Mayor Burke slated to deliver State of the City Report

(Hailey, Idaho) – Mayor Martha Burke gave a State of the City Report to the Hailey City Council and full audience on March 11, 2024. Much like the President's State of the Union address, the State of the City report celebrates the community and government accomplishments, identifies challenges, and sets the stage for policy planning and budgeting for the year ahead.

The 2024 Report builds upon the Mayor and Council's mutually adopted budget goals from 2023. It lists the accomplishments of the City, identifies key challenges facing us, and outlines the top priorities of each department for the coming year. The Report can be viewed here:

States Mayor Burke: "Hailey is the greatest place I know to live and work, and for one primary reason: the community. Our small size has allowed us to know each other as neighbors and to operate with a small-town, friendly approach. This year, we face national and international uncertainty. This amplifies the importance of local government, where each and every citizen can make a difference."
