

Rainbow Ecoscience Presents:

EMERALD ASH BORER 101 LUNCH & LEARN IN PARTNERSHIP WITH IDAHO DEPT OF LANDS

April 16th 2025

7:30 am–12:00 pm

College of Southern Idaho (CSI)
Shields Room 118
315 Falls Ave Twin Falls, ID 83301

DESCRIPTION

Emerald Ash Borer (EAB) has been arguably the most devastating invasive pest in the last 20 years in the country. Through research and experience, we now have better models, solutions, and an understanding of how we can better prepare communities for the arrival of EAB.

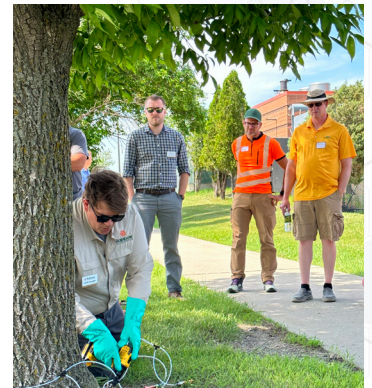

Join us Wednesday, April 16th 2025 to learn everything you want to know about emerald ash borer. This event is free to attend and is open to municipalities, tree care and landscape professionals, and non-profit organizations looking for information and guidance on how protect and preserve their constituents' and customers' ash trees.

What You'll Gain:

- Idaho's preparedness and action plans
- Guidelines to determine when and how you should treat ash trees
- Herd immunity techniques to allow communities to maximize management budgets and replanting efforts
- How agencies have managed EAB
- Demonstrations of field equipment and more

ADDITIONAL DETAILS

- Box Lunch
- Free Event
- ISA CEUs: 4.25
- Free Parking
- Idaho Pesticide CEUs: 2
