SUBJECT: Clear Creek Disposal Rate Increase Request

AUTHORITY: ☐ ID Code _____ ☐ IAR _____ ☐ City Ordinance/Code Ord. 1282;
Resolutions 21-044, 21-045, 22-103

BACKGROUND/SUMMARY OF ALTERNATIVES CONSIDERED:

As permitted under the governing documents, Clear Creek Disposal is requesting a commercial and residential solid waste/curbside recycle rate increase of 3.83% based on several inflationary factors:

- \$2-3 per hour on average increase in labor costs
- Increase in tipping fees at Milner Butte Landfill (from \$75 to \$78 per ton)

The city adopted rates include recycling within the base fee.

Attachments to this report:

- a) Letter from Clear Creek Disposal requesting rate increase and supporting documentation
- b) Ordinance No. 1282 Franchise Agreement (background only, no changes proposed)
- c) Resolution 2024-~~071~~, this will replace Resolution 2023-134 (Hold-back Provision, Section 5.c)
- d) Resolution 2024-~~074~~, new fee schedule
- e) Resolution 2023-133, existing fee schedule

Background

In 2021, the City adopted a new Franchise Agreement with Clear Creek Disposal on May 10, 2021 (Ord. No. 1282). The Franchise Agreement grants use of city streets and rights of way exclusively to Clear Creek Disposal for a ten (10) year term. The Franchise Agreement creates definitions, a grant of franchise and makes solid waste services mandatory within city limits; outlines rights and obligations of the City; duties of residential and commercial customers; annexation provisions. Much discussion took place regarding curbside recycling. The 2021 Franchise Agreement Ordinance provides for continued work to occur each year to complete the effort toward development of expanded or pilot recycling programs. See the Recycling section of this report for further updates on this topic.

The City also adopted annual resolutions related to the above. **Resolution 2023-134** outline the terms of the Franchise Agreement. **Resolution 2023-133** establishes rates for the various types of garbage service outlined in the Franchise Agreement. The latest "term resolution (2023-133) and the rate resolution are attached to this report.

Resolutions 2023-134: terms of the Franchise Agreement. These resolutions stipulate a list of approved fees, duties and responsibilities of the contractor and the city, franchise fees, data collection. Hailey's responsibilities include billing of customers (included in the municipal utility bill) and payment to Clear Creek. Section 5.c stipulates that Hailey remit fees collected to the contractor on a monthly basis, less 7% retained for billing services and 6% for the exclusive franchise fee. See discussion of Hold-back provision further in this report.

Resolution 2023-133 stipulates that the new fees shall be effective within 60 days of any amendment to this agreement.

Request by Clear Creek.

The attached letter dated August 6, 2024, outlines Clear Creeks request for the rate increase. In a nutshell, the rate increase is based on inflationary factors:

- \$2-3 per hour on average increase in labor costs
- \$75/ton to \$78/ton increase in tipping fees at Milner Butte Landfill

Staff concurs that these rate increases are justified with the documentation submitted.

Resolution 2023-133: Rates were established in Resolution 2023-133 with the rate table shown in the attachment. At the time of adoption, Council wished to encourage migration to smaller carts. Therefore, the rate for smaller carts was pushed lower than initially recommended by Clear Creek, and the rates for medium and larger carts pushed higher. Additionally, the charge for switching cart size was waived for the initial six (6) months to encourage cart migration to small carts. While there was a period of migration of 30 smaller carts in the initial month, these numbers dropped to approximately five (5) per month, which was fully offset by similar increases in cart size in the same month. Staff and Clear Creek have concluded that the rate incentives were largely ineffective. While the City retains a goal of encouraging households to move towards smaller carts, in 2022 the council found that the rate increase should be consistent across residential cart size, for simplicity and future tracking of rates and costs.

The attached documents outline how Clear Creek arrived at the rate increase. Staff have reviewed these numbers and are comfortable with the methodology. Clear Creek has proposed that the rate for residential and commercial customers be increased by **3.83%**.

In summary, staff concurs that the rate increase is reasonable given the cost factors outlined by Clear Creek.

Hold-Back Proviso Trust Account

As outlined in the Background section of this report, Section 5.c of Resolution 2022-103 stipulates that Hailey remit fees collected to the contractor on a monthly basis, less 7% retained for billing services and 6% for the exclusive franchise fee. Section 5.c(i) outlines a Hold-Back provision under which monthly payments to Clear Creek may not exceed \$158,000, with excess collections being held in an interest-bearing trust account *...to benefit the ratepayers in future rate resetting, including those contemplated, under negotiation, new services.*¹ Staff concurs with Clear Creek that the intent of the Hold-Back provision was for new and expanded services, generally related to recycling and NOT for new customer growth. Clear Creek has been servicing new customers over the last year and absorbing the costs: a total of 57² new residential and 13 new commercial customers since June 1, 2023-present. Adoption of higher rates requires the "ceiling" be increased on this Hold-Back Trust Account. Staff and Clear Creek concur that a new maximum monthly payment of \$168,000 is reasonable based on staff review of the contract revenues. Staff concurs that the applicant should be re-imbursed now from this Hold-Back Trust Account for costs associated with new growth absorbed during the contract year in the amount of \$80,068, and that Council approve staff to reimburse for the remainder of the period (June 1, 2024, through September 30, 2024) until the new rates are in effect in the amount of \$24,994 for a total of \$105,062.

Regarding the purpose of the Hold-Back Proviso, staff is exploring a variety of yard waste incentive programs, which will be brought at a subsequent meeting.

New Recycling Services Progress Report

Progress has been made over the last two (2) years to explore expanded recycling opportunities in Hailey. This includes:

- 1) **Successful installation of the new Carboard Compactor and upcoming compactor relocation.** The new compactor was installed by Clear Creek on February 1, 2022. Contamination rate has significantly dropped with the new equipment. The installation of cameras has allowed staff and/or Clear Creek to contact violators (those leaving other than carboard at the site), educate those who cannot figure out the equipment and leave their carboard outside of the compactor and other violations. Clear Creek checks the compactor site daily during the week and on weekends as needed. The compactor will be moved up to the corner of River Street and McKercher Blvd adjacent to Albertsons parking lot pending completion of electrical components.
- 2) **Regional Sustainability planning, recycling and waste reduction.** Hailey has allocated significant staff participation in the regional sustainability effort, which includes staff assistance and participation in the development of the Circular Economy Task Force goals. This Task Force, which includes Hailey, other jurisdictions, Clear Creek, Winn and other stake holders, has established regional goals for recycling and waste reduction, which were adopted as part of the Regional Sustainability Plan. The council heard two (2) presentations at the October 10, 2023, Council meeting: an update on future-looking recovery/recycling efforts planned for the Milner Butte landfill and an update on a Blaine County Recycling analysis, report which can be found [here](#). Blaine County will be hosting a regional meeting in October 2024 of all municipal partners to discuss waste diversion, public/private partnerships, markets for recyclables and long-term infrastructure recommendations found in the report. The strongest, most successful recycling efforts will result from this regional collaboration, and staff does not recommend that Hailey embark on any significant changes to our curbside recycling program until the regional effort is completed.
- 3) **Community Compost Program.** See staff update from the August 12, 2024 Council meeting, under staff reports: <https://haileycityhall.org/wp-content/uploads/2024/08/081224-City-Council-Packet-2.pdf>
- 4) **Yard Waste incentives and cost reductions.** This year, Blaine County eliminated free yard waste from Ohio Gulch. Staff is exploring various programs to alleviate this cost to Hailey residents and to encourage yard waste recycling. It is important to note that 40% of items currently being landfilled are readily recyclable, much of which is yard waste.

Staff recommends that we continue to participate in the regional sustainability effort and re-examine curbside recycling opportunities after a regional plan is developed. If a new curbside program is launched, trucks to service the program are over a year out on order. The launch of the community compostable recycling sites will also provide essential information as community interest in reduction of compostable waste.

Re: Rate Increase October '24

Dear Mrs. Horowitz,

Clear Creek Disposal has been informed that the Southern Idaho Solid Waste District will increase tipping fees effective October 1, 2024. As well other inflationary factors have continued throughout this past year. Please see the attached documentation regarding these increases that will necessitate a price increase effective October 1, 2024.

I have also included documentation of new business & changes in sizes of residential cart services for our annual settle up and new rate sheets showing new pricing for the increase.

I and our accountants are available for any questions that you may have regarding this information.

Respectfully,

Mike Goitiandia

RE: Rate adjustment effective October 1, 2024

Mike,

Per your request, I have analyzed the impact of the current inflationary environment on Clear Creek Disposal's ability to provide services to the City of Hailey. The primary components that I analyzed were fuel, labor, landfill rate and increased cost of equipment.

As you know, the current contract was based on lower costs of providing services. During the previous contract period, you have increased your average wage by \$2-3 per hour plus related payroll burden, landfill fees will increase another \$3.00 on October 1 from \$75/ton to \$78/ton and equipment acquisitions and maintenance continue to rise.

Please refer to the following attachment, and you can see that there should be \$80,068 of additional funds from new services that were added to the Hold-back Trust Account and is now due Clear Creek Disposal. See (1) on the attachment.

Based on the calculation referred to in the previous paragraph, you should request funds for new customers for the months June through September 2024. You will see this amount is \$24,994, which is derived from four months of new customers up to an estimated date of city council approval. See (2) on the attachment.

Finally, the recommended monthly contract payment should be revised as of October 1, 2024 from current monthly payment of \$162,500 to \$168,000. See (3) on the attachment. This amount incorporates new business, as well as current costs of labor, equipment and the pending increase in landfill fees. This adjustment equates to a 3.83% increase in the costs of services provided.

Also, an updated pricing schedule will follow that will reflect an approximate 3.83% increase in rates.

Sincerely,
Lallman CPAs + Advisors P.A.
