RE: Nuisance Ordinance

I have been asked to review our Nuisance Ordinance. Sometime ago, Hailey pursued a criminal action against a property owner under our present Nuisance Ordinance. The magistrate orally opined that the language in our ordinance was vague. In particular, the court was referring to a clause that prohibited waste matter which was "unsightly and interferes with the reasonable enjoyment of property by neighbors." This language is similar to the state law which regulates nuisances.

I am suggesting that Hailey adopt language that prohibits nuisances as generally defined by state law, but include very specific examples of enumerated nuisances. I believe this approach will address the court's concerns. This approach is also used by other cities in Idaho and throughout the United States. I have incorporated and modified examples from numerous other cities.

The Council reviewed a draft of this ordinance at the July 13 meeting. I have revised the ordinance to include your suggestions. The revisions include the following:

1. A street tree definition was added.
2. Deletion of "offensive" in the section 8.04.030(2).
3. Consolidation of the vacant building language.
4. Added permissive language about the city's obligation to pursue an abatement of a nuisance.
5. Added a provision that made a nuisance an unlawful act. This provision allows Hailey to pursue a criminal action.
6. Increased the criminal penalty to a $1000 fine and 6 months in jail.

At the July 13 meeting, the Council asked for further staff review. I have again circulated a draft of this ordinance among department heads and have incorporated some of their suggestions. The primary suggestions from the department heads include the following:

1. Limit when an incomplete building can be declared a nuisance. Section 8.04.030(3) now only addresses an incomplete exterior, not an incomplete interior.
2. Building materials may now be stored during the duration of a building permit. See Section 8.04.030(9). Before, we limited the storage of building materials to 6 months.
3. The specific examples constituting nuisances for noxious weeds, trees and water flows were eliminated because staff felt it would be better to address these matters under existing law.

4. The language in 8.04.030(12) was modified to address only larger items. This modification would allow lawn furniture.

5. Language was added to show that other codes, such as the building, fire and zoning codes, may also be used to enforce. I added specific language that would recognize a citizen’s right of private enforcement against an offending party. See Section 8.04.090.

Overall, the department heads have several concerns. For example, there is a concern about the cost of enforcement. Several department heads feel that the complaints may be numerous and that individuals will enlist the city to enforce private disputes. It has been my experience that enforcement is time intensive. Staff will have to develop internal procedures on handling complaints. In addition, there is a concern about the cost of compliance to the City. At a minimum, the River Street property will need to be addressed. There is also a concern about the cost of compliance for the general public, particularly in these economic times.

If you have any questions, please contact me. Thank you.
