BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

Background

Currently, there is no limit to the number of times a building permit can be extended. There are dozens of ongoing projects on record that began construction in past years and have yet to be completed. In at least two cases, permits that were filed prior to 2004 are still active and ongoing building projects. This has led to a confusing array questions on applicability of the current building code to a project that was permitted under an outdated code. For example, a project permitted in 2004 would have been required to meet 2000 or 2003 building codes. The current 2009 building codes have different requirements and safety measures that were not implement in the earlier codes.

To resolve this issue, staff met with a large developer with several ongoing building permits that have been extended since 2006. At the meeting, staff and the developer agreed that a maximum of four extensions would be adequate time to complete a project under any circumstance. Given our current code, this would mean a project would have a maximum of 1,268 days, or 3.5 years, from the issuance of a building permit to project completion. After that point, the builder would be required to submit a new building permit with new fees.

Proposed Amendments:

Building Permit Term of Validity (15.08.020 B)

- Limit the maximum number of building permit extensions to 4. This would allow 3.5 years for a project to be completed.

______________________________________________________________________________

FISCAL IMPACT / PROJECT FINANCIAL ANALYSIS:

There may be a slight reduction in building permit fees based on the windows and alternative energy system reviews.

SUBJECT: First Amendment to Big Wood 6 Cinemas phasing agreement

AUTHORITY: □ ID Code  □ IAR  □ City Ordinance/Code  (IFAPPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

The current phasing agreement between the city and Big Wood 6 Cinemas states the design review approval of Phase II will expire May 1, 2011 and construction of Phase II start no later than May 1, 2011. On April 25, 2011 the Council held a public hearing regarding the developer's request the start date be extended to May 1, 2016. At that time, the Council agreed to extend the start date by two years, to May 1, 2013. The Council stipulated the applicant could request another extension if necessary.

Since that time, the applicant did not sign the agreement the City Council approved in 2011, however no construction was done on the project. The current agreement consideration acknowledges the owner's failure to sign preview "First Amendment" agreement, which is the reason the current agreement is still titled, "First Amendment." The agreement for Council consideration extends the phasing to extend to May 1, 2016.
