increase bike infrastructure throughout the city and provide a public process for all infrastructure improvements.

We received federal money from the US EPA through the Hailey Community Climate Challenge to purchase the bikes from Social Bicycles. The proposed work will advance the livability principles by providing more transportation choices, coordinate and leverage federal investments, and enhance the value and voice of existing and overburdened neighborhoods. An integrated planning process is always best and the complete streets ordinance now requires community input on infrastructure projects, so the requested workshop will help the city and Mountain Rides further these goals. The workshop is consistent with objectives of the Hailey Transportation Master Plan. Public workshops and meetings are not uncommon at the city and are required by ordinance in numerous occasions, but have generally not been successful at getting underrepresented populations to attend or participate. Help with this, is key to implementing a bikeshare program that is inclusive and successful.

All elements listed in “What the community Provides” section of the bikeshare tool will be provided. Mountain Rides has two dedicated personnel, the Executive Director and one full time bikeshare coordinator. In addition, the Hailey Community Climate Challenge Project Manager and the Environmental Resource Center are dedicated to the project and will provide marketing and outreach support as well as any other assistance needed to ensure the technical assistance efforts are a success.

SUBJECT: Contract for services with the Hailey Chamber of Commerce in the amount of $61,000.

AUTHORITY: □ ID Code □ IAR □ City Ordinance/Code
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

Contract for Services:
- The final contract (attached) has undergone several reviews from both city staff and the Hailey Chamber of Commerce. The current and final draft of the contract achieves both the goals of the City and the Chamber while setting clear objectives on both sides for deliverables and expectations. At the recent board meeting of the Hailey Chamber of Commerce on October 24, the board approved the contract with some minor revisions which are reflected in this contract. Specifically, the contract addresses the following areas with funding levels:
  - Hailey Business Promotion and Special Events Support and Marketing
    - $35,000 allocated in contract
    - I.e.: Website, marketing, press releases, social media, advertising, special events, events tracking, volunteer tracking, sponsor/supporter tracking, etc.
  - Visitor Services
    - $23,000 allocated in contract
    - I.e.: VC operation, visitor services vis-à-vis business relations, visitor tracking and statistics, etc.
  - Town Improvement
    - $3,000 allocated in contract
    - I.e.: flower basket program

Lease Agreement for Welcome Center:
- The lease agreement between the Chamber of Commerce and the City of Hailey is not ready for approval at this time, however the City and Chamber have met on two occasions to discuss the terms of the lease agreement. These discussions addressed upkeep of the building, payment of utilities, maintenance of restrooms and other public spaces in the building, landscaping and grounds maintenance, and other housekeeping issues. The following is a summary of proposed terms in the lease agreement:
  - No rent will be charged because the City values the visible presence of the Chamber on Main Street and values having a permanent occupant of the Welcome Center.
  - Utilities will be split according to amount of square footage allotted to “chamber” functions as opposed to “city” functions. I.e. the portion of utilities serving the “Interpretive Center” and public restrooms and meeting room portions of the building will be paid for by the city with the Chamber paying for the portion of the building’s utilities tied to their public greeting space and their office space.
  - City will maintain and clean restrooms, public spaces in the building, and public grounds surrounding the building. Chamber will clean their own greeting space and office space.
  - The Chamber is responsible, in part, for maintaining the LEED certification on the building. This includes the following activities:
    - smoking restrictions,
    - use of preferred parking space,
    - office recycling,
    - light bulb replacement,
    - HVAC operation and HVAC controls and
    - use of natural ventilation in the building
FISCAL IMPACT / PROJECT FINANCIAL ANALYSIS:
