SUBJECT: Water Conservation Ordinance

(BIFAPPLICABLE)

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

Two years ago we removed the odd-even watering restrictions to allow residents to experiment with watering on different schedules such as every 3 days or twice per week. With the pressure problems we have experienced and evidence that watering daily has been occurring we are proposing a return to the odd-even watering schedule. In addition, there is concern that the Idaho Dept of Water Resources could move towards conjunctive management in the valley which could affect our city wells. Such a move could necessitate curtailment of all irrigation within the city in order to conserve water for domestic purposes. This ordinance would give the mayor the authority to order this restriction.

AGENDA ITEM SUMMARY

DATE 4/14/08  DEPARTMENT: Building/WW  DEPT. HEAD SIGNATURE: DF/TH

SUBJECT

Municipal Code Amendment to defer payment of some fees to the time a certificate of occupancy is issued, rather than from the time a building permit is issued, for the purpose of encouraging the development of Energy Star Construction homes.

AUTHORITY: □ ID Code  □ IAR  □ City Ordinance/Code

BACKGROUND:

The council had undergone the first reading of an ordinance which deferred building permit fees, plan review fees, and development impact fees to the time of certificate of occupancy. Staff pulled that ordinance from the ordinance reading process following advice from the city attorney:

"I found a problem with the amendment process of the DIF ordinance. Idaho Code §82-8208(4) states the capital improvements plan has to be updated each time we propose an amendment of the DIF ordinance. It seems bizarre that we would have to do go through an extensive process to modify a CIP just to make a minor amendment to the DIF ordinance. But that is what it says." Ned

The ordinance deferring fees has been redrafted to defer water and wastewater connection fees rather than development impact fees. This change allows a larger fee amount to be deferred, and gives Hailey stronger collection authorities through it's water and wastewater fees collections sections of Title 13.

HAILEY ORDINANCE NO. 008

AN ORDINANCE OF THE CITY OF HAILEY, IDAHO, AMENDING SECTIONS 15.08.020(E) AND 13.40.140.A OF THE HAILEY MUNICIPAL CODE BY ALLOWING FOR THE DEFERRAL OF BUILDING PERMIT, PLAN REVIEW, FIRE REVIEW AND DEVELOPMENT IMPACT FEES TO THE DATE OF THE ISSUANCE OF A CERTIFICATE OF OCCUPANCY FOR ENERGY STAR CERTIFIED SINGLE FAMILY RESIDENCES; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Council of the City of Hailey have determined to allow applicants of building permits for residential structures which comply to Energy Star certified requirements to defer payment of building permit and plan review fees until time of issuance of Certificate of Occupancy.

NOW, THEREFORE BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF HAILEY, IDAHO, AS FOLLOWS:

SECTION 1. Sections 15.08.020 and 15.16.070.01 of the Hailey Municipal Code are amended the addition of the underlined language, as follows:

15.08.020 Amendment of codes. Pursuant to Idaho Code Section 39-4116(3), the following codes adopted pursuant to Section 15.08.010 herein or provisions thereof are added to, amended, altered and/or modified as follows:

12. All fees stated above, are payable at the time the building permit is issued except when on the application for a single family residence of an Energy Star certified project in which case fees other than those described in Sections I and II must be paid at the issuance of a Certificate of Occupancy.

13.04.140 (Water and Wastewater) Connection fees.

A. The Owner or agent of any Property connected to the Municipal Water or Wastewater System shall pay a water connection fee for the value of water service and a Wastewater connection fee for the value of Wastewater service. Connection fees paid to the City at the time a building permit is issued shall be paid in accordance with 5.08.020.E.12.

The basis for the connection fee for those persons or entities connecting to the Municipal Water and Wastewater Systems is to charge the value of the system capacity that the new user will absorb at that point in time. The value of the system is determined each year by updating the original construction cost of each major capital improvement to the system to determine the cost to replace that improvement in that particular year. This is accomplished by determining the annual average engineering news record construction costs index ("ENR (CCI)") in the year that the improvements were made and the year
that the connection fee is being determined. The ENR (CCI) for the year calculated is divided by the ENR (CCI) for the year in which the improvements were made. The value is then multiplied by the original cost for the improvements. The value obtained is the estimated cost to replace the improvements at the time the connection fee is calculated. The gross value to replace the system must be adjusted by subtracting the remaining bond principal to obtain the net value. The remaining bond principal to be paid for bond retirement is determined from the bond retirement schedule each year. The remaining bond interest is not subtracted from gross system value.

SECTION 2. If any section, paragraph, sentence or provision hereof or the application thereof to any particular circumstances shall ever be held invalid or unenforceable, such holding shall not affect the remainder hereof, which shall continue in full force and effect and applicable to all circumstances to which it may validly apply.

SECTION 3. All ordinances and parts of ordinances in conflict herewith are hereby repealed.

SECTION 4. This ordinance shall be in full force and effect from and after its proclamation, passage and approval and posting in at least five (5) public places in the City of Hailey.
