He further noted that the design details will be more in line with downtown Hailey’s style.  Heather Dawson invited Gigi Lowe, 1111 Broadford Road and representing the Chamber of Commerce, to comment.  Ms. Lowe brought forth several concerns in details.  Mr. Bulls will meet with Ms. Lowe to review each of them.

Tom Hellen offered further explanation.
6:08:34 PM Council consensus was for Staff to move ahead. Fritz Haemmerle asked Tom Hellen if he is able to prioritize his list of CIP needs. Mr. Hellen agreed he could prioritize the list and also noted his feeling that the citizen survey will give further direction. Mr. Haemmerle requested the priorities be set before survey for reference. 6:14:02 PM

6:35:33 PM Chair Haemmerle opened the meeting to public comment.
Evan Robertson for Clear Creek Disposal noted their process on the proposal and asked for further City input before they submit a final proposal. Fritz Haemmerle opened discussion on how Hailey can improve recycling numbers. Mr. Robertson explained Clear Creek could provide some information to that end, and noted the company’s desire to continue working with the City.

Peter Lobb, 4th and Carbonate, expressed his feeling that educating the public is great, but “if the general public hasn’t figured out that recycling is a good thing, we should convince them via their wallets.”

Martha Burke noted there is a greater number of commercial clients in Ketchum, so comparing recycling in the two towns may not be valid.

With no further public comment offered, Mr. Haemmerle brought the meeting back to Council. Discussion included adjusting the point system for reliability, equipment, and recycled materials. Carol Brown pointed out that reducing waste going to the landfill “is good public policy” and noted she appreciated the tiered rate proposal. Further discussion included ways to educate and convince the public to participate in recycling.

Mr. Robertson requested further clarification on item 8. Mariel Platt explained the intent was to be open to any additional ideas for incentives.

Heather Dawson explained the goals for creating a system that manages records effectively.

Chair Haemmerle opened the matter to public comment. Peter Lobb, 4th and Carbonate, inquired if a new system would cost more than the present one. Heather Dawson stated she believed it should streamline costs.

With no further comment offered, Chair Haemmerle brought the meeting back to Council.

Council consensus was to bring this back to the upcoming special meeting with the draft text cleaned up for typos, strike-throughs, etc.
