Program Narrative

The Hailey Police Department, along with most public safety agencies in the country, is mandated to go to a narrow band frequency by FY2013. Public safety agencies in this rural area are going to switch from a wide band VHF radio system to a 700 Mhz radio system. 700 Mhz will be used throughout the State of Idaho. The Blaine County Sheriff’s Office, where the City of Hailey is located, has already received federal grant monies and has put in place the beginnings of the 700 Mhz repeater system and infrastructure. The Hailey Police Department will have to make this system switch.

The Hailey Police Department, along with other public safety organizations have tested the 700 Mhz radio system and we have been impressed. The quality and efficiency of the system is outstanding. Additionally, as we are a rural area located in a valley surrounded by mountains, this system has the ability to communicate with agencies over the entire State of Idaho, and will have the ability to communicate with neighboring states if necessary.

The problem with switching to this system is cost. Hailey Police administration estimate that to switch over to a new 700 Mhz system will cost approximately $40,000 in new radios, both hand held and base stations for vehicles.

The Hailey Police Department proposes to use the allocated funds to purchase seven (7) 700Mhz handheld radios. The manufacturer of these radios will be Motorola, an international company headquartered in Illinois. The model number of these radios is the XTS2500. It is P25 compatible and under normal use should give us a service life of ten (10) years. The cost of these radios is approximately $2,300 per unit, with accessories such as a microphone and an extra battery. While there are other radio manufacturers making these same types of radios, we choose to go to Motorola as we have a history with their products, and the Hailey Police Department supports a “buy American” philosophy. Also, by purchasing Motorola products, we can use a local dealer, thus supporting a “buy local” philosophy as well.

As soon as the funds are allocated we can purchase radios immediately. One administrator (an Assistant Chief of Police) is responsible for all communication equipment purchases. Purchase orders will be created and will be provided as proof of fund usage.

THIS AGREEMENT entered into this ____ day of ___, 2009, between The City of Hailey, (the CLIENT) and GALENA ENGINEERING, INC., an Idaho Corporation of Ketchum, ID (GALENA).

WHEREAS, the CLIENT intends to realign the waterline at Deerfield and Fox Acres Subdivisions

The CLIENT will furnish to GALENA

SERVICES TO BE PERFORMED BY GALENA
GALENA will Base mapping and topographic survey of proposed alignment; preliminary and final design, delivery of product to client; and construction surveying and asbuilts.
GALENA ENGINEERING, INC.
PROFESSIONAL SERVICES AGREEMENT / WORK ORDER

SCHEDULE OF SERVICES TO BE PERFORMED
GALENA will perform said services as follows: as specified in Attachment A Detailed Scope of Work and Attachment B Man Hour Estimate

Approximate Date of Completion, if applicable: ____________________ , 2009

NOW THEREFORE, the CLIENT and the GALENA in consideration of their mutual covenants herein agree in respect of the performance of professional engineering and land surveying services by the GALENA and the payment for those services by the CLIENT, as set forth as below:

ANY ESTIMATE GIVEN IS TO BE CONSIDERED AN APPROXIMATION OF THE AVERAGE COST OF THIS TYPE OF JOB. It is by no means to be used as a quotation to determine the final billing price of this agreement. Unless specified, all work will be charged on a time and materials basis, plus any expenses directly related to this Agreement. In addition, there will be charges for alterations, or extras deviating from the original instructions.

BASIS OF FEE AND BILLING SCHEDULE

ESTIMATED FEE COST: $ 12,690.00

RETAINER:
Will be required☐ in the Amount of $ __________________ OR Will not be required☒

The CLIENT will pay GALENA for their services and expenses as follows:

TIME OR TIMES OF PAYMENT
GALENA will bill the CLIENT on or about the first of each month. The CLIENT will make payment to GALENA before the end of the month following the receipt of a bill from GALENA on account of their services and expenses. If the CLIENT fails to make any payment due GALENA on account of their services and expenses within 30 days after receipt of GALENA'S bill, the amounts due GALENA shall bear interest at the rate 18% per annum from said 30 days, and in addition, GALENA may suspend services under this Agreement until they have been paid in full all amounts due them on account of their services and expenses.

LIMIT OF LIABILITY
The CLIENT agrees to limit GALENA'S liability to the CLIENT and to all construction contractors and subcontractors on the project arising from GALENA'S negligent acts, errors or omissions such that the total aggregate liability of GALENA to all those named shall not exceed GALENA'S total fee for the services rendered on this project. The CLIENT further agrees to require of the contractor a similar limitation of the liability of GALENA and of the CLIENT; to the contractor and his subcontractors due to GALENA'S negligent acts, errors or omissions.

TERMINATION
This Agreement may be terminated by either party upon seven days' written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party. If either party terminates this Agreement, GALENA will be paid for services rendered to the date of such termination on the basis of time and material costs involved thereto.
ATTORNEY'S FEES
Should either party breach this Agreement, and suit has to be instituted upon it, the prevailing party shall be entitled to an award of reasonable attorney's fees to be set by the Court, in addition to all costs.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the day and year first above written. Fully executed Agreement will be considered as authorization for GALENA to proceed with services.

RE: Proposal for Waterline Survey and Design

Proposal for Services

Galena Engineering Inc. is pleased to offer our land surveying and engineering services for the design and construction surveying of the water main alignment shown in the current SPF Engineering plan set for the Quigley related upgrades. We propose to perform the work as outlined in the following “Attachment A, Detailed Scope of Work”. Our opinion of probable cost for our services is shown on “Attachment B, Man Hour Estimate for Hailey Waterline Survey and Design”. We are available to begin work on this project immediately upon notification to proceed, and we anticipate we will provide final design drawings to the City of Hailey within four weeks of commencement or sooner if requested by the City.

Please feel free to contact me any time at our Galena Engineering Inc. Hailey Office, (208) 788-1705. Thank you, we are grateful for the opportunity to participate with you on this project.

Respectfully submitted,

Brian Yeager, P.E.
Project Manager, Galena Engineering Inc.
Attachment A: Detailed Scope of Work for a
Hailey Waterline Survey and Design

Project Description
This project consists of collecting topographic base mapping information and preparation of design drawings for the Hailey water main alignment shown in the current SPF Engineering report. These design drawings will be submitted to the City of Hailey for review and approval, then transmitted to SPF Engineering for inclusion in an overall bid package containing multiple items. We anticipate no special provisions will be necessary for the bid specifications for our work.

The proposed tasks for this project are discussed below and shown in the following “Attachment B: Man Hour Estimate”, which includes detailed work efforts. The cost provided is an estimate based on our previous experience with this type of work, and the actual cost will vary depending upon time and materials. Additions and/or deletions to this Man Hour Estimate and Scope of Work can be made with both the Client and Galena Engineering, Inc.’s mutual approval. When these additions or deletions are made, the Man Hour Estimate will be adjusted based upon the hourly rate indicated at the top of the Man Hour Estimate for the positions affected.

Task Outline

Base mapping and Topographic Survey of Proposed Alignment
This task consists of surveying the proposed alignment to collect topographic features and existing utilities, and to draft this information onto a series of base map sheets. The survey information will be collected using either GPS or Robotic survey equipment, whichever is most efficient. Occasional property corners will be collected for the overlay of record property lines and right of ways onto the base map. This task will begin immediately after notification to proceed and will be considered complete after preparation of the base map sheets for use in the design tasks below.

Preliminary and Final Design, Delivery of Product to Client
This task consists of developing a preliminary waterline layout and discussion of the concept with the client. After client approval, final design drawings will be developed and submitted to the client for final approval. The approved final drawings will be transmitted to SPF Engineering for inclusion with other drawings and bid specifications prepared by them. There are no special provisions anticipated for our design set. It is assumed the client will not need bidding support. This task concludes with the transmission of final design drawings to SPF Engineering.

Construction Surveying & Asbuilts
This task is the staking of the proposed water main alignment. Construction staking is complete at the conclusion of one set of construction stakes/markings. After construction, we will coordinate with the contractor and/or city to prepare general asbuilt drawings of the water main. Submittal of the asbuilt drawings will conclude this task.

*The work effort below is to provide base mapping, design, and limited construction surveying for the City of Hailey watermain project to improve pressure to the Quigley tank. This estimate is based upon the currently identified alignment by SPF Engineering and will need to be amended if additional alignment is added. Our opinion of probable cost for our services is shown below; this cost is an estimate based upon our experience and our actual cost for the job will be based on time and materials, but will not exceed this amount without prior approval from the client. As always, our services may be expanded at any time should the client desire, and we will revise our opinion of probable cost at that time.*

### 1.00 Survey & Design
- 1.01 Project setup, Prepare survey calc sheet, Coordinate survey crews
- 1.02 Topographic Survey
- 1.03 Draft topographic survey and prepare base sheets
- 1.04 Preliminary layout & coordinate conceptual design w/client
- 1.05 Prepare final design drawings
- 1.06 Coordinate w/client for posting, delivery, etc.
- 1.07 Prepare Bid Specifications (no work anticipated for this line item)
- 1.08 Bidding Support (no work anticipated for this line item)
- 1.09 Construction surveying (rough estimate - scope undefined)
- 1.10 Construction inspection (no work anticipated this line item)
- 1.11 Asbuilt submittals and coordination (no survey work included)

AGENDA ITEM SUMMARY

DATE: 5/11/09  DEPARTMENT: PW - Water  DEPT. HEAD SIGNATURE: 

SUBJECT: Authorize the Mayor to sign an agreement with SPF Water Engineering for continued engineering on the Water System operations

AUTHORITY: ☐ ID Code __________  ☐ IAR ___________  ☐ City Ordinance/Code ________
(IF APPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

SPF Water Engineering has provided several preliminary studies on the water system including supply and operations. This work will continue their work on the system's operations and look to improve both pressure control and use of the Quigley tank.

Mr. Tom Hellen
City Engineer
City of Hailey
115 Main Street South, Suite H
Hailey, ID 83333

Subject: Engineering Services for 1) recommendations for water system summer operations to minimize Turbine Tank overflows, and 2) develop the conceptual “Alternative 2” as presented in the “Quigley Tank Fill Analysis” report

Dear Tom,

SPF Water Engineering, LLC would be pleased to provide engineering services related to 1) recommendations for water system summer operations to minimize Turbine Tank overflows, and 2) develop the conceptual “Alternative 2” as presented in the “Quigley Tank Fill Analysis” report.

SPF has been working with the City since 2008 to address Quigley Tank fill issues. Two reports were prepared — “City of Hailey Water System Source of Supply Investigation”, and “City of Hailey Water System Quigley Tank Fill Analysis”. The work proposed in this scope will build off of the analyses presented in these reports. The analysis will be carried further and a detailed plan for implementing Alternative 2 or a modified version of Alternative 2, developed.

Similar to the recommendations that SPF made for winter-time water system operations to stop Turbine Tank overflows, we will think through options for changes in summer-time system operations that could minimize Turbine Tank overflows. It is unlikely that overflows could be completely avoided in the summer because the tanks will need to run near their overflow levels in order to provide enough summer peaking volume. However, with the right operations plan in place, we can likely minimize the amount of overflow water.

SCOPE OF WORK

The following tasks are included in the proposed scope of work.

Task 1 – Recommendations for Water System Summer Operations to Minimize Turbine Tank Overflows

SPF will work through summer operational scenarios and the amount of storage required to meet summer peaking demands, and make recommendations for any operational changes that could minimize Turbine Tank overflows. SPF will assist Hailey’s operators as
necessary with how to make any recommended operational changes. SPF will also monitor the effects of the changes on the system through remote access to Hailey’s SCADA system.

**Deliverable:** Technical memorandum summarizing recommendations for summer time operational changes

**Task 2a – Update Existing Hydraulic Model**

SPF will use the existing hydraulic model prepared by Akel Engineering and implement the following updates.

1. Change facility elevations in the model to match the October 2008 survey elevations.
2. Change the demand data in the model to reflect the current 3,180 water system connections. It appears that the current model includes 4,500 connections.
3. Replace the pump curve information in the model with the actual pump curves and demand patterns.
4. Calibrate the model with several fire flow runs. If the City has installed remote pressure sensors in the distribution system in the Northridge and Woodside areas by the time the model is ready, this remote pressure information will be used to calibrate the model also.

**Deliverable:** The model will be delivered electronically to the City in WaterCAD format. A brief write-up describing the basics of the model and changes made to the model will be provided.

**Task 2b – Explore a “Simple” version of Alternative 2**

Since the December 2008 analysis was done, we’ve been thinking that there might be a “simple” version of Alternative 2 that merits further examination. This would include pump changes at the existing wells, with the key being that transmission capacity between the wells and Quigley Tank would need to be upgraded. The piping from the Turbine Tank would require a check valve or automated valve such that the wells filled Quigley Tank instead of the Turbine Tank, and there would be specific required operations to make this option work. The lower pressure zone would likely still require alteration/expansion. The analysis and results will be documented in a Technical memorandum. The “simple” version of Alternative 2 will be completely explored, and no work done on Task 2c if it appears that this option can be successfully implemented.

**Deliverable:** A Technical Memorandum will be prepared describing the analysis and recommendations. If the simplified version of Alternative 2 is determined to be “not feasible”, the write-up discussing it will be included as an Appendix in the Task 2c Technical Memorandum.
Task 2c – Develop details for the “Original” Alternative 2

If it appears that a simplified version of Alternative 2 (Task 2b) isn’t feasible, the full scale Alternative 2 (as described in the “Quigley Tank Fill Analysis” report) will be developed and refined further. Task 2c work will only be started if work on Task 2b indicates that the “simple” version of Alternative 2 is not feasible. A Technical Memorandum will be prepared that describes the analysis and the specific recommendations to be implemented. We expect that this Memorandum can be used as the basis for Hailey’s Master Plan Update and the Preliminary Engineering Report that will be required by IDEQ prior to the start of any construction work.

**Deliverable:** A Technical Memorandum will be prepared describing the analysis and recommendations.

**TASKS SPECIFICALLY NOT INCLUDED IN THE SCOPE OF WORK**

The following tasks are specifically not included in this scope of work.

1. Detailed design of water system facilities.
2. Preparation of an updated Master Plan.
3. Obtaining Idaho Department of Environmental Quality approvals.

**SCHEDULE**

We expect that Task 1 can be completed within 2 to 3 weeks of notice to proceed. Task 2 will take 8 to 12 weeks to complete.

**ESTIMATED COSTS**

SPF proposes to perform this work on a time and materials basis, as detailed on the attached schedule of fees and conditions. A current hourly rate schedule is provided as Table 1. Direct costs (travel, photocopy, postage, etc.) are billed at actual cost plus 15%. Subcontract and laboratory costs can be billed directly where appropriate.

A breakdown of the tasks with estimated costs is provided in Table 2.

AGREEMENT

If this proposal meets with your approval, it may serve as the basis for agreement, in accordance with the attached schedule of fees and conditions, by affixing a signature in the space provided below. This signature will be considered as a notice to proceed with a budget upper limit of $63,000. **We will not do any work on Task 2c unless the investigation completed in Task 2b shows that the "simple" version of Alternative 2 is not feasible.**

Please return one signed original to my office. We look forward to working with you on this project.

Respectfully submitted,

**SPF WATER ENGINEERING, LLC**

Title __________________________
Date __________________________
SCHEDULE OF FEES AND CONDITIONS
SPF WATER ENGINEERING, LLC (SPF)

A. FEES AND PAYMENT
1. The fee for services will be based on SPF’s standard hourly rates (including labor cost, overhead, and profit). Non-salary expenses directly attributable to the project, such as: (1) living and travelling expenses of employees when away from the home office on business connected with the project; (2) identifiable reproduction costs applicable to the work; and (3) outside services will be charged at actual cost plus 15% service charge to cover overhead and administration. Hourly rates are adjusted on an annual basis.
2. Payment shall be due within 30 days after date of monthly invoice describing the work performed and expenses incurred during the preceding month.
3. OWNER agrees that timely payment is a material term of this Agreement and that failure to make timely payment as agreed constitutes a breach hereof. In the event payment for services rendered has not been made within 60 days from the date of invoice, SPF may, after giving 7 days written notice to OWNER, and without penalty or liability of any nature, and without waiving any claim against OWNER, suspend all work on all authorized services as set forth herein. Upon receipt of payment in full for services rendered, plus interest charges, SPF will continue with all services not inconsistent with Article C.4 herein. Payment of all compensation due SPF pursuant to this Agreement shall be a condition precedent to OWNER using any of SPF’s professional services work products furnished under this Agreement.
4. In order to defray carrying charges resulting from delayed payments, simple interest at the rate of 18% per annum (but not exceeding the maximum rate allowed by law) will be added to the unpaid balance of each invoice. The interest period shall commence 30 days after date of original invoice, and shall terminate upon date of payment. Payments will be first credited to interest and then to principal. No interest charge will be added during the initial 30-day period following date of invoice.

B. COMMENCEMENT OF WORK. The work will be commenced immediately upon receipt of written notice to proceed. If after commencement of work the project is delayed for any reason beyond the control of SPF for more than 60 days, the price and schedule for services under this Agreement are subject to revision. Subsequent modifications shall be in writing and signed by the parties to this Agreement.

C. MISCELLANEOUS PROVISIONS
1. INSURANCE/INDEMNIFICATION/LIMITATION OF LIABILITY
(a) SPF will maintain statutory limits of insurance coverage for Workers’ Compensation and Employer’s Liability Insurance as well as Professional Liability, General Liability and Automobile Liability Insurance and will name Owner as an additional insured on the Professional Liability, General Liability and Automobile Liability Insurance policies if specifically requested in writing.
(b) SPF asserts that it is skilled in the professional calling necessary to the services and duties proposed to be performed, and that it shall perform such services and duties in conformance to and consistent with the standards generally recognized as being employed by professionals of SPF’s caliber in the same locality, and to that end SPF agrees to indemnify and hold harmless Owner, its officers, and employees from and against claims, suits, loss, damages, costs, and expenses arising out of or resulting from the negligent acts, errors, or omissions of SPF, its officers, employees, or agents in the performance of its services and duties hereunder, but not from the negligence or willful misconduct of Owner, its officers, and employees. However in no event shall SPF be liable for any special, indirect, or consequential damages as a result of its performance of the services hereunder. The total aggregate of SPF’s liability to all parties related to this Agreement shall not exceed $50,000, or the amount of SPF’s fee, whichever is less.
(c) Owner hereby understands and agrees that SPF has not created nor contributed to the creation or existence of any or all types of hazardous or toxic wastes, materials, chemical compounds, or substances, or any other type of environmental hazard or pollution, whether latent or patent, at Owner’s premises, or in connection with or related to this project with respect to which SPF has been retained to provide professional engineering services. The compensation to be paid SPF for said professional engineering services is in no way commensurate with, and has not been calculated with reference to, the potential risk of injury or loss which may be caused by the exposure of persons or property to such substances or conditions. Therefore, to the fullest extent permitted by law, Owner agrees to defend, indemnify, and hold SPF, its officers, directors, employees, and consultants, harmless from and against any and all claims, damages, and expenses, whether direct, indirect, or consequential, including but not limited to, attorney’s fees and court costs, arising out of, or resulting from the discharge, escape, release, or saturation of smoke, vapors, soot, fumes, acid, alkalies, toxic chemicals, liquids, gases, or any other materials, irritants, contaminants, or pollutants in or into the atmosphere, or on, onto, upon, in, or into the surface or subsurface of soil, water, or watercourses, objects, or any tangible or intangible matter, whether sudden or not.
(d) Nothing contained within this Agreement shall be construed or interpreted as requiring SPF to assume the status of a generator, storer, transporter, treater, or disposal facility as those terms appear within the Resource Conservation and Recovery Act, 42 USCA §6901 et seq., as amended, or within any state statute governing the generation, treatment, storage, and disposal of waste. Further, the contents of this Agreement shall not be construed or interpreted as requiring SPF to arrange for the transportation, treatment, or disposal of hazardous substances, as described in the Comprehensive Environmental Response, Compensation, and Liability Act, 42 USCA §9601 et seq., as amended.

(e) Notwithstanding any provisions in this Agreement to the contrary, if this project involves construction, as that term is generally understood, and SPF does not provide engineering services during construction, including but not limited to, on-site monitoring, site visits, shop drawing review, and design clarifications, Owner agrees to defend, indemnify, and hold SPF, its consultants, agents, and employees harmless from any and all liability arising out of the construction.

(f) SPF shall not be liable for damages arising out of or resulting from the actions or inaction of governmental agencies, including but not limited to, permit processing, environmental impact reports, dedications, general plans and amendments thereto, zoning matters, annexations or consolidations, use or conditional use permits, and building permits. Owner agrees to defend, indemnify, and hold SPF, its consultants, agents, and employees harmless from any and all liability, other than that caused by the negligent acts, errors, or omissions of SPF, arising out of or resulting from the same.

(g) Notwithstanding other terms of this Agreement to the contrary, SPF makes no warranty, whether express or implied, as to the actual capacity or drawdown of any proposed water well(s), or the quality or temperature of ground water, if any, which may be produced by any water well(s) to be drilled and developed pursuant to this Agreement. Owner understands and agrees that SPF's responsibility under this Agreement is to apply its hydrogeology expertise, and to exercise the usual standard of care in the engineering profession to develop what ground water may reasonably exist, and may be economically feasible to use, beneath the proposed site(s).

2. DOCUMENTS

(a) All tracings, survey notes, and other original documents, as instruments of service, are and shall remain the property of SPF, except where by law or precedent these documents become public property. Owner agrees to hold harmless, indemnify, and defend SPF, its consultants, agents, and employees against all damages, claims, expenses, and losses arising out of any reuse of the plans and specifications without the written authorization of SPF.

(b) All computer programs, software, and other like data developed during the course of the project, unless specifically developed for Owner, are and shall remain the sole property of SPF.

(c) SPF's liability to Owner for any computer programs, software products, or related data furnished hereunder is limited solely to the correction of residual errors, minor maintenance, or update(s) as agreed. SPF makes no warranties of any kind, including any implied warranty of merchantability or of fitness for any particular purpose, or against infringement, with respect to computer programs, software products, related data, technical information, or technical assistance provided by SPF under this Agreement. In no event shall SPF, its officers, agents, or employees be liable under or in connection with this Agreement under any theory of tort, contract, strict liability, negligence, or other legal or equitable theory for incidental or consequential damages relating to any computer programs, software products, or related data furnished hereunder.

(d) Environmental Audit/Site Assessment report(s) are prepared for Owner's sole use. Owner agrees to defend, indemnify, and hold SPF, its consultants, agents, and employees harmless against all damages, claims, expenses, and losses arising out of or resulting from any reuse of the Environmental Audit/Site Assessment report(s) without the written authorization of SPF.

3. TERMINATION OR ABANDONMENT. If any portion of the work is terminated or abandoned by Owner, the provisions of this Schedule of Fees and Conditions in regard to compensation and payment shall apply insofar as possible to that portion of the work not terminated or abandoned. If said termination occurs prior to completion of any phase of the project, the fee for services performed during such phase shall be based on SPF's reasonable estimate of the portion of such phase completed prior to said termination, plus a reasonable amount to reimburse SPF for termination costs.

4. WAIVER. SPF's waiver of any term, condition, or covenant or breach of any term, condition, or covenant, shall not constitute a waiver of any other term, condition, or covenant, or the breach thereof.

5. ENTIRE AGREEMENT. This Agreement, and its attachments, contains the entire understanding between Owner and SPF relating to professional engineering services. Any prior or contemporaneous agreements, promises, negotiations, or representations not expressly set forth herein are of no effect. Subsequent modifications or amendments to this Agreement shall be in writing and signed by the parties to this Agreement.

6. SUCCESSORS AND ASSIGNS. All of the terms, conditions, and provisions hereof shall inure to the benefit of and be binding upon the parties hereto, and their respective successors and assigns, provided, however, that no assignment of this Agreement shall be made without written consent of the parties to this Agreement.
7. **CONSTRUCTION ESTIMATES.** Estimates of cost for the facilities considered and designed under this Agreement are prepared by SPF through exercise of its experience and judgement in applying presently available cost data, but it is recognized that SPF has no control over costs of labor and materials, or over the construction contractor's methods of determining prices, or over competitive bidding procedures, market conditions, and unknown field conditions so that SPF cannot and does not guarantee that proposals, bids, or the project construction costs will not vary from SPF's cost estimates.

8. **INJURY TO WORKERS.** It is understood and agreed that SPF's fee is based on SPF being named as an Additional Insured on construction contractor's insurance policy for Comprehensive General Liability and Builders All Risk Liability, and Owner agrees to insert into all contracts for construction between Owner and construction contractor(s) arising out of this design a provision requiring the construction contractor(s) to defend, indemnify, and hold harmless both Owner and SPF from any and all actions arising out of the construction project, including but not limited to, injury to or death of any worker on the job site, not caused by the sole negligence of Owner or SPF.

9. **SITE VISITS.** Visits to the construction site and observations made by SPF as part of services during construction under this Agreement shall not make SPF responsible for, nor relieve the construction contractor(s) of the obligation to conduct comprehensive monitoring of the work sufficient to ensure conformance with the intent of the Contract Documents, and shall not make SPF responsible for, nor relieve the construction contractor(s) of the full responsibility for all construction means, methods, techniques, sequences, and procedures necessary for coordinating and completing all portions of the work under the construction contract(s), and for all safety precautions incidental thereto. Such visits by SPF are not to be construed as part of the monitoring duties of the on-site monitoring personnel defined below.

10. **ON-SITE MONITORING.** When SPF provides on-site monitoring personnel as part of services during construction under this Agreement, the on-site monitoring personnel will make reasonable efforts to guard Owner against defects and deficiencies in the work of the contractor(s), and to help determine if the provisions of the Contract Documents are being fulfilled. Their day-to-day monitoring will not, however, cause SPF to be responsible for those duties and responsibilities which belong to the construction contractor(s), including but not limited to, full responsibility for the means, methods, techniques, sequences, and progress of construction, and the safety precautions incidental thereto, and for performing the construction work in accordance with the Contract Documents.

11. **SEVERABILITY.** If any provision of this Agreement is declared invalid, illegal, or incapable of being enforced by any court of competent jurisdiction, all of the remaining provisions of this Agreement shall nevertheless continue in full force and effect, and no provision shall be deemed dependent upon any other provision unless so expressed herein.
SEWER LINE EASEMENT AGREEMENT

This Sewer Line Easement Agreement ("Easement Agreement") is made this ___ day of February, 2009, by and between the State of Idaho, and the City of Hailey ("Grantors") and City of Hailey, Idaho ("Grantee") (Grantors and Grantees are collectively referred to as "Parties").

RECITALS

A. The City of Hailey, as to an undivided ½ interest, and the State of Idaho, as to an undivided ½ interest, are the owners in fee simple of a parcel of property located in the City of Hailey, Idaho, more particularly described as Lots 8 through 12, inclusive, and Lots 20 through 24, inclusive, Block 125 Original Hailey Townsite, the vacated alley between Lots 8 through 12, inclusive, and Lots 20 through 24, inclusive, Block 125 Original Hailey Townsite, and the fifty foot (50') portion north of the centerline of the right-of-way known as Cedar Street, directly between Blocks 125 and 136, of the Original Hailey Townsite, as shown on the official Plat of the City of Hailey on file in the office of the Blaine County Recorder, Idaho ("Servient Estate").

B. Grantee is a body politic and corporate and has the power and authority to own and hold interests in real property.

C. Grantors and Grantee desire to establish a sewer line easement across, over and under the Servient Estate to enable the grantee to use the easement for sewer line purposes.

AGREEMENT

NOW, THEREFORE, IN CONSIDERATION of the above recitals which are incorporated below, and of the mutual covenants and agreements herein contained and other good and valuable consideration, the sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Grant of Easement. Grantors hereby grant and convey to Grantee, and its successors and assigns, a non-exclusive 16.8' wide public sewer line easement over, across and under the Servient Estate, more particularly described on attached Exhibit "A" and depicted on attached Exhibit "B" ("Sewer Line Easement"). The legal description of the existing location of a sewer mainline on the Servient Estate is described in attached Exhibit "A." The width of the Sewer Line Easement is 6.8' east and 10.0' west of the existing sewer mainline, as depicted on attached Exhibit "B."

2. Purposes/Restrictions. The Sewer Line Easement may be used for the operation, improvement, reconstruction, repair and maintenance of the sewer line within the Sewer Line Easement by Grantee and shall be used solely for the benefit of Grantee and the general public.

3. Successors and Assigns. All provisions of this Easement Agreement, including the benefits and burdens, run with the land covered hereby and are binding on and inure to the benefit of the heirs, permitted assigns, permitted successors, tenants and personal representatives of the Parties hereto.
4. **Recordation of Instrument.** The Parties agree that this Easement Agreement may be duly recorded by Grantors.

5. **Miscellaneous Provisions.**

   a. **Headings.** The headings in this Easement Agreement are inserted for convenience and identification only and are in no way intended to describe, interpret, define or limit the scope, extent or intent of this Easement Agreement or any provision hereof.

   b. **Severability.** Every provision of this Easement Agreement is intended to be severable. If any term or provision hereof is illegal or invalid for any reason whatsoever, such illegality or invalidity shall not affect the validity of the remainder of the Easement Agreement.

   c. **Remedies.** The rights and remedies provided by this Easement Agreement are cumulative and the use of any one right or remedy by any party shall not preclude or waive its rights to use any or all other remedies. Said rights and remedies are given in addition to any other rights the Parties may have by law, statute, ordinance or otherwise.

   d. **Amendment.** This Easement Agreement may be amended only in writing signed by the all of the Parties.

   e. **Attorneys Fees.** Should any action be brought to interpret or enforce any provision hereof, or for damages for breach hereof, the prevailing party shall be entitled to such reasonable attorney's fees and costs as may be determined by any court of competent jurisdiction wherein such action is brought, and on appeals and in bankruptcy proceedings.

   f. **Entire Agreement.** This Easement Agreement contains the entire agreement between the Parties respecting the matters herein set forth and supersedes all prior agreements between the Parties hereto respecting such matter.

   g. **Governing Law.** This Easement Agreement shall be construed in accordance with the laws of the State of Idaho.

   h. **Counterparts.** This Easement Agreement may be executed simultaneously in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

   i. **Presumption.** No presumption shall exist in favor of or against any party to this Easement Agreement as the result of the drafting and preparation of the document.
IN WITNESS WHEREOF, the Parties have executed this Sewer Line Easement Agreement the day and year written herein.

SEWER LINE EASEMENT AGREEMENT - 4  

36
EXHIBIT "A"

SEWER LINE
LEGAL DESCRIPTION
City of Hailey
Legal Description for
Sewer Line Easement Across
Hailey Armory Property

Job Name: City of Hailey Sewer Line Easement
Job Number: 3830.13

A strip of land in the southwest one-quarter (SW1/4) of Section 10, Township 2 North, Range 18 East, B.M., City of Hailey, Blaine County, Idaho, lying 10' southerly and 6.8' northerly and parallel to the following described centerline:

Commencing at an aluminum cap marking the intersection of 3rd Avenue and Cedar Street and proceeding North 61°10'43" East, 177.54 feet along the centerline of Cedar Street to the Point of Beginning;
Thence North 28°46'01" West, 174.97 feet to a point on the northerly line common to Lots 8 & 20, Block 125 of the Hailey Townsite and the Point of Ending as shown on the attached "Exhibit Map to Accompany Legal Description" which is a part hereof.

The sidelines of said easement are to be lengthened or shortened so as to terminate on the centerline of Cedar Street and the northerly line common to Lots 8 & 20, Block 125 of the Hailey Townsite.

Basis of Bearings: The centerline of 3rd Avenue between Cedar Street and Maple Street bears North 28°45'35" West.

EXHIBIT “B”

DEPICTION OF
SEWER LINE EASEMENT
AGENDA ITEM SUMMARY

DATE: 04/13/2009 DEPARTMENT: Parks DEPT. HEAD SIGNATURE: ___MC___

SUBJECT:
Motion to approve new Banner Resolution 2009-04

AUTHORITY: □ ID Code 63-1311-A □ IAR □ City Ordinance/Code

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:
Over the past few years reserving banner space for events have become increasingly more time consuming. Upon further tracking of this process, it was found that most of the 2 week banner reservations were reduced to one week because of individuals/organizations asking for an already reserved space. Resolution 2003-09 stated that between Memorial Day and Labor Day a two week reservation could be limited to one week if there was another request for banner space in that time. These changes would allow for a maximum of 1 week anytime of the year with the understanding that this will eliminate the amount of time spent rescheduling 2 week reservations.

This amendment will also add language adopting a formal policy on reserving light pole banner space and the fees associated with this policy.

RESOLUTION NO. 2009 – 05

A RESOLUTION OF THE HAILEY CITY COUNCIL RESCINDING RESOLUTION NO. 2003-09 AND ADOPTING A POLICY FOR PLACING STREET AND POLE BANNERS IN PUBLIC RIGHTS OF WAY WITHIN THE CITY OF HAILEY, IDAHO, AND ESTABLISHING FEES.

WHEREAS, the City of Hailey, Idaho, will allow appropriate banners to be displayed across the public right-of-way of Main Street, and the Mayor and City Council have determined that a policy governing the display of said banners and adoption of fees is necessary; and

WHEREAS, the Hailey City Council will allow appropriate pole banners to be displayed upon the city’s bracketed light poles of Hailey, and have determined that a policy governing the display of said banners and adoption of fees is necessary.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Hailey, Idaho, that the Resolution number 2003-09 is rescinded in its entirety and the following policy be made effective upon adoption of this Resolution:

CITY OF HAILEY BANNER PLACEMENT POLICY

The City of Hailey will allow appropriate banners to be displayed across the public right-of-way of Main Street under the following conditions:

1. A written request must be made to Hailey City Clerk at least two (2) weeks prior to the date first requested for display of banner. The request shall state the event for which the banner is requested, the entity requesting same, the dates requested for display, the dimensions, construction and wording of the banner.

2. Except as otherwise provided herein, the banner must: a) advertise a special, date-specific event which is of general interest and benefit to the community, or b) be associated with a special event permit issued under Chapter 12.14 of the Hailey Municipal Code. The banner shall advertise only the event name, date(s), and/or name(s) of the sponsor(s) and/or organizer(s). The name(s) of the sponsor(s) and/or organizer(s) shall be limited to a maximum of 25% of the space on each side of a banner.

3. The banner must be constructed in accordance with the specifications set forth in attached Exhibit “A.”

4. Except as otherwise provided herein, a fee of $100.00 per installation shall be prepaid by the applicant to cover the costs of installation and removal by City personnel and equipment. The banner will be installed and removed by the Hailey Public Works Department.

5. Except as otherwise provided herein, the banner shall be installed no earlier than thirty days prior to the event and shall be removed one week after it is hung. Banners shall not be installed after the event has concluded.

6. In the case of more than one application for the same period of time, the City Clerk may give preference to Hailey-area events. In the case of
more than one application for Hailey-area events, the City Clerk will permit the first application filed to display for this period.

7. The City of Hailey is exempt from the payment of fees and may hang a banner for general public purposes (e.g., promoting the economic vitality of the Hailey business community at large).

8. No more than one banner for each event will be displayed at any one time.

9. The City Council of Hailey reserves the right to amend this policy or terminate use of public ways for banners at any time and without prior notice.

CITY OF HAILEY STREET POLE BANNER POLICY

The City of Hailey will allow appropriate banners to be displayed from public light poles in the public right-of-way within or adjacent to the Business (B) Zoning District under the following conditions:

1. A written request must be made to Hailey City Clerk at least four (4) weeks prior to the date first requested for display of banners. The request shall state the event for which the banner is requested, the entity requesting the same, the dates requested for display, the dimensions, construction and wording of the banners.

2. Except as otherwise provided herein, the banners must: a) advertise a special, date-specific event which is of general interest and benefit to the community, or b) be associated with a special event permit issued under Chapter 12.14 of the Hailey Municipal Code. The banners shall advertise only the event name, date(s), and/or name(s) of the sponsor(s) and/or organizer(s). The name(s) of the sponsor(s) and/or organizer(s) shall be limited to a maximum of 25% of the space on each side of a banner.

3. The banners must be constructed in accordance with the specifications set forth in attached Exhibit “A.”

4. Except as otherwise provided herein, a fee of $25.00 per light pole installation shall be prepaid by the applicant to cover the costs of installation and removal by City personnel and equipment. The banners will be installed and removed by the Hailey Public Works Department.

5. The banners shall be installed no earlier than thirty (30) days prior to the event and shall be removed immediately thereafter. The banners shall be displayed for a maximum period of thirty (30) days per event, per year, unless approved by the City Clerk for an additional fourteen (14) days.

6. In the case of more than one application for the same period of time, the City Clerk shall give preference to Hailey-area events. In the case of more than one application for Hailey-area events, the City Clerk will permit the first application filed to display for this period.

7. The City of Hailey is exempt from the payment of fees and may hang banners for general public purposes (e.g., promoting the economic vitality of the Hailey business community at large).
8. The applicant must provide a minimum of six (6) banners to participate in the street pole banner program.

9. The City Council of Hailey reserves the right to amend this policy or terminate use of public ways for banners at any time and without prior notice.

PASSED BY THE CITY COUNCIL AND APPROVED BY THE MAYOR THIS 11th DAY OF MAY, 2009.
