PUBLIC HEARINGS:

PH 471 Consideration of proposed Ordinance amendment to Section 17.8.2.5A of the Hailey Municipal Code allowing larger flags (96 square feet maximum) on taller poles (45 feet maximum height) on governmental property

5:53:42 PM Lisa Horowitz gave a background of this item. This request was directed to staff, Planning & Zoning Commission has considered this request. Horowitz suggests that this size flag could be left to government buildings. In the packet, recommendation from Planning & Zoning Commission’s suggested to not approve this request.

5:56:17 PM Sean speaks to council, he works for Ruscitto, Latham, Blanton Architecture firm (RLB). Sean comments that the size of the flag was proposed based on the size of building in close proximity to the proposed flag. Sean explains the reasoning for the request.

Public comments:

5:57:30 PM Peter Lobb, Hailey citizen suggests, do not pass this. Because of, first, Planning & Zoning’s recommendation, second, should a government have the right to have a larger flag and not let others do the same. From this perspective, this request does not work. Lobb speaks to the size difference of maximum allowed today with this proposed size, does not seem to make a difference in visibility. Lobb also suggests that we have a process to allow citizens to pay for this amendment, right now the city is paying for this, not fair to citizens. Lobb, lastly, suggests, we should pass this just because we are here? No we should not! Lobb suggests that Council head P&Z’s recommendation.

Council deliberation:

6:01:02 PM Keirn believes the size flag we have now is fine.

6:01:25 PM Cooley disagrees with Keirn, he likes big flags and feels it is good scale for the building size.

6:02:08 PM Burke suggests to look at the buildings from Fox Acres, size would be okay given the scale of the Rodeo arena, skatepark and Ice House. Burke feels it would be good.

6:04:16 PM Brown misses the guidelines justifying the scale and size of this proposed flag. Brown wondered if this was discussed. Horowitz answered. They way it is written, cannot support this request.
