6:08:48 PM Mayor Haemmerle explained that his vision is to make the product of the City the best it can be and to maintain a focus on quality. He clarified that the Grant Administrator’s pay raise was to $50,000.00 not the $51,000.00 mistakenly shown in the Council packet. He further noted that the Streets/Park Manager would also receive a pay increase, but no other positions would receive increases. Mayor Haemmerle further reminded of the importance of putting monies back into the City’s capital fund. 6:16:02 PM

PH 275 Review of Friedman Memorial Airport Authority agenda meeting documents July 3, 2012.

Mayor Haemmerle moved this item moved ahead of PH 274 as a courtesy to Susan McBryant and Rick Baird who were present at the meeting. Ms. McBryant, FMAA member, explained that items of discussion included a communication director position which would likely be a contract relationship rather than an employee of FMAA. She further noted some leadership issues in the FAA’s Seattle office and the question of when the suspended EIS would be addressed. Council discussion included FAA procedures and ongoing confusion there. The Council agreed that it is important to continue to refer to the City’s guiding principles.

Mayor Haemmerle asked staff to strongly urge the utilities into compliance, and complimented Knife River on good public reports for excellent customer service.

Mayor Haemmerle opened the matter to public comment. Geoffrey Moore, 406 1st Avenue South, noted Knife River’s comments in the recent Idaho Mountain Express regarding lost revenue due to slow downs. 7:27:53 PM  Geoffrey Moore was invited to speak by Mayor Haemmerle. Mr. Moore addressed the specific language and the intent behind Title 13 and the burden of requiring some citizens to upgrade their sprinkler timers. Don Keirn noted he had received information from a professional landscaper who said that some sprinkler timers do not easily accommodate variations from the odd/even programming. Tom Hellen noted that is an unintended consequence, but that water pressure would drop dramatically if everyone waters on one day.
7:33:07 PM  With no further comment, the meeting was brought back to Council.
7:33:38 PM  Consensus is reached to move this item on to public hearing.
