Re: Hailey Rodeo Park Bond Measure

Date: March 16, 2010

The Hailey City Council pledged to assist in the endeavors of the Hailey Rodeo Park fundraising efforts by securing half the project costs with voter-approved funding. With that approach, it is anticipated that Hailey taxpayers will be assisted in the project by community-wide support from the entire Wood River Valley. The result will be a unique recreational facility which celebrates Hailey’s history and brings new recreational activities and economic vitality to both Hailey and its surrounding communities.

The fundraising efforts are strong, with Hailey Ice, Inc. having over $500,000 in hand and strong donor support anticipated. The Hailey Parks Foundation has had nearly $100,000 pledged for the diverse project components. I anticipate that these fundraising efforts will be strengthened and accelerated by action of the City of Hailey to bring its promised support to Hailey voters for approval.

I have asked the staff involved in this project to agenda and discuss, during my absence, the financial options available to the City of Hailey for this project. Staff has worked through several financial approaches, some focused upon this project alone and some focused on the long-term capital needs of the city. My preferred option focuses on this project alone, but considers how it fits into the long-term capital needs of the city.

In short, my preferred option is a 10-year term General Obligation Bond for $3.5 million. This amount includes a small contingency above the estimated half-project cost of $3 million, which will ensure that details of design review, including additional landscaping, water conservation and energy efficiency elements can be paid for to reduce long-term operational costs, and that the historic preservation and public art components of the project are funded. Through this method, the 2/3 majority of voters needed to pass this measure can be assured of a high quality community project which will serve Hailey long into the future, but will leave us positioned to secure other capital needs funding when the economy becomes stronger through the coming years.

The specifics of various financial components are detailed in the attached documents from city staff, financial advisor Eric Herrington, and bond attorney Michael Moore. In my absence, I urge the Hailey City Council to consider these options in public hearing on March 22, and conduct a first reading of a prepared bond ordinance with details filled in by what evolves through the public hearing. Please schedule a special meeting in early April, perhaps on April 5, for a second reading and other city business which may need to be conducted. We shall then be prepared for a third reading of the bond ordinance on April 12, with appropriate publications thereafter leading to an election on May 25, 2010.

*50-236. CAPITAL IMPROVEMENT FUND LEVY -- LIMITATIONS. Cities are hereby empowered to establish a "Capital Improvements Fund", by ordinance, and levy a special tax not to exceed in the aggregate four-hundredths per cent (.04%) of market value for assessment purposes in any one (1) year. Said fund shall never exceed in the aggregate four-tenths per cent (.4%) of the market value for assessment purposes of the city. Such funds shall not be subject to the provisions of section 50-1014, Idaho Code. Said ordinance shall identify the specific purpose.

**63-802. LIMITATION ON BUDGET REQUESTS -- LIMITATION ON TAX CHARGES -- EXCEPTIONS. [EFFECTIVE UNTIL JANUARY 1, 2011] (1) Except as provided in subsection (3) of this section for tax year 1995, and each year thereafter, no taxing district shall certify a budget request for an amount of property tax revenues to finance an annual budget that exceeds the greater of:

(f) In the case of cities, if the immediately preceding year's levy subject to the limitation provided by this section, is less than 0.004, the city may increase its budget by an amount not to exceed the difference between 0.004 and actual prior year's levy multiplied by the prior year's market value for assessment purposes. The additional amount must be approved by sixty percent (60%) of the voters voting on the question at an election called for that purpose and held on the date in May or November provided by law, and may be included in the annual budget of the city for purposes of this section;

Staff Note—
Hailey's current levy is only .001287042. Increasing the levy, with voter approval, by the .04% (.0004) allowed for capital improvement funds (IC 50-236) would increase the levy to .001687042, which is still less than half the maximum .004 allowed by law.

Hailey paid off a 15-year G/O bond for the Fox Building purchase in 2008, and property taxes dropped in the following years (2009 and 2010) by $13.37 per 100,000 valuation. In addition, water rates were decreased in the fall of 2009 by $60/year for low-water users.

Hailey has applied for over $4 million in grants during the past year, and has so far been awarded over $700,000, with decision still pending on $3.2 million in grants.

(i) Upon completion of the proceedings to Bond Counsel's satisfaction, provide its legal opinion stating that the proceedings had for the authorization and issuance of the Bonds are lawful and valid, that the Bonds are valid and lawful special obligations of the City, and that interest on the Bonds is excluded from gross income for the purposes of federal and State of Idaho income taxation.

Section 3: COMPENSATION

(a) For rendering the services set forth in Section 2 hereof, Bond Counsel shall receive from the District compensation in the amount of Ten Thousand Five Hundred Dollars ($10,500). Provided, however, that if the City determines to issue the Bonds in two or more series of Bonds, Bond Counsel shall be compensated in the amount of $7,500 for the first series of Bonds and $5,000 for each additional series of Bonds. Said compensation shall be paid solely from the proceeds of such Bonds, when available, and shall be due following delivery of the Bonds.

(b) Bond Counsel shall also be reimbursed for direct out-of-pocket expenses, including necessary travel and lodging expenses incurred in attending meetings conducted by the District or other meetings relating to the Bond proceedings, as well as long distance telephone, special messenger or air courier service, and photocopying expenses incurred in performance of its duties hereunder.

(c) In the event that the City determines to issue the Bonds as Build America Bonds or other taxable/tax credit bonds, and Bond Counsel determines that the services of additional tax counsel are necessary in connection with the authorization and issuance of such bonds, the costs and fees of tax counsel shall also be payable by the City from the proceeds of the Bonds.

(d) Direct out-of-pocket expenses shall be billed following the month said expenses are incurred and shall be due and payable when billed.

(e) In the event the Bonds are not issued, sold, and delivered, Bond Counsel will be reimbursed only at the hourly rate normally charged by Bond Counsel for services actually rendered (with a maximum of $1000
total fee), and for direct out-of-pocket expenses incurred.

(f) Payment is due within thirty (30) days of receipt of the bill.

Section 4: TERMINATION

Upon completion of the proceedings set forth in Section 2 and upon the issuance of the Bonds, this agreement shall terminate, except for payment of the fees and costs as set forth in Section 3 above.

Liquidity in the municipal bond market has improved significantly since the autumn of 2008
Interest rate volatility has decreased
Municipal bond interest rates have declined significantly
The graph below shows the current yield curve for tax-exempt bonds as of March 15, 2010.

- The yield curve illustrates the increase in borrowing cost (interest rates) associated with longer repayment terms.
- Yield curve is steeper versus a year ago and much steeper than two years ago.
- Borrowing costs are low but so are interest earnings due to the slope of the yield curve.

Credit Spreads for Tax Exempt Bonds
10-Year Maturity
Build America Bonds (BABs)

- Issuers of otherwise qualified tax-exempt governmental obligations are entitled to issue taxable obligations in 2009-2010 and receive a direct subsidy payment equal to 35% of the interest cost from federal government. The subsidy payment is used to reduce the interest payment the issuer must make from its own resources.

- Proceeds of BABs are not subject to Davis-Bacon.

- No limit on BABs issuance and no application requirement.

- Provides a different way to sell bonds when determination is made that it will lower the issuers net borrowing cost.

BABs Analysis As of March 9, 2010
