**PUBLIC HEARINGS:**
PH 319  Amendment to Municipal Code Chapters 13.02 and 13.04 to allow user base fees to be used for water and wastewater system expansion and define the use of surface water as a component of Hailey’s Municipal.

6:13:35 PM Mayor Davis asked Ned Williamson to give overview. He reported that some Woodside user fees had been questioned, therefore he made some proposed amendments now in the Council packets. Mayor Davis then opened the meeting to public comment.

6:15:11 PM Linda Hillman, 3041 Woodside Blvd., asked if landscaping improvements will cost homeowners or the City.

6:16:00 PM Peter Lobb, 403 E. Carbonate, thought the funding should come out of the City’s general budget, not out of homeowners.

6:17:00 PM Tom Hellen noted the City was not allowed to use general fund money in the water department. Mr. Lobb suggested another funding method should be found.

6:17:27 PM With no further comment offered, the mayor brought the meeting back to the Council.

6:18:06 PM After discussion, Carol Brown moved to approve Ordinance 1087, first reading by title only. Don Keirn seconded and the motion passed unanimously.

PH 320  Woodside Boulevard Final Design and Bid Package approval.

6:19:19 PM Lori Labrum and Jim Flair, JUB Engineers, delivered a Power Point presentation giving the project overview including approvals from agencies, scheduling, and public input.

6:22:50 PM Council discussion included question on the roll curb, sidewalks and bike paths.

6:23:45 PM Lori Labrum responded that JUB met individually with each property owner, identified spaces where parking could be added, and agreeing to removal of landscape buffers where necessary. Ms. Labrum pointed out that the result is there will not be a lot of landscape buffer in south Woodside.

6:25:10 PM Fritz Haemmerle asked if landowners were generally happy with the concessions. Ms. Labrum expressed confidence that they were, and hoped JUB could have approval to advertise for construction.

6:29:30 PM Council discussion included on whether this project could be done in one summer instead of two.

6:30:31 PM Mayor Davis opened the meeting to public comment.

6:30:41 PM Linda Hillman, 3041 Woodside Boulevard, noted that she has not heard from JUB nor the City since the meeting at the elementary school. She hoped parking could be accommodated in front of her home to avoid conflict with the bike lane. Mayor Davis asked Lori Labrum to contact Ms. Hillman the following day to work this out.

6:32:02 PM Mike Walbert, 1030 Woodside Boulevard, noted that he is close to reaching an agreement on the roundabout with Ms. Labrum and will continue to work with her.

6:34:01 PM Beth Robrahn gave an overview, noting that one condition (B) was taken care of on tonight’s Consent Agenda (311).

6:35:54 PM The meeting was opened to public, but none was offered.

6:36:05 PM Carol Brown moved to approve the final plat amended with conditions A-G as shown in the Council packet. Martha Burke seconded, and the motion passed unanimously.

PH 322 An application by Airport LLC for an amendment to the zone district map for the City of Hailey. The application would change the zoning of Friedman Park Subdivision, Lot 11A, Block 2 (960 S Main St), located near the intersection of Airport Way and Main St, from Light Industrial (LI) to Limited Business (LB); the P&Z Commission recommended approval conditioned upon a development agreement (continued from June 13, 2011).

6:37:16 PM Beth Robrahn gave an overview and noted that the P&Z Commission recommended approval with a development agreement that does not allow residential use on the property as long as the airport is there. The Airport Authority asked that noise language be included.

6:39:29 PM Ken Sangha, 230 Robin Hood Drive, noted he has been trying to do something to improve that property for years because it is right at the entrance to City and could be more aesthetically appealing. He expressed hope he could be given the rezone in order to use the property for assembly.

6:40:53 PM Fritz Haemmerle wondered why the City should allow this to be the only LB lot on that side of the highway. Beth Robrahn explained that the zoning fits into the long-term vision of that area.

6:43:31 PM Mayor Davis opened the meeting to public comment.

6:43:39 PM Peter Lobb, 403 E. Carbonate, expressed belief that it is inevitable that change will come to that part of town and he encouraged the rezone.

6:44:09 PM With no further comment offered, the meeting was closed to public comment.

6:44:24 PM MB noted that Rick Baird of Freidman Memorial Airport would like to add language to the development agreement to point out that the location is next to the airport and subject to noise and air pollution.

6:46:41 PM Carol Brown moved to adopt Ordinance 1088 approving the application subject to a development agreement prohibiting residential use, and adding language that noted the property was adjacent to the airport and would therefore be subject to possible air and noise pollution; and to authorize the mayor to conduct the first reading by title only. Martha Burke seconded, and the motion carried unanimously.

PH 323 Discussion of Friedman Memorial Airport Amended and Restated Joint Powers Agreement

6:48:41 PM Ned Williamson noted the history of the agreement and highlighted the changes in language. He noted he now generally accepts the county’s changes.

6:53:20 PM Mayor Davis opened the meeting to public comment. None was offered.

6:54:39 PM Fritz Haemmerle moved to approve the draft as presented in the Council packet. Don Keirn seconded and the motion passed unanimously.

HAILEY CITY COUNCIL MINUTES
June 27, 2011
Discussion of recommended land use and market strategy for the redevelopment of the airport site, titled “Friedman Memorial Airport Redevelopment Plan and Feasibility Analysis, a Recommended Framework Plan: Land Use and Market Strategy”. Consideration of resolution acknowledging receipt of the report and states the City generally adopts the framework described in the report. The strategy was presented to the public on May 23, 2011.

Beth Robrahn gave an overview noting her belief that it is important at this time to have a general guide for the first five or so years, and that this guide is designed to be flexible. She noted that the drafted resolution would accept the analysis already conducted and adopt these general guidelines. At the heart of this strategy is the creation of a campus setting in the middle of the project to attract new businesses, and that the strategy is not reliant on large format retail.

Council discussion ensued covering the potentially explosive nature of accepting large format retail use, encouragement of thorough public hearings, and whether this is consistent with other master plans. Fritz Haemmerle requested complete clarity that “no one is out there shopping for big box tenants.” Ms. Robrahn offered to get that assurance for him.

Tony Evans, Idaho Mountain Express noted that he was told Rick Roland was specifically recruiting big box tenants.

Jytte Mau, Hailey, questioned the layout’s affect on the downtown core.

Peter Lobb, 403 E. Carbonate, suggested redacting any reference to big box tenants from the report, and creating two alternative plans should this one not work out.

Jane Drussel, 106 S. Main, approved of having a plan, but is not in favor of large format retail of any kind. She cautioned the Council against any zoning changes between downtown the redevelopment are now. She preferred infill.

Jim Phillips, 20 Quigley Road, expressed his belief that the guiding document should be the Comprehensive Plan and that the City should compare carefully to see if this is compatible.

Tony Evans, Idaho Mountain Express, noted that consultants who came when Sustain Blaine had their original meetings said then that big businesses were interested in moving to Hailey. Mr. Evans believed those business names should be divulged.

Rick Baird, Friedman Airport, believed the City should take “some possession of this plan” since “the FAA and the airport authority ordered this plan to make city comfortable.”

Discussion between Fritz Haemmerle, Rick Baird, Jim Phillips, Rick Davis and Jane Drussel continued on land values.

Martha Burke expressed comfort with this conceptual plan with the understanding that it is fluid, and suggested perhaps language regarding big box retail could be changed or removed.

Council discussion continued on large format retail, making certain the Comprehensive Plan drove this conceptual plan rather than the other way around, the expense of obtaining this research and creating this plan.

Fritz Haemmerle requested a more concise resolution from staff to incorporate tonight’s discussion.

Beth Robrahn requested more direction in what should be included in a pared down resolution. Council continues with direction for Ms. Robrahn, and a suggestion to bring a revised resolution to the July 11 City Council meeting.
